8th Grade “Dr. Know” Disease Fact Sheet

Choose a disease we discussed in class. Each group will work together to create 1 informational pamphlet containing important information about the chosen disease. Organize the information in a creative manner. Include any information you think someone would like to learn about this disease. Ideas to include are:

- Name of disease
- Communicable or Non-Communicable (include brief explanation of each)
- Risk Factors for the disease
- Symptoms/signs of the disease
- What does the disease do to you?
- How might family be affected?
- Treatment Options
- Truths/myths of the disease
- Any other information you feel is important to educate someone about the disease

GRADING: 50 points total:

20 individual grade
