Narrative: Summarize in the space provided your entity's recent efforts to increase transparency in the area of Debt Obligations. Be sure to:

- 1) provide explanations for any terminology that appears in the summary,
- 2) describe any benchmarks, standards or best practices your entity uses to gauge its progress in this area, and
- 3) detail any historical analysis used to track efforts to improve transparency in this area.

The Business Services Department is responsible for preparing financial reporting and debt information that promotes transparency and accountability. The District currently has seven series of bonds outstanding, three maintenance tax notes, and one note payable. The District has refunded bonds several times to take advantage of the decrease in interest rates. This has resulted in substantial savings for taxpayers (see schedule posted on website).

The District staff including the Superintendent, Assistant Superintendents, Human Resource Director, and Director of Business meet quarterly with a demographer to monitor the District's growth and need for additional facilities including long-range planning. There currently are several residential additions within the District's boundaries that will result in the need to issue bonds in the next two to five years.

The COVID pandemic has affected the District's student 2020-2021 enrollment by approximately 2.3% or 250 students. The majority of students have returned during the 2021-2022 school year. The District personnel believes the students will return next year and the District will continue to grow at a pace of 1 to 3% per year.

Note: To complete your application, see the specific criteria page for the Debt Obligations Transparency Star which details visualizations, documents, downloadable data and other required information.
