OUR APPROACH

Our aim is for every academy within the Trust to be outstanding and achieve the best possible outcomes for pupils.

All of our academies receive at least three Challenge Partner visits annually. Challenge Partners are experienced senior professionals with a proven track record of school improvement. Visits provide both challenge and support to enable rapid improvement and are conducted jointly with senior leaders.

Additionally, our academies share best practice regularly via the School Improvement Team's work and academy leaders are part of school improvement-led education provision reviews across our schools.

School Improvement is also an integral part of Senior Management Team Meetings, where Principals have the opportunity to share practice, reflect on the latest educational developments and make strategic decisions about policy and practice.

The key features of the Trust's school improvement framework are based on the Trust's overall vision and the aim to achieve excellence as standard in everything we do:

- Leading the Trust strategically.
- Improving the workforce.
- Developing and utilising the best leaders.
- Monitoring and review.
- Additional support to vulnerable academies.
- Links with the School of Education, University of Brighton
- Improved initial teacher education opportunities.
- Continuing professional development opportunities.
- Research opportunities.

School improvement priorities across the Trust for the current academic year are:

Curriculum Development

- To ensure all academies have a well-established and ambitious knowledge-based curriculum in place.
- To ensure Cultural Capital is threaded through the curriculum.
- To ensure the curriculum is delivered effectively.
- To ensure all pupils know and remember the taught curriculum.
- To ensure all students can read by the end of KS2.

Attendance

- To develop the monitoring of attendance practices across the trust with a specific focus on SEN, PP, Off Rolling, Exclusion gamification and Alternative Provision.

Safeguarding

- To develop the monitoring of safeguarding practice further across the trust.

Children's Mental Health and Emotional Wellbeing

- To develop the monitoring of safeguarding practice further across the trust.
