

**Montrose Community Schools
Safety & Facilities Committee Meeting
September 7, 2022 5:00 p.m.
Admin Conference Room**

A. Call to Order

Present: Coetta Adams, Barry Gross, Ron Loafman (Chair)

Others: Linden A. Moore

Absent: None

B. Welcome

C. Goal Setting

D. HVAC Upgrade

- HVAC plans from IDI Architects
- Next Steps

E. Roofing Projects

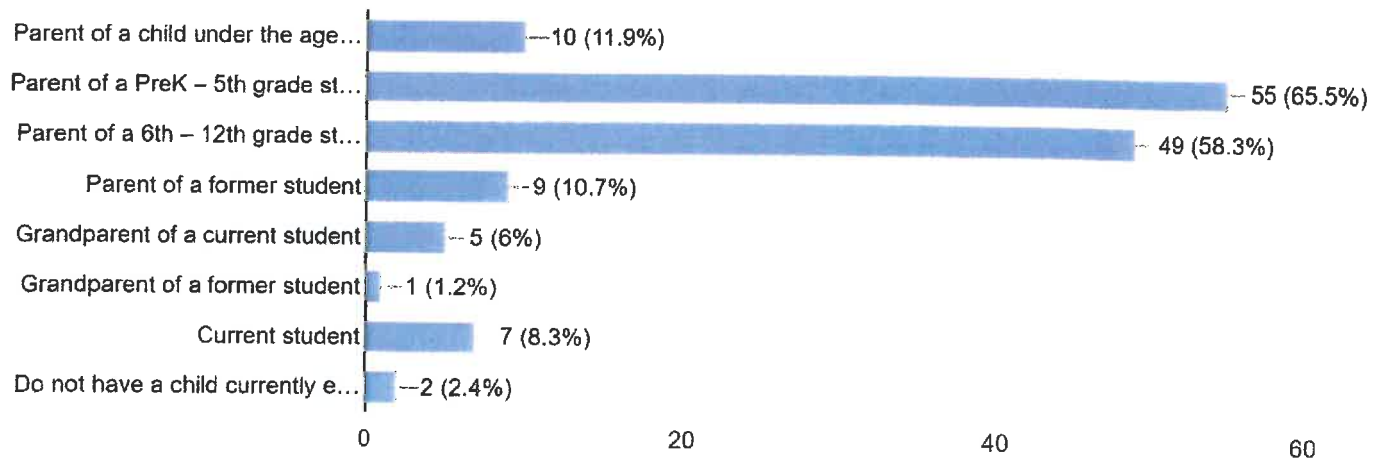

- Historical Perspective
- Next Steps

F. Community Facilities Survey

- Trends
- Information from IDI
- Next Steps

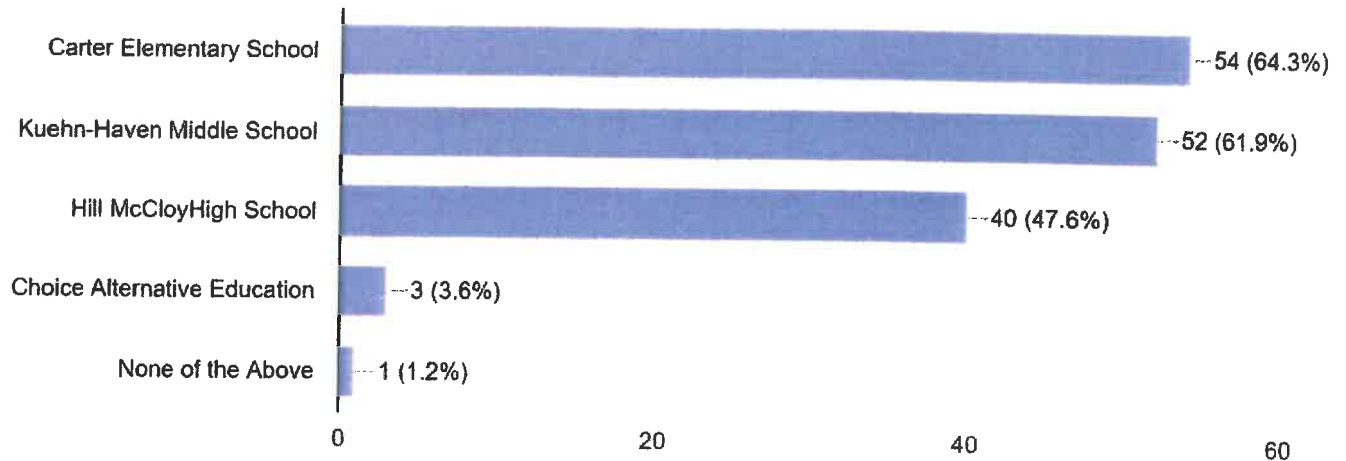

Demographics: Parent/Guardian Status (please check all that apply)

84 responses

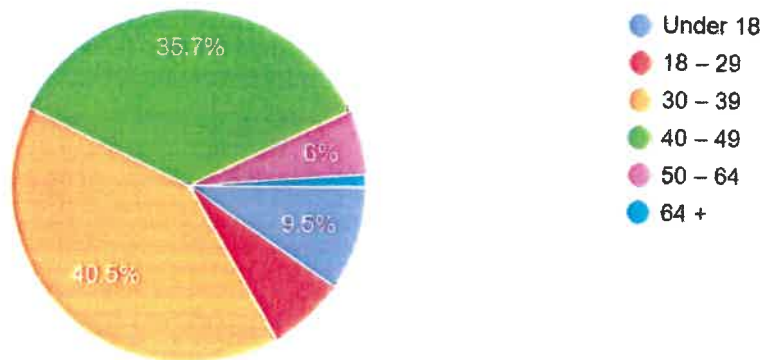

Demographics: Which programs are you affiliated with? (please check all that apply)

84 responses

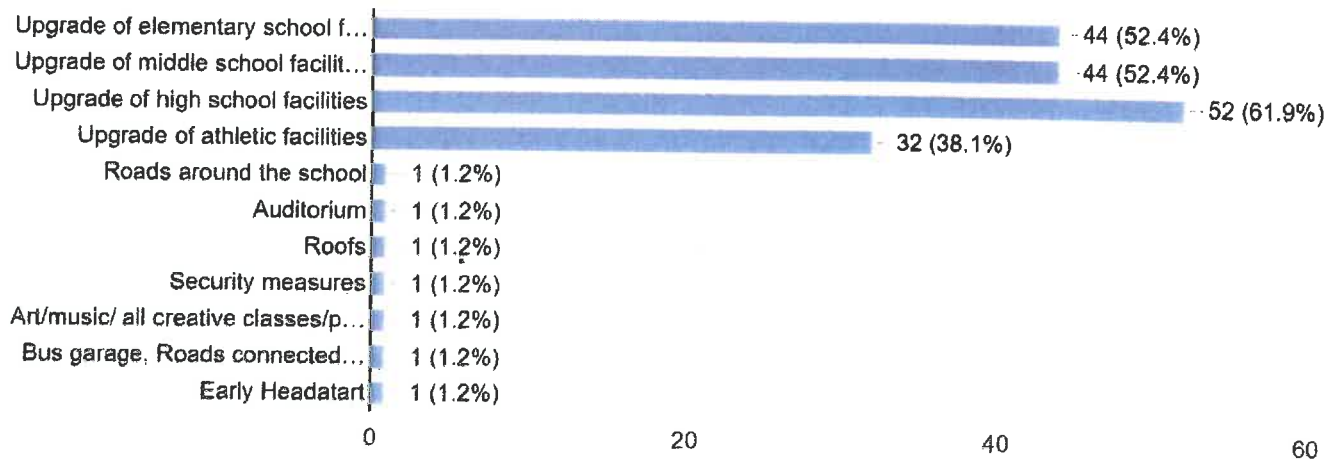

Demographics: Age – please check the box applies to you.

Long term, what facilities do you see a potential need for an upgrade? (please check all that apply)

84 responses

Please rate the condition of the current facilities in the school your child attends.

Carter needs a new roof or improvements to the one it has. Lots of issues last year. It would be nice to have better air in Carter as half the school is hot and the other half cold during hot days.

Indoor practice facility/ turf fields

Turf fields for athletic teams. / large in door practice facility

Some of the outside doors (middle and high school) don't always lock after going in or out if them.

You need to get working ac omm

I really think we need turf at our football field. I think that the track needs to be refinished and we should bring our baseball fields up to the level of the softball fields.

The gyms need some kind of cooling units added to them. They are very warm when I come see my kids games. I also think we need to get turf so we do not have to go to other places to play games when the weather is bad.

We need a turf football field.

A football field with Turf. The football facility updated with new locker room and new bleachers as well. The weight room and wrestling room updated and area made larger. The baseball field needs updated as well with new dugout.

Auditorium needs an upgrade. I see you took care of the ceiling, so that looks better, but it still needs new carpet and lights.

I would like to see more course elective options

New playground for 4/5 grades at KHMS

I know some security measures were added, anything that would further ensure student safety I think is important. I think the schools are doing a great job making sure all equipment and school tools are being kept up to date.

I believe all building should have only one or two points of entry in the morning only. All staff should have key codes or IDs that open doors for entry. Including classroom doors, all should automatically lock. Classroom doors should remain closed and secure. All classrooms should have an exit other than to the hall.

Have more after school activities for middle schoolers that doesn't cost the parents anything

Massive roof leaks in the kindergarten/first grade hall last year when I was volunteering.

AC needed

It's way too hot in August for the high school to not have air conditioning.

Would love to have practice fields for youth sports. Would also be great to have a turf field so that the youth program doesn't get pushed aside for fear of damage to the grass field before a high school game.

As the sports facility entrance is inviting...the rest of our sports complex area is outdated. Speaker system at the football field is extremely bad. The dugouts should be demolished and rebuilt as the wood is extremely aged, split, etc. It's not bad by any means but we could improve tremendously comparing to Chesaning and other surrounding schools.

I'd like to see a couple of trees planted on the elementary playground for shade, desks with pedals to encourage movement while learning in the middle school, and I would love to see a pool at the school again someday. A pool would allow students to form a swim team, compete with other schools, potentially earn college scholarships, and offer lessons/open swimming to the community.

New roof, bigger auditorium and better laid out sports complex plus updated

Everything is extremely outdated and overall appearance needs A LOT of work, but our Athletic Dept needs the most funds for new fields/equipment/structures/Emergency/Health & Safety/parking lots/Restrooms/Water & Sanitation/handicap accessibility/paved parking lots and connected Walking paths (think "rail trail") w/ added signs and landscaping. We truly need to make sure our Coaches and Officials are getting paid as well!!! We SHOULD have Athletic Trainers/Sideline Medics with mobile equipment as well as fixed AED stations and a Nurse/Injury station or area. In order to also enhance our Community and its access to Beautifully adept, Clean & Safe Outdoor Recreational Activities, Services, and as Spectators for our Sports Programs, I am hoping that Grants for such funds will be made available to allow a collaboration of community efforts in order to make all of the necessary upgrades that are long overdue, but also to ensure its use for many many years to come because it brings such joy to come visit Montrose Schools and be a part of its well respected, high performance Athletic Program! If funds are solely for the Athletic Dept. only, I am hoping they can be distributed effectively to zealously include Pet friendly, Handicap accessible & Family friendly Paths, Parking Lots, Facilities and proper Waste Management/Sanitation within it's many needed upgrades to stimulate the Community to at the very least feel welcome to attend our Sporting events, whether as Parents, Grandparents, Players, Visitors, Coaches, Staff, Volunteers, Officials, etc. and every age group should also have the added Safety & Security, Surveillance, and ongoing maintenance and clean-up of our Athletic/Recreational areas.

High school air conditioning

Better Air. Please.

Better security

I appreciate all of the steps that have been taken to keep children and staff safe at Carter. The cafeteria looks great too!

The landscaping and trimming were very poor. In the past the grounds were very well kept. It was not maintained well last year. I am hoping to see better this school year.

Money towards band f th graders don't have to renr

The high school needs air. The elementary needs their fixed so it works right. The high school needs to make life skill classes mandatory. Like sewing and home repair and basic auto

G. Adjournment
