OCTOBER 2023 Employee of the Month Steve Pellerin

It is with great pleasure that I recommend Mr. Steve Pellerin as the Goodyear Early Childhood Center employee of the month. Mr. Pellerin serves as the custodian for our building and joined the Goodyear team in April, 2022. It was apparent from his first day on the job that our building would become a brighter place to be.

Children's health and safety is always our first priority. Because our program is accredited by the National Association for the Education of Young Children (NAEYC), we have specific standards related to Health and Physical Environment. Additionally, we are expected to meet Health and Safety Requirements as part of receiving CT Office of Early Childhood School Readiness Grant funding. A checklist is completed during all quarterly monitoring visits which includes items such as "outdoor play area is safe; classroom is clean and furniture/equipment is in good repair."

Mr. Pellerin is key to our program meeting all these requirements. He understands that young children must be provided a clean, safe environment in which to learn. The floors in our building are where much of our teaching and learning take place. Mr. Pellerin understands this and is attentive to their cleanliness through-out the school day. We encourage three- and four-year-olds to explore a variety of materials-from playdough to glitter to mud. Mr. Pellerin can be counted on to do clean ups of all kinds with a smile on his face.

Many visitors to our building comment what a warm, welcoming, nurturing environment we provide for young children and their families. Mr. Pellerin has everything to do with that. He spreads positivity everywhere and we can often locate him by hearing his singing and laughter. He goes above and beyond each and every day, for each and every child and staff member.

Thank you for this opportunity to recognize and thank Mr. Pellerin for his dedication to the children, families, and staff of the Goodyear Early Childhood Center.

Submitted by, Sally Sherman Principal, Goodyear Early Childhood Center Director, Killingly Family Resource Center

On behalf of the Board of Education, we commend you for your dedication to Killingly Public Schools.

Administering Medication

Opioid Overdose Prevention (Emergency Administration of Naloxone)

The Board of Education (Board) is committed to enhancing the health and safety of individuals within the school environment. The District will identify specific locations for the storage of Naloxone and protocols for its administration in emergency situations to assist individuals suspected to be experiencing an opioid overdose.

Definitions

Drug overdose means an acute medical condition, including, but not limited to, severe physical illness, coma, mania, hysteria or death, which is the result of consumption or use of one or more controlled substances causing an adverse reaction. The signs of opioid overdose include unresponsiveness; nonconsciousness; shallow breathing with rate less than 10 breaths per minute or not breathing at all; blue or gray face, especially fingernails and lips; and loud, uneven snoring or gurgling noises.

Naloxone (Narcan) means a medication that can reverse an overdose caused by an opioid drug. As a narcotic antagonist, Naloxone displaces opiates from receptor sites in the brain and reverses respiratory depression that usually is the cause of overdose deaths.

Opioid means illegal drugs such as heroin, as well as prescription medications used to treat pain such as morphine, codeine, methadone, oxycodone (OxyContin, Percodan, Percocet), hydrocodone (Vicodin), fentanyl, hydromorphone (Dilaudid), and buprenorphine.

Delegation of Responsibility

The Superintendent or his/her designee, in consultation with the school nurse(s) and the School Medical Advisor shall establish appropriate internal procedures for the acquisition, stocking and administration of Naloxone (Narcan) and related emergency response procedures pursuant to this policy.

The School Medical Advisor shall be the prescribing and supervising medical professional for the District's stocking and use of Naloxone (Narcan). The Superintendent or his/her designee shall obtain a standing order from the school physician/School Medical Advisor for the administration of Naloxone (Narcan).

Students

Administering Medication

Opioid Overdose Prevention (Emergency Administration of Naloxone)

The standing order shall be maintained in the Superintendent's office and copies of the standing order shall be kept in each location where Naloxone is stored.

The school nurse shall be responsible for building-level administration and management of Naloxone and management of Naloxone stocks. Each school nurse and any other individual(s) authorized by the Superintendent shall be trained in the administration of Naloxone.

Naloxone shall be safely stored in the school nurse's office or other location designated by the school nurse in accordance with the drug manufacturer's instructions.

The Board permits school nurses to administer Naloxone to any person at school or a school event displaying symptoms of an opioid overdose. The District will store the Naloxone kits in a secure but accessible location consistent with the district's emergency response plan, such as the nurse's office. Naloxone shall be accessible during school hours and during on-site school-sponsored activities.

Acquisition, Storage and Disposal

Naloxone shall be safely stored in the school nurse's office or other location designated by the school nurse in accordance with the drug manufacturer's instructions.

The school nurse shall obtain sufficient supplies of Naloxone pursuant to the standing order in the same manner as other medical supplies acquired for the school health program. The school nurse or designee shall regularly inventory and refresh Naloxone stocks, and maintain records thereof. In accordance with internal procedures, manufacturer's recommendations and any applicable Department of Public Health guidelines.

P.A. 23-137: An Act Concerning Resources and Support for Persons with an Intellectual or Developmental Disability Individualized Education Programs/Special Education Program

This mandated policy is updated to correspond with CSDE guidance related to Public Act 23-137, which "Extends IDEA eligibility through the end of the school year during which a student turns 22."

P6159(a)

Instruction

Individualized Education Program/Special Education Program

Any child, whether a student of the school district, of pre-school age, or between the ages of three and 22 years of age, inclusive, but not attending district schools, who is identified as being in need of a special program shall be referred to a "special education planning and placement team" (PPT) which shall make an evaluative study to determine whether the child is a child with a disability as defined in state and federal statutes and if special education is required and to establish the scope of the special education program.

Students receiving special education services under the Individuals with Disabilities Act (IDEA) remain eligible for such services up until their 22nd birthday or until they graduate from high school with a regular high school diploma, whichever comes first. The adult student or his/her parent/guardian will be asked by the District if the student wishes to receive the special education and related services outlined in their individualized education program (IEP) until they turn 22 years of age or they graduate with a regular high school diploma, whichever comes first.

In accordance with the regulations of the State Board of Education, each local and regional board of education shall: (1) Provide special education for school-age children requiring special education; (2) The obligation of the school district under this subsection shall terminate when such child is graduated from high school or at the end of the school year during which such child reaches age twenty-two, whichever occurs first.

Effective July 1, 2023, all students remain eligible for special education services under the Individuals with Disabilities Education Act (IDEA) through the end of the school year during which the students turns age 22, or until the student graduates from high school with a regular high school diploma, whichever occurs first. Pursuant to the Connecticut General Statutes §10-259, school year is defined as July 1 through June 30.

A parent of a child, the State Department of Education, other state agencies available to District may initiate a request for an initial evaluation to determine if the child is a child with a disability. Initial evaluations using a variety of assessment tools and measures to gather relevant functional, developmental, and academic information, must be completed within 60 calendar days of the receipt of written parental consent, for the initial evaluation; or implement the student's IEP within 45 school days of a referral, (not counting the time necessary to obtain written parental consent to conduct the initial evaluation or to begin providing special education). The 45 school day requirement begins after the District receives a completed and signed PPT referral form or letter requesting a referral to the PPT process or per a timeline determined by the State. Exceptions to this timeframe include children moving between school districts and parental refusal to make a child available for evaluation, as provided by law. Assessments for disabled children who are transfer students shall be coordinated between the sending or receiving district in an expeditious manner.

Individualized Education Program/Special Education Program

The timeline for implementation of an IEP must occur within 60 school days of the PPT referral in those situations in which a student's IEP requires an out-of-district or private placement (not including the time it takes to obtain written parental consent).

The District will provide parents/guardians with State Department of Education information and resources relating to IEPs as soon as a child is identified as requiring special education.

Planning and Placement Team or Individualized Education Program Team

The term "individualized education program team" or "IEP Team" means a group of individuals composed of -

- (i) the parents of a child with a disability
- (ii) not less than one regular education teacher of such child (if the child is, or may be, participating in the regular education environment);
- (iii) not less than one special education teacher, or where appropriate, not less than one special education provider of such child;
- (iv) a representative of the local educational agency who -
 - (I) is qualified to provide, or supervise the provision of, specially designed instruction to meet the unique needs of children with disabilities;
 - (II) is knowledgeable about the general education curriculum; and
 - (III) is knowledgeable about the availability of resources of the local educational agency;
- (v) an individual who can interpret the instructional implications of evaluation results, who may be a member of the team described in clauses (ii) through (vi);
- (vi) at the discretion of the parent or the agency, other individuals who have knowledge or special expertise regarding the child, including related services personnel as appropriate;
- (vii) the school paraprofessional, if any, assigned to such child, and
- (viii) whenever appropriate, the child with a disability.

Note: An IEP Team member is not required to attend all or part of an IEP meeting if the parents and District agree that the team member's participation is not necessary because the member's area of the curriculum or related services is not being modified or discussed at the meeting. If the meeting does involve a modification or discussion of the member's area of the curriculum or related services, parents and the District can agree to excuse the member from attending all or part of the meeting if the member submits written input to the parent and the IEP Team prior to the meeting. Parental consent in writing is required in either case.

Individualized Education Program/Special Education Program

In addition to the above, the special education specialist, school psychologist, school nurse, school social worker, counselor, or other student service worker who has conducted an assessment of the student shall participate whenever the results or recommendations based on such assessment are significant to the development of the student's individualized education program and placement. Where the student is limited or non-English speaking, a district representative who is fluent in the student's primary language and who is knowledgeable about the process of second-language acquisition and competent in the assessment of limited English and non-English speaking individuals should be included.

Any member of the PPT employed by the Board of Education who discusses or makes recommendations concerning the provisions of special education and related services during a PPT meeting shall not be disciplined, suspended, or otherwise punished for such recommendations.

The parent/guardian or surrogate parent shall be given at least five (5) school days prior notice of any PPT meeting and shall have the right to be present and participate in all portions of such meetings at which an educational program for their child is developed, reviewed or revised. In addition parents/guardians or surrogate parents have the right to be present at and participate in all portions of the PPT meeting at which an educational program for their child is developed, reviewed or revised. In addition, the parent/guardian/surrogate shall have advisors and the child's assigned paraprofessional, if any, be present at and participate in all portions of the PPT meeting in which the child's educational program is developed, reviewed or revised.

The District shall offer to meet with the student's parents/guardians, upon the request of the parents/guardians, after the student has been assessed for possible placement in special education and before the Planning and Placement Team (PPT) meets.

The sole purpose of such meeting is to discuss the PPT process and any concerns the parent/guardian has about the student. The meeting will involve a member of the PPT designated by the District before the referral PPT meeting at which the student's assessments and evaluations will be discussed for the first time. This applies to students under evaluation for possible placement in special education.

Upon request of a parent/guardian, the District will provide the results of the assessments and evaluations used in the determination of eligibility for special education of a student at least three (3) school days before the referral PPT meeting at which such results of the assessment and evaluations will be discussed for the first time.

Parents/Guardians and the District may agree to conduct IEP meetings, and other meetings, through alternative means, such as including but not limited to, videoconferences or conference calls.

Individualized Education Program/Special Education Program

- (a) General. The IEP for each child must include -
 - (1) An accurate statement of the child's present levels of academic achievement and functional performance based upon parental provider information, current classroom-based, local, state assessments and classroom-based observations, including -
 - (i) How the child's disability affects the child's involvement and progress in the general education curriculum; or
 - (ii) For preschool children, as appropriate, how the disability affects the child's participation in appropriate activities;
 - (2) A statement of measurable annual academic and functional goals that aim to improve educational results and functional performance for each child with a disability, related to
 - (i) Meeting the child's needs that result from the child's disability to enable the child to be involved in and progress in the general education curriculum;
 - (ii) Meeting each of the child's other educational needs that result from the child's disability; and
 - (iii) Providing a meaningful opportunity for the child to meet challenging objectives.

Alternate Assessments

(iv) A statement of "benchmarks or short-term objectives" is required only with respect to students with disabilities who take alternate assessments aligned with alternate achievement standards.

If a child will participate in alternate assessments based on either general or alternate achievement standards, the IEP must explain why the child cannot participate in the regular assessment and why the alternate assessment selected is appropriate for the child.

The IEP/PPT Team may only recommend appropriate accommodation or use of alternate assessment, but may not exempt students with disabilities from the state assessment.

Individualized Education Program/Special Education Program

- (3) A statement of the special education and related services and supplementary aids and services to be provided to the child, or on behalf of the child and a statement of the program modifications or supports for school personnel that will be provided for the child -
 - (i) To advance appropriately toward attaining the annual goals;
 - (ii) To be involved and progress in the general curriculum in accordance with paragraph (a)(1) of this section and to participate in extracurricular and other nonacademic activities; and
 - (iii) To be educated and participate with other children with disabilities and non-disabled children in the activities described in this paragraph;
- (4) A school must offer an IEP that is "reasonable calculated to enable a child to make progress appropriate in light of the child's circumstances." The child's educational program must be appropriately ambitious in light of his/her circumstances and every child should have the chance to meet challenging objectives. The IEP Team, in determining whether an IEP is reasonably calculated to enable a child to make progress should consider the child's:
 - Previous rate or academic growth,
 - Progress towards achieving or exceeding grade-level proficiency,
 - Behaviors, if any, interfering with the child's progress, and
 - Parent's input and any additional information provided by such parents.

The U.S. Supreme Court, in the $Endrew\ F$ decision stated, "any review of an IEP must consider whether the IEP is reasonably calculated to ensure such progress, not whether it would be considered ideal. (137S.CT. at 99)

- (5) An explanation of the extent, if any, to which the child will not participate with nondisabled children in the regular class and in the activities described in paragraph (a) (3) of this section;
- (6) A statement of any individual modifications in the administration of State or districtwide assessments of student achievement that are needed in order for the child to participate in the assessment; and
- (7) The projected date for the beginning of the services and modifications described in paragraph (a)(3) of this section, and the anticipated frequency, location, and duration of those services and modifications; and

Individualized Education Program/Special Education Program

- (8) A statement of -
 - (i) How the child's progress toward the annual goals described in paragraph (a)(2) of this section will be measured; and
 - (ii) How the child's parents will be regularly informed (through such means as periodic report cards), at least as often as parents are informed of their non-disabled children's progress, of
 - (A) Their child's progress toward the annual goals; and
 - (B) The extent to which that progress is sufficient to enable the child to achieve the goals by the end of the year
- (9) Reevaluation of a student's progress may not occur more than once a year unless agreed to by the parents and the District. Reevaluation must occur at least once every three years unless the parent and District agree that it is unnecessary.

NOTE: In order to make FAPE available to each eligible child with a disability, the child's IEP must be designed to enable the child to be involved in, and maybe progress in, the general education curriculum ("the same curriculum as for nondisabled children which is based on a State's academic content standards. This alignment must guide, and not replace the individualized decision-making required in the IEP process.)"

(b) Transition services.

- (1) The IEP must include
 - (i) For each student beginning not later than the first IEP to be in effect when the child is sixteen, fourteen and younger if the PPT determines it appropriate, and updated annually, thereafter, appropriate measurable postsecondary goals based upon age appropriate transition assessments related to training, education, employment, and, where appropriate, independent living skills; and the transition services, including courses of study, needed to assist the student in reaching those goals.
 - (ii) For each student beginning not later than the first IEP to be in effect when the child is sixteen, fourteen(or younger, if determined appropriate by the IEP Team), a statement of needed transition services for the student, including courses of study, needed to assist the child in reaching these goals:
 - (iii) For each student, who is at least fourteen years of age, and diagnosed with autism spectrum disorder, beginning not later than the date on which the first IEP takes effect, a statement of transition service needs which shall include appropriate transition assessments related to training, education, employment and where appropriate, independent living skills. In addition, the statement of transition

Individualized Education Program/Special Education Program

needs shall include the transition services, including courses of study, needed to assist a child in reaching those goals. Such IEP shall be updated annually.

- (iv) (ii) For a student no longer eligible for services due to graduation from high school with a regular diploma or for a student who exceeds the age of eligibility under State law, a summary of the student's academic achievement and functional performance including recommendations on how to assist the student in meeting his/her postsecondary goals.
- (2) If the IEP team determines that services are not needed in one or more of the areas specified in §300.27(c)(1) through (c)(4), the IEP must include a statement to that effect and the basis upon which the determination was made.
- (c) *Transfer of rights.* Beginning not later than one year before a student reaches the age of majority under State law, the student's IEP must include a statement that the student has been informed of his or her rights under this title if any, that will transfer to the student on reaching the age of majority, consistent with §615(m)
- (d) Students with disabilities convicted as adults and incarcerated in adult prisons. Special rules concerning the content of IEP's for students with disabilities convicted as adults and incarcerated in adult prisons are contained §612(a)(5)A.
- (e) Students with disabilities identified as deaf or hearing impaired. For a child identified as deaf or hearing impaired, the PPT shall develop an IEP which includes a language and communication plan which shall address;
 - (i) the child's primary language or mode of communication;
 - (ii) opportunities for direct communication between the child and his/her peers and professional personnel in the primary child's language or mode of communication;
 - (iii) educational options available to the child;
 - (iv) the qualifications of teachers and other professional personnel administering the plan for the child, including their proficiency in the child's primary language or mode of communication;
 - (v) the accessibility of academic instruction, school services and extracurricular activities to the child;
 - (vi) Assistive devices and services for the child;
 - (vii) Communication and physical environment accommodations for the child; and

Individualized Education Program/Special Education Program

(viii) An emergency communications plan that includes procedures for alerting the child of an emergency situation and ensuring that the specific needs of the child are met during the emergency situation. Such plan is to be developed for a student identified as deaf, hard of hearing, or both blind or visually impaired and deaf.

Transfers

When an individual has been on an IEP in another school district, the PPT shall make an evaluative study of the student and develop an IEP for the student as though the student were newly referred, but the PPT may use the previous IEP (if available) in developing the new one.

If the transfer involves districts within Connecticut, the District will provide services "comparable to those described in the previously held IEP," until the District adopts the previously held IEP or develops, adopts, and implements a new IEP. If the student has transferred from another state, the District will provide services "comparable to those described in the previously held IEP," until the District conducts an evaluation, if deemed necessary, and if appropriate, develops a new IEP. If a student who is on an IEP transfers from this district to another, or to a private school, the written IEP and any additional records relating to the student's program and achievement shall be forwarded to the receiving school on the request of the receiving school and the individual's parent or guardian.

Independent Educational Assessment

If an independent educational assessment is necessary, it shall be conducted by a Connecticut credentialed or licensed professional examiner who is not employed by and does not routinely provide assessment for the State Department of Education or this District.

The Killingly Board of Education shall operate and maintain the following standing committees:

- Curriculum
- Facilities
- Fiscal
- Policy
- Personnel

Frequency of Meetings

Standing committees shall meet at least bimonthly (every two months) during the school year, and may convene more frequently at the discretion of the committee chair or at the request of the Chairperson of the Board.

Responsibilities of Standing Committees

Curriculum

The Curriculum Committee is responsible for reviewing issues concerning programs, services, and data related to curriculum, instruction and assessment, and, when appropriate, making recommendations to the Board. The primary responsibility of the committee is to work with the administration to develop and assess programs and services to meet the educational needs of the community; the committee will also review recommended textbooks for Board approval. The committee may also be responsible for other tasks that the Board of Education deems appropriate to Curriculum.

Facilities

The Facilities Committee is responsible for reviewing issues related to strategic facilities planning, capital improvement planning and future facilities projects, and, as appropriate, making recommendations to the Board. The primary responsibility of the committee is to work with the administration to review, develop and assess facilities maintenance and projects to meet the educational needs of the community.

The committee may also be responsible for other tasks that the Board of Education deems appropriate to Facilities.

Fiscal

The Fiscal Committee is responsible for reviewing issues concerning the financial status of the Board of Education, and, as appropriate, making recommendations to the Board. The primary responsibility of the committee is to advise the administration in the development and presentation of the yearly budget for the operation of the school district. The committee may also advise the administration in the pursuit of policies and practices that will result in the fiscally sound operation of the district.

The committee may also be responsible for other tasks that the Board of Education deems appropriate to Fiscal.

Standing Committees

Personnel

The Personnel Committee is responsible for reviewing issues concerning negotiations, leaves of absences, superintendent evaluation process, review of new proposed positions, and hiring practices.

The committee may also be responsible for other tasks that the Board of Education deems appropriate to Personnel.

Policy

The Policy Committee is responsible for reviewing issues concerning the operating policies and regulations of the district and the bylaws and regulations of the Board of Education. When appropriate, the Committee makes recommendations to the Board.

The primary responsibility of the committee is to advise and direct the administration in the development of policies, bylaws and regulations to guide the efficient and effective management of the district. The Committee is charged with the following: formulate policies, bylaws and regulations to be presented to the entire Board for action; suggest amendments and revisions of existing policies; and conduct regular reviews of the policy manual.

The Committee may also be responsible for other tasks that the Board of Education deems appropriate to Policy.

Ad-hoc Committees

Ad-hoc committees may be created as deemed necessary by the Board of Education.

Committee Membership

The Chairperson of the Killingly Board of Education shall make appointments to each committee.

- 1. Appointments to standing committees and liaisons shall be for two years.
- 2. The Chairperson shall appoint no more than four, no less than three members to a committee.
- 3. Liaison assignments are not considered to be committees.
- 4. Any member of the Board who is interested in serving on a particular committee should notify the Chairperson promptly concerning their interest, and the Chairperson shall give due consideration to such requests.
- 5. Each Board member must be appointed to serve on at least one standing committee, unless the Board member has clearly articulated an inability to serve.
- 6. A chairperson shall be elected at the first meeting of each committee and will be responsible for record keeping duties for that committee.
- 7. The Board Chairperson shall serve as an ex-officio member on all committees and shall be included in the quorum count.

Board members may participate in meetings, with exception of executive sessions telephonically or through video conferencing, subject to the conditions set forth herein and state/federal law, including any applicable Executive Orders issued by the Governor of the State of Connecticut. When such conditions are met, any Board member participating telephonically or through video conferencing shall be counted for the purpose of constituting a quorum.
- B. <u>Board Meetings</u>. Board members may participate in Board meetings telephonically or through video conferencing with exception of executive sessions.
- C. <u>Committee Meetings</u>. Remote participation of a Board member at any Board committee meeting shall be limited to telephonic participation only.
- D. Other conditions for participation are as follows:
- 1. The facility that is made available to the public that wishes to attend the meeting must be located where the greatest number of Board of Education members are located;
- 2. Any physical or demonstrable material that is used in the course of the proceedings must be present in the place where the public is located; and
- 3. All those in attendance at the meeting, at whatever location, must be able to hear and identify all participants in the proceeding, including their individual remarks and votes.
- 4. A Board member participating in a meeting telephonically or through video conferencing shall attempt to be present for the entire meeting, and should attempt to re-establish connectivity promptly in the event of one or more losses of connectivity to the meeting. A Board member may be excused by the presiding Board officer or Committee chair.
- E. When a Board member is participating in a meeting telephonically or through video conferencing, the presiding officer shall take the necessary steps to ensure that the conditions enumerated above are met. In addition, the presiding officer shall take the necessary steps to ensure that a Board member participating telephonically or through video conferencing has adequate opportunity to express himself/herself in Board discussion, including the opportunity to take the floor and make motions.

RE: Monthly Financial Report (September 2023)

DATE: October 20, 2023

Attached please find the financial report (with a report date of 9/29/2023) for the month of September, the third month and end of the first quarter of fiscal year 2023-2024, which reflects expenditures and encumbrances of \$11,027,560 or 23.56% of the \$46,805,118 budget.

1. **BUDGET STATUS:** Fiscal year 2023-2024 continued with the active employee turnover we have experienced over the last couple years. Staffing of positions and projection of the related salary and benefit costs remain a challenge and will be a primary focus of the budget review over the course of the year. At this early point, there are no specific budget accounts of particular concern. There are conditions related to transportation staffing and the use of outside carriers where a budget impact cannot yet be quantified but will require continued monitoring. Vacancies and temporary staffing situations have been valued with placeholders of estimated costs and durations. In general, most accounts are at expected levels of expenditures and encumbrances. Projected costs for special education outplacements are within the budgeted appropriations but have not been fully recorded as of 9/30/23. Third-party transportation costs for some of these placements have been included in the analysis. Arrangements are being made and changed as staffing and other conditions change. Details of the projected costs are provided in the **OTHER** section below. Other notable accounts are detailed in the following commentary.

SALARIES:

Expenditures for six payroll periods (out of 26) or 23.08% for our full year (twelve month) employees. Salary accounts for School Administration (5112) and Secretarial/Clerical (5121) are at the expected expenditure levels.

School Administration (5112) salaries are projected to exceed the budget by \$(106,000) primarily due to the addition of a twelve-month Interim Athletic Director position. Corresponding savings from the elimination of the prior part-time Athletic Director position are reflected within the Co-Curricular Stipends (5119) line-item.

Analysis of the Teachers' Salaries (5113) accounts as of 9/30/23 shows a preliminary budget surplus of approximately \$300K. Several placeholders have been included for positions not yet filled or filled with uncertified staff. This figure will change over time as vacancies are filled and certifications are received.

Paraprofessionals (5122)- Projection of paraprofessional salaries reflects an anticipated budget surplus of approximately \$68K as of 9/30/23, primarily due to staff turnover and position vacancies. In contrast to last year, most of the budgeted paraprofessional positions have been filled as of the end of September.

Student Services (5127) at 52.88% expended include payments for summer help in the Agriculture Education, Information Technology, and Operations and Maintenance departments.

BENEFITS:

Health/Dental Insurance (5210)- Three months of contributions to the health insurance fund for 2023-2024 have been made. Based on current enrollments and placeholders for potential additions, a line-item surplus of approximately \$237K is indicated. This figure will change with additional hires expected along with normal staffing and coverage changes throughout the year.

HSA Contributions (Health Savings Account) (5212)- As of the end of September most HSA account holders have received 50% of their annual contributions. Agreements for the administrators, supervisors, paraprofessionals, nurses, and teachers call for 50% of the annual contribution to be made in September. Contributions to health savings accounts as of September 30, 2023 totaling \$207,288 reflect the terms of the collective bargaining unit agreements. The collective bargaining unit agreement through June 30, 2025 for the custodians, secretaries, et al. requires 50% of the annual contribution to the health savings accounts to be deposited in July with the remaining 50% to be deposited in January 2024. The agreement through June 30, 2026 with supervisors requires 50% contribution to be deposited in July with the remaining 50% to be deposited in January 2024. The remaining units' agreements call for 50% of the annual contribution to be made in September. Projection of expenditures for HSA contributions based on the current and expected staffing in line with health-dental insurance expenditures indicates a line-item surplus of approximately \$45,000.

Life Insurance (5213)- Three months of life insurance payments have been made as of 9/30/23.

Disability Insurance (5217)- Three months of the Board of Education's share (66%) of administrator disability insurance payments have been made as of 9/30/23.

HRA Funding (Health Reimbursement Account) (5218)- HRA funding is provided as an alternative to HSA contributions for employees enrolled in Medicare and ineligible to contribute to a health savings account. In lieu of the HSA deductible funding, health expenditures up to the annual contribution amount are paid through an administrative service agreement with 90 Degree Benefits. Health reimbursement account expenditures are recorded in the month incurred. HRA funding was budgeted based on the participants enrolled in 2022-2023. As of 9/30/23, there are only two participants and expenditures of

\$40.55. If the currently enrolled participants use their maximum contributions and rollover balances from the prior year, there will be a line-item surplus of \$3,037. at year-end.

Pension (5231)- Contribution to the defined benefit pension plan for non-certified staff is actuarially determined and will be booked by the Town by year-end.

Unemployment Compensation (5250)- The State of Connecticut rolled out a new tax and benefit system, ReEmployCT, in July 2022. As a reimbursable employer, Killingly Public Schools' billing was to be switched from monthly to quarterly. As of the end of September no invoices for unemployment compensation have been received or paid. An inquiry report of employer charges for the third quarter of 2023 indicates potential charges of \$9.334.

Workers' Compensation (5260)- The full year premium has been encumbered for 2023-2024, leaving an available balance of \$16,845. This balance is not expected to materially change.

OTHER:

Field Trips (5324)- The 9/30/23 report reflects 36.27% of the budget expended or encumbered. Most of the expenditures and encumbrances are for KHS Athletics and for outside carriers to provide the transportation services. This line-item requires attention since these trips can cost as much as five times the cost of district-provided transportation. Alternate arrangements are being considered to reduce the reliance on outside carriers.

Pupil Transportation (5510)- While no expenditures were made as of the 9/30/23 report, our reliance on outside transportation providers continues for much of the out-of-town special education runs and athletics transportation. The 2023-2024 line-item budget of \$35,000 was prepared with the assumption that most runs would be covered with indistrict staffing. For the most part, we are currently covering the regular education runs with in-district staffing. Driver absences for medical and personal issues continue. The financial impact is difficult to project, with both staffing and transportation needs evolving throughout the year. This is an area requiring continued monitoring.

Other Insurance & Judgments (5529)- \$16,375 was paid for the annual premiums of the interscholastic sports accident and catastrophic accident medical policies.

Tuition (5560)- Tuition for magnet schools has not yet been encumbered, pending enrollment information from the various schools.

Local and Agency Placement Tuition (5561) and (5562)- Local and agency outplacements per the September 30 report reflect balances of \$542,311 and \$190,000 respectively. Approximately \$3,705,689 of expenditures and encumbrances for local and agency placement tuition has been recorded for known placements. The addition of pending

outplacements not yet recorded increases the expected expenditures to \$4,595,929, exceeding the budget of \$4,438,000 by \$157,929. Related transportation costs have been encumbered in some cases, with other arrangements pending review. Excess cost reimbursement for these placements has also not been calculated but is expected to cover the overexpenditure at its current projection, resulting in no impact on the overall budget. The payment of the excess costs grant was modified by the State last year to include three tiers of reimbursement percentages based on a town's wealth ranking. Comparisons of expenditures and encumbrances from year to year at this early juncture may lead to unrealistic assumptions. Any differences could be due merely to timing issues in the recording of anticipated costs in the financial accounting system. Analysis of these accounts will be ongoing as the variables change throughout the year.

The Other Purchased Services (5590) line-item budget includes Adult Education services provided by Eastconn and the School Resource Officer (SRO) and Armed Security Officers (ASO) provided by the Town of Killingly. To date, only expenditures of \$94,636 for Adult Education services have been made. Reimbursement for the SRO and ASOs will be booked by the Town at year-end. As of 9/30/23 only three of the five budgeted ASO positions have been filled.

Heat Energy (5620)- The 2023-2024 budget was prepared with the expectation natural gas service would be operational for Killingly High School and Killingly Central School. The heating oil previously budgeted in this line item was removed and replaced with natural gas budgeted in Utilities (5410). Due to unexpected conditions, natural gas service has not begun at either school as of 9/30/23. However, natural gas service is expected for Killingly Central School for the heating season, with no need for heating oil purchases. Killingly High Schools' conversion has been extended due to discovery of unknown conditions requiring additional work. The timeline for completion of this work is unknown, as the scheduling must consider the occupancy of the school. It can be anticipated that heating oil will be needed for some portion of the year.

Dear BOE.

Subject: STN Convention Field Trip 2024

I am writing to request permission to travel with eighteen students and one chaperone to this year's Student Television Network Convention, once again being held in Long Beach California. This will be Killingly High School's sixteenth year attending the convention. This year's participants will be made up of students from the Broadcast Journalism Honors and CP courses. The dates of the convention are from Thursday March 14th through Sunday March 17th, 2024. At the convention the students will learn video production techniques and tips from broadcast professionals. They will also compete against other students from around the country producing a variety of video production projects. This will be a great opportunity for KHS students to gain practical experience in a real broadcasting environment. It will also be an excellent time for our students to demonstrate the skills they have learned in our program. This year's KTV students have a great opportunity to continue the winning tradition that has been established over the years. Our program is highly regarded nationally at STN and continues to have success against other much larger schools and programs. KHS will be one of only a handful of schools from Connecticut to compete at the convention. This trip has become somewhat of a tradition now for video tech students and it is a goal that the students strive for as they progress through the program.

I would like to arrive in California a few days early to allow the student to experience some of the media and film related attractions in the area. The complete trip, including travel days, will last from Tuesday March 12th until Sunday the 17th. Most likely we will fly direct in and out of Boston or Hartford and hotel accommodations have not been announced yet but will be within walking distance of the convention location at the Long Beach Convention Center.

Plans are being made to meet with parents to outline the trip and work on fundraising. I will meet with parents again in January when the trip departure date gets closer to go over the details. We will cover a majority of these costs through fundraising and donations but parents may be called upon to fund a small portion of their child's expenses. In the past, the students have always benefited from the experience, been quite successful, and used their new knowledge to help grow and advance the video tech program. If you have any questions or need additional information please contact me. Thank you for your time and consideration.

Thank you,

Dan Durand Video Technology Teacher Tech Ed Dept Coordinator Killingly High School
