ASSIGNMENT #2:

Alcohol Laws – DWI Story Reflection – INDIVIDUAL REFLECTION - 25 points

Think about the story you just saw in the video clip. Imagine that you had a family party at your house on a Sunday, just like the man in the video. Alcohol was not consumed at your party and your loved ones left your house. How would you feel if you got the phone call that the family in the video received saying that your loved ones had been killed in a drunk driving accident? Explain your thoughts and feelings about the story. Some areas to think about in your response:

- Reflect on the story seen in the video: a mother who drives drunk with 5 children in the car, driving the wrong way on a highway for 2 miles, the image of the cars after the crash, the helpless children who were probably not aware of the driver's condition.
- The man who lost his father and brother in the crash: having a party that caused them to be on the road at the time of the accident, maybe giving them a hard time for leaving so they stayed later and got in the accident as a result, the guilt, anger, and other feelings the man may feel, wondering about answers to the many questions he has, knowing he will never get them.
- Understanding the power alcohol has over someone, to cause a mother to put her children and other family member's children in danger by driving drunk, the lack of judgment and impaired decision making alcohol creates.
