

Attendance Area Workshop at Lincoln Elementary

In Manteca Unified, we recognize the important role that schools play in building a strong community.

The School Board directed the administration to examine how adjusting student attendance boundaries could solve these challenges, maximize current resources, and properly use existing facilities to avoid unnecessary spending on new schools.

We want to listen and have dialogue with the community before making a final recommendation for adjustments to existing attendance boundaries.

We recognize that families may have unique needs to stay at their school. We will work with you to help your students be successful.

Please attend the workshop below to learn more about proposed changes:

- 11/8 @ 5:30 p.m. Lincoln Elementary
Multi-Purpose Room
