### Professional Services Contract Review and Selection

The Kennewick School District believes that as a public support governmental organization it must ensure that all vendors and providers of professional services have fair opportunity to provide professional services to the District. Therefore, the District is requiring that on a three year cycle all professional services contracts be reviewed and that when deemed appropriate by the Superintendent or designee, a request for proposals (RFP) from all qualified vendors and providers be solicited. The provider proposals will be reviewed and the provider who best meets the needs of the District as stated in the criteria established in RFP will be selected.
