PUPIL ACCOUNTING REPORTING PERIODS

- Annually, public LEA's have three required district wide reporting periods.
 - October 1: Focuses on enrollment or 'head count' of students. This report serves as the official enrollment/demographic report for an LEA for a given year.
 - December 1: Focuses on special education and provides an official special education service report for the year.
 - July 1: This is the annual cumulative report that encompasses all enrollment throughout the year and determines an LEA's average daily membership (ADM). ADM is used to help determine an LEA's Weighted Pupil Unit (WPU), which is the foundation of Utah's public education funding system.
