Notes	Sourcewell would be better for districts who spend a lot, however majority of purchases are smaller. For example, they spend \$200,000 but the largest PO is \$5,000. They would not see the additional discounts on those individual purchases, however would collect 3% in credit at the end of the year.	Omnia is better for districts who have larger individual purchases. They will receive the immediate benefit of the additional discounts when purchases are greater than \$10,000.
