## Health Exam Requirements for Incoming 9<sup>th</sup> and 11<sup>th</sup> Graders

July 1, 2023

Dear Parents/Guardians,

It's time to look ahead to the 2023/2024 school year. Physicals are required for **9<sup>th</sup> and 11<sup>th</sup> grade** students. An approved NYS School Health Examination Form must be used to document the health physical. This form should be provided by your doctor.

Hearing and vision screenings will continue to be done at the 11th grade level, with Scoliosis screening required for boys only, in 9<sup>th</sup> grade. If you have any concerns regarding vision or hearing at any grade level, we are more than willing to screen your child at any time.

Please schedule your child's health physical to avoid any issues with noncompliance in September. Physical forms can be delivered to the health office, or faxed to 585-336-8294.

Like always if you have any questions or concerns, please do not hesitate to call the school.

Sincerely,

Health Office  
Irondequoit High School
