

2023 Healthy Kids Colorado Survey: High School

This document includes all questions on the high school standard version of the 2023 Healthy Kids Colorado Survey. School districts may request to add or remove questions. When administered online, skip logic is used to streamline the student survey experience, which means most students do not see all questions. Skip patterns are noted in specific questions below.

Notes as of 7/13/23: Student instructions may be revised prior to the fall survey administration.

STUDENT INSTRUCTIONS

You are about to take the Healthy Kids Colorado Survey. This survey is about your health and things that affect your health. Your answers are very important and will help your school, community, and state leaders support youth health for people your age right here in Colorado.

This survey is anonymous, which means your answers cannot be tied to your name or identity in any way. No one will know how you answer and your responses will not be tracked by your student login or device. Your school has been asked to turn off any device monitoring programs and your teacher has been instructed to stay at the front of the classroom to respect your privacy.

Taking the survey is voluntary. You may choose not to answer some or all of the questions. If you are not comfortable answering a question, just leave it blank. Whether or not you answer the questions will not change your grade in this class.

When you are done with your survey, please read or sit quietly to allow everyone to finish in silence. Thank you!
