

FINANCIAL MANAGEMENT

Revenues From the Federal Government

It is the responsibility of the board of directors to provide the best educational services possible within resources available to the district. Federal grants and programs may provide helpful financial resources towards pursuing that objective. When it is optional for the district to participate in a federally funded program, the board shall receive a detailed analysis from the staff regarding both the advantages to be realized from the program and the additional costs in terms of staff time, impact on existing programs and new obligations that the program may require. Before authorizing participation in such a program, the board shall first determine that the advantages outweigh the disadvantages and that the program will not detract from other programs already in operation.
