**Subject:** Eastern Center for Arts and Technology

Hello ALL,

I am sending out this email to you as you have an association with Eastern's PN program, thus are included in our Communities of Interest (COI) group.

First off, I would like to thank-you for your on-going support of our Practical Nursing program. The clinical experiences or financial support you provide our students is beneficial in many ways. The support assists with program completion and our excellent NCLEX-PN (licensing board) First Time pass rate. Below you will find data on our 2022-2023 program outcomes.

See attached for our 2022-2023 Program Outcome data.

In addition, the program has recently begun to track our five curriculum End-of-Program-Student Learning Outcomes (EPSLOs).

Our five EPSLOs are as follows:

1. **Clinical Decision Making** – Demonstrate appropriate clinical decision making based on evolving critical thinking/clinical judgment in the delivery of nursing care.
2. **Teamwork** – Contribute to the interdisciplinary team by communicating using positive interpersonal skills to convey knowledge to promote patient safety and continuity.
3. **Safety** – Provide a patient care environment that minimizes the risk of adverse events by making clinical decisions based on nursing knowledge and evidenced based practice.
4. **Patient Education** – Provide patients with information needed to promote health/wellness and to effectively manage disease.
5. **Professionalism** – Demonstrate responsibility and accountability for personal and professional development that includes legal and ethical principles and complies with the standards of nursing practice.

Preliminary data demonstrate that the program is strong in *Clinical Decision Making*, *Teamwork* and *Safety*. The program needs improvement in *Patient Education* and *Professionalism*. The program has added curriculum content and student assignments to improve these areas.

We look forward to working with you over the 2023 – 2024 year. If you have any questions, please feel free to contact me.

Many thanks!

Carol Duell, MSN, RN
