RE:

Updated Estimated Cost of Kim Murphy's Lawsuit Delaying

Renovations at Chapin High School

Combining all the costs referenced below, the lawsuit by Ms. Kim Murphy has cost the school district in excess of \$12.2 million.

As a result of the protest and subsequent lawsuit the costs associated with the delay of the Chapin High School renovation project continue to increase. A summary of those costs are as follows:

• The school district's management company estimated construction costs for the renovations and additions to Chapin High School to be approximately \$38,000,000 with a 15% market adjustment to \$32,300,000 based on current market conditions and economy. Due to litigation and contested permits, the project was delayed. Bids were received on November 3, 2011. The low bid for the project was \$43,400,000. This bid is consistent with the current market based on recently received bids in neighboring school districts.

We now know that the litigation and contested permits delaying construction have increased construction costs by approximately \$11,100,000.

- To date our retained professional staff estimates they have incurred extra costs due to
  expenses related to attending meetings and drafting alternative designs at the request
  of the Corp of Engineers during Ms. Murphy's administrative protest. That estimated
  amount is \$103,479.
- Attorney fees related to the protests and lawsuit continue to accumulate and currently total \$551,495. In addition, the District has been billed \$251,101 to date relating to the permit protests.
- Architectural fees currently total \$131,267.
- To date, total staff time devoted to the wetlands litigation is approximately 1223.5 hours or \$69,210.
- To date, fees for Tidewater Environmental Services total \$37,809.

Dr. Stephen Hefner January 17, 2012 Page 2

In addition, the project will require the issuance of approximately \$45,000,000 of 20-year General Obligation Bonds. Ms. Murphy's lawsuit has delayed the issuance of these bonds, which places the district at risk for increases in interest rates. Prior to its sunset, the Build America Bonds Program (BAB) program had provided unprecedented subsidies to the district to offset bond interest expense.

The BAB program was not renewed for 2011. The district should expect bond cost to increase. Ross, Sinclaire & Associates, LLC estimates the impact at this time to be approximately \$6,346,100 over the life of the planned borrowing.

With these additional costs, and the expectation of further costs, it is almost certain the Chapin High School renovations project may exceed our budget and require some components of the project to be scaled back.

Re: Cafeteria projects

Date: July 26, 2011

Attached is a comprehensive analysis of the condition of the equipment and facilities in every cafeteria in School District Five. The cafeterias have been ranked by overall condition and need and given a score ranging from 1 to 6. A score of one indicates very poor condition and in need of immediate replacement. A score of 6 indicates that an area or piece of equipment is in like new condition.

Fifteen separate areas of each cafeteria have been analyzed and given a ranking. Every piece of equipment and area of the kitchen facility have been given a ranking. For example, the physical facility of the kitchen is broken down into 4 areas: serving area, storage room, office and bath and kitchen prep area. The hoods and lighting are also analyzed in addition to each piece of cooking and serving equipment.

The attached list ranks each cafeteria from most in need of replacement to least in need. When the rankings were completed in May, 2008 the top 3 cafeterias most in need of attention were:

- 1: Irmo Elementary School
- 2. Seven Oaks Elementary School
- 3. Chapin Elementary School

Over the past two years, two of these cafeterias have received significant improvements to the cafeterias so they can be moved to the bottom of the list of schools in need. The next 3 schools on the list currently most in need of renovation would be:

- 4. Crossroads Middle School
- 5. Leaphart Elementary School
- 6. Irmo Middle School

Crossroad Middle School and Irmo Middle School are both largely working with the original equipment and facilities that are now over thirty years old. Both cafeterias need a total remodel of the serving line area as well as new walk-in coolers and freezers. The existing coolers and freezers are not adequate for the existing needs of the cafeteria and school. The current dish machines although currently operational have both also long ago exceeded their useful life expectancy. New quarry tile flooring is also needed.

Leaphart Elementary School received a new serving line last year but is still in need of a new a walk-in cooler and freezer to replace the existing units that are old and inefficient. The kitchen floor and plumbing are also in need of extensive repair and replacement. Additionally the kitchen hood has been examined by a mechanical engineer and has been designated for replacement.

Ideally the walk-in cooler and freezer would be re-located to the back of the kitchen as to allow easier access for deliveries and to not impede the workflow of the kitchen staff during the work day.

The next three schools in need of renovation would be:

- 7: Irmo High School
- 8: HE Corley Elementary School
- 9: Dutch Fork Elementary School

Irmo High School is currently designated to receive a new walk-in cooler and freezer. Most of the serving lines were replaced seven years ago and are in good condition. The two serving lines located under the senior seating area were not replaced seven years ago and need to be replaced. The kitchen floor is in need of replacement as is the old dish machine. Ideally they also need one more serving area added to their current set up to handle ease over crowding at serving times.

HE Corley still has the entirely same equipment and facilities as when the cafeteria was constructed in 1991, 20 years ago. While some of the equipment is still in adequate shape there are many areas that need addressing. The walk-in coolers, dish machine and serving line equipment are the most pressing areas in need of replacement at HE Corley. The walk in units have both had extensive repairs over the last few years and have reached a point that replacement is the best option.

Dutch Fork Elementary has most of the same issues as the schools mentioned above. While the serving line was replaced two years ago, the existing walk-in units and dish machine are well past their useful life expectancy. The floors and ceiling tiles need replacing.

The next two schools on the list would be are very similar in design and age:

- 10: Nursery Rd. Elementary School
- 11: Harbison West Elementary School

Nursery Rd. received a new serving line last year but has a strong need for a new walk-in freezer and cooler, dish machine and quarry tile floor. Harbison West also received a new serving line this year but needs new walk-in units, flooring, ceiling tiles and dish machine.

The remaining schools in order would be:

- 12: Chapin Middle School
- 13: Chapin High School
- 14: Dutch Fork High School
- 15: Dutch Fork Middle School
- 16: Lake Murray Elementary School
- 17: River Springs Elementary School
- 18: Ballentine Elementary School
- 19: Oak Pointe Elementary School

Chapin Middle School is constrained by a lack of space in the kitchen prep area as well as dining area. The walk-in freezer capacity needs to be expanded. The serving line equipment needs updating and replacing.

Chapin High is scheduled to be remodeled when the project resumes.

DFHS still has the same equipment as when constructed 20 years ago. The school currently serves over 2000 students and the kitchen's walk in cooler and freezer simply are not big enough to store the amount of food needed on a daily basis. In addition to replacing the existing walk-in units, an additional walk-in freezer needs to be added to the site. The dish machine has also exceed its life expectancy.

Dutch Fork Middle School's serving lines and dish machine are twenty years old and should be replaced when possible.

Lake Murray, River Springs, Ballentine and Oak Pointe are all still in relatively good condition do not need major updates at this time.

# ADMISSION OF RESIDENT/NON-RESIDENT STUDENTS

Code JFAA/JFAB-R Issued Final (Revised)

#### Statement for determining legal residence

For purposes of determining legal residence and school enrollment, the district will consider the following factors:

address at which mail is received

- · identity of the person in whose name electricity and water service is provided at the dwelling
- address at which the individual receives local, state and/or federal financial assistance
- · individual whom the tax assessor's office lists as the owner of the property

existence of a deed identifying the owner of the property

- · existence of a title and/or vehicle registration identifying the owner and resident location
- address at which the individual sleeps, eats and carries on other daily activities

For students moving into the district, the following guidelines that are established by the South Carolina High School League may be considered as well as other information available to district staff in determining legal residence.

 The student and the parent/legal guardian have a bona fide change of residence from the attendance area of the former school into the attendance area of the new school.

• The move must be with the intent of being permanent.

 Under no circumstances can a student / family have two residences for attendance eligibility purposes. Only primary residences will be considered. A primary residence is defined as the address at which the individual sleeps, eats and carries on other daily activities.

The entire household and furniture must be moved into the new residence.

 The prior residence must be clearly closed as the residence of the family and must not be used by the family.

When the parents are not legally separated and when they are residing in different places, the residence is generally considered the residence formerly lived in by both parents.

When a student and his/her parent/legal guardian move in with a family in an existing home/apartment, the following documentation is required for temporary admission to the district.

- The owner/lessee of the home must execute a notarized affidavit [JFAA/JFAB-E(2)] that
  declares that the family is currently residing with them.
- The parent/legal guardian of the student must execute a notarized affidavit [JFAA/JFAB-E(1)] stating that all information is correct regarding the new address.
- If the new address is an apartment, the apartment management must supply a verification letter that the student and the parent/legal guardian are residing at the specified address.
- Within 45 calendar days, business mail or other supporting documents must be received showing the new address (e.g. driver's license, vehicle tax registration, voter registration cards, employment records or other governmental documents).

Should any information presented by the parent/legal guardian or the district resident prove to be false, the student may be immediately withdrawn from the school district, charges may be filed for a false affidavit against the adults involved, and educational costs may have to be repaid to the district.

# Policy DJFAA WJFAB Admission of Resident/Non-Resident Students

Issued 10/09

Purpose: To establish the basic structure for admitting to district schools those students who do and do not reside in the district.

Generally, all persons of legally defined and mandated school age who reside in the district and who have presented required birth certificates and certificates of immunization may attend the free public schools.

## Documentation required for admission

New students of legally defined and mandated school age seeking enrollment in the district must enroll in person, not by telephone, on forms provided by the school. The district will require proof of residence, legal guardianship or legal custody before the student will be enrolled.

All students entering kindergarten through grade 12 must present a valid birth certificate to verify their date of birth. Such students must also present immunization documents as required by South Carolina Department of Health and Environmental Control. A copy of the birth certificate and immunization record must be placed in the student's file.

When a child with one or more living parents comes under the guardianship of an adult who lives in the district, the child can be enrolled upon written confirmation from an attorney that he/she has been retained by a custodial parent or person to petition the family court for the adult to obtain legal guardianship of the child. The district will then give the student 30 days to present a properly executed court order stating that the adult has been awarded guardianship through the family court. An extension of the time limit must be approved by the superintendent or his/her designee, provided appropriate documentation has been received from the attorney or family court.

In compliance with the McKinney-Vento Act, special consideration will be given regarding the enrollment of any student categorized as homeless. The act defines homeless children or youth (21 years of age and younger) as the following.

- Children and youth who lack a fixed, regular and adequate nighttime residence including children
  and youth who are sharing the housing of another person due to loss of housing, economic hardship
  or a similar reason (often referred to as doubled-up); are living in motels, hotels, trailer parks or
  camping grounds due to a lack of alternative adequate accommodations; are living in emergency or
  transitional shelters; are abandoned in hospitals or are awaiting foster care placement.
- Children and youth who have a primary nighttime residence that is a public or private place not designed for a regular sleeping accommodation for human beings.
- Children who are living in cars, parks, public spaces, abandoned buildings, substandard housing, bus or train stations or similar settings.
- Migratory children who qualify as homeless because they are living in circumstances described above.

As stipulated by the law, the school will immediately enroll a homeless child or youth even if the child is unable to produce records normally required for enrollment.

### Bar to enrollment

When a student seeks to enroll in the district for the first time, the board's designee will determine whether the student meets the district's standards of conduct and behavior. The board's designee will consider non-school records and the student's disciplinary records in any school in which the student was previously enrolled. The board's designee will consider these records as they relate to the adjudication of delinquency in any jurisdiction for violent crimes, unlawful use or possession of weapons, unlawful participation in gang-related activity or unlawful sale of drugs.

If a student is not allowed to enroll based on his/her record, notice will be provided to the student's parent/legal guardian and the student will be entitled to a hearing and other procedural rights in accordance with policy JKE (Expulsion).

The bar to enrollment applies for a maximum of one year if the student otherwise meets the district standards of conduct and behavior. After the bar is lifted, the student may reapply for enrollment and the board will order the student enrolled if he/she otherwise meets enrollment criteria.

#### Resident students

The district will admit any student who lives in the district provided the student meets the following criteria.

- · lives with his/her parents
- · lives with his/her legal guardian (testamentary guardian or by judicial appointment)
- · lives with a person who has been awarded legal custody by a court of competent jurisdiction
- · lives with his/her foster parents
- lives in a residential community-based care facility licensed or operated by the South Carolina Department of Social Services or the South Carolina Department of Juvenile Justice
- is emancipated (18 years of age, married, or declared emancipated by a court of law)
- · resides in an emergency shelter located within the district

If an adult resident of the district signs an affidavit as required by law, the district will admit a student who fits into one of these situations.

- Lives with an adult resident of the district, provided that the child resides with the adult as a result of the following.
  - death, serious illness or incarceration of a parent/legal guardian
  - relinquishment by a parent/legal guardian of the complete control of the child as evidenced by the failure to provide substantial financial support and parental guidance
  - abuse or neglect by a parent/legal guardian
  - physical or mental condition of a parent/legal guardian being such that he/she cannot provide adequate care and supervision of the child
  - is homeless or is a child of a homeless individual, as defined in Public Law 100-77
  - a parent/legal guardian's military deployment or call to active duty more than 70 miles from his/her residence for a period greater than 60 days; provided, however, that if the child's parent/legal guardian returns from such military deployment or active duty prior to the end of the

school year, the child may finish that school year in the school he/she attends without charge even if the child resides in another school district for the remainder of the school year due to his/her parent/legal guardian returning home

In addition, the adult must attest that the child's claim of residency in the district is not primarily related to attendance at a particular school. The adult must also accept responsibility for educational decisions for the child.

In all cases the student must do the following.

- maintain a satisfactory scholastic record in accordance with scholastic standards of achievement set by the board of trustees
- not be guilty of violating the rules of conduct and behavior that must be met by all students as a condition to the right to attend the public schools of the district as set by the board of trustees

Documentation for the adult affidavit is required and will be reviewed periodically by the superintendent or his/her designee for approval of continued enrollment. Because affidavits are usually for temporary situations, they must be renewed each year, with appropriate current documentation provided. Failure to provide such documentation may result in continued enrollment being denied.

Any parent/legal guardian or person who enrolls a student and/or signs an affidavit in support of an enrollment will be required to repay the educational expenses of per student expenditure to the district if the enrollment is based upon false documentation. In such an event, the student will be immediately withdrawn from the district and payment will be due. All records and grades of that student may be held until satisfactory payment is made with the district.

#### Non-resident students

All non-resident students must provide the district superintendent with an official release duly signed by the district superintendent from their area of residence prior to enrollment.

The district will allow a student whose parent/legal guardian moves outside the geographic confines of the district during the school year to continue enrollment in the school he/she was attending at the time the move occurred for the remainder of that semester. The parent/legal guardian must assume responsibility for transportation and a release must be presented. The parent/legal guardian of any student not a resident of the district at the time of registration will be required to sign an affidavit stating that all information is correct. Should it be false, the parent/legal guardian will be required to reimburse the district the amount of property taxes spent on a per student basis [see FIFAA [4]].

# Conditions for acceptance of non-residents

In the following two cases, the district superintendent or his/her designee will assign the school which the student will attend based on available classroom space in the school or, for an employee, according to the school in which the employee is assigned to work.

• The student owns real estate in the district having an assessed value of \$300. The student must present a certificate from the county tax assessor to verify ownership of real estate with the required assessment in his/her name. The student does not have to provide release from the resident district. The district will charge a fee that is equal to the difference between the amount of school taxes paid on the property and the district per student yearly cost according to South Carolina Code of Laws, Section 59-63-45. A student who purchased property prior to September 9, 1996, and whose sibling enrolled with property ownership prior to 1996 but was not enrolled in any district school until after that date, may petition the board of trustees to waive the out-of-district enrollment fee.

Document Page 4 of 6

• Any child of a district employee has permission for such transfer from the board of trustees of his/her resident district, provided this transfer has the approval of the superintendent of School District Five. The student must provide a release from the resident district. The student will be eligible to attend the employee's school, the appropriate grade level school in the attendance zone of the employee's location or an appropriate grade level school en route to the employee's school or closest to the employee's residence. The district reserves the right to make the school assignment. The employee is responsible for transportation of the children enrolled pursuant to this provision.

Should the student not maintain a satisfactory discipline record, permission to remain in the district will be withdrawn and the student must return to the home district. The parent/legal guardian may appeal the principal's decision to the supervisor of student personnel services.

In the case of a child of any parent/legal guardian who lives out of the district at the time of admission but the parent/legal guardian plans to move into the district within four months of applying for enrollment in the district, temporary admission may be granted under the conditions below. Students in these categories must provide a release of residence from their present district. Upon presentation of the documents listed below, the temporary enrollment status will be lifted.

### House under construction

A copy of the official building permit and copy of the contract/purchase complete with an anticipated completion date within six months of the date of the contract/purchase agreement is submitted to the school, and a notarized statement from the parent/legal guardian stating the intent to occupy the residence immediately upon completion will be acceptable.

# House under repair

A notarized statement will be provided by the person making the repairs indicating that the house will be ready for occupancy within four months from the date the student is admitted and a notarized statement from the parent/legal guardian stating the intent to re-occupy the residence upon completion of the repairs will be acceptable.

# Newly-purchased home

Whenever an existing home is purchased and occupancy cannot be gained immediately, a duly signed contract or purchase agreement must be provided by the previous owner or the realtor assuring occupancy within four months from the date the student is admitted and a notarized statement from the parent/legal guardian stating the intent to occupy the residence immediately upon completion will be acceptable.

# Newly-leased home

Whenever an existing home is leased and occupancy cannot be gained immediately, a duly signed rental agreement must be provided by either the owner of the home or the realtor assuring occupancy within four months from the date the student is admitted and a notarized statement from the parent/legal guardian stating the intent to occupy the residence immediately upon availability will be acceptable.

The district will not deny admission to any student on the basis of race, religion, color, creed, sex, immigrant status or English-speaking status, national origin or disabling condition.

# SCIENCE EDUCATION

Code IHAD Issued FINAL

Purpose: To establish the board's vision for science education.

Science education is a general educational content area for all pupils. The primary goal of the district's science program is to develop a scientifically literate citizen. The science program is designed to promote the development of skills, concepts and attitudes which will help students discover, interpret and control natural phenomena as well as the products of technology which confront them daily. The district will develop curriculum to present learning opportunities to students so that skills and knowledge as presented in the state academic standards may be acquired. The curriculum will address kindergarten through twelfth grade.

Adopted ^

## Policy IDBC Character Education

Issued 6/97

The district believes that the home is the primary source of moral, ethical and religious instruction and that the role of the school is to support and reinforce the importance of the character traits inherent in these teachings, to be effective, character development needs to be evident in the entire school district at every level.

The Board of Trustees endorses the commonly-held character traits listed below. The Board believes that these traits should be demonstrated, modeled and supported by the words, actions and deeds of all employees and official representatives of the district including the members of the Board. The Board further endorses the implementation of the Character Education Standards at the district level and in each school.

### Character traits

## Character traits: personal values

- · accountability
- · dependability
- · honesty
- · integrity
- · patience
- · perseverance
- · responsibility
- · self-discipline

### Character traits: social values

- · empathy/caring for others
- · commitment to others
- · positive work ethic
- · respect for others

## Character traits: civic values

# CHARACTER EDUCATION

Code IHAK Issued FINAL

Purpose: To establish the board's vision for and the basic structure of character education in the schools.

The board is committed to the ideals of good character and citizenship through character education as part of the district's mission of successful teaching and learning.

These ideals include, but are not limited to, the following.

- personal integrity and honesty
- respect for the rights of all persons regardless of race, religion, sex, age, physical condition or mental state
- sense of justice and fair play
- trustworthiness
- patriotism
- citizenship
- understanding, sympathy, concern and compassion for others
- discipline and pride in one's work
- respect for one's property and the property of others, including public property
- understanding of the rights and obligations of a citizen in a democratic society
- respect for authority
- good work ethics
- sound educational habits

The district's program of character education will include a meaningful and challenging curriculum that respects all learners and helps them succeed. The district will maintain school communities in which positive behavior is practiced, demonstrated, modeled and reinforced within an environment of mutual respect and dignity. The district will implement this program in close cooperation with parents/legal guardians of students.

The district will provide opportunities for the integration of character education throughout the curriculum in grades K-12. The process of integrating character education in school programs will include the involvement of the students, staff, families and the greater school community.

The district will assess annually the progress of the character education program.

## Policy IDB Health Education

Issued 2/89

The school district is committed to a sound, comprehensive health education program that is an integral part of each student's general education.

The district will fulfill its responsibility for meeting the health needs of children and youth through a comprehensive program of health education in grades kindergarten through 12. Comprehensive health education includes instruction that maintains, reinforces or enhances the health, health-related skills, and health attitudes and practices of children and youth that are conducive to their good health. Instruction will promote skills, practices and attitudes which promote wellness, health maintenance and disease prevention. Instruction also will include reproductive health education, pregnancy prevention education and family life education, in accordance with state law.

The administration will develop a method whereby principals notify parents of students in the relevant grades of the content of the instructional materials concerning reproductive health, family life, sexually transmitted diseases (if this a separate component) and pregnancy prevention. The notice will inform parents of their option to exempt their child from this instruction.

Teachers who provide instruction in family life and sex education will have professional preparation in the subject area, either at the pre-service or in-service level.

S.C. Code, 1976, as amended:

Section 59-32-10 et seq. - Comprehensive Health Education Act.

# Policy IDA Basic Program

Issued 1/85

### Kindergarten

The curriculum for students below grade one shall consist of experiences and activities which will enhance their physical, emotional, social and intellectual growth and development and help each student attain, at an appropriate rate, the educational goals set for the elementary school.

## Elementary and Middle Grades

The curriculum for the elementary and middle grade shall be concerned with the fullest development of the potentialities of all students. This program shall recognize individuals as socially sensitive personalities with varying abilities and limitations. At both levels higher order problem solving skills will be emphasized in the curricula.

Organizational patterns and teaching methods should be flexible and varied in order to develop a personalized program for each student and encourage explorative learning. Time allocations in subject areas must meet the minimum requirements by the State Department of Education.

The basic instructional program in elementary and middle grades shall include courses in the areas of language arts (reading, writing, listening, speaking, spelling, English grammar, composition and literature) mathematics, science, social studies, health and safety, physical education, art, music, effect of alcoholic drinks and narcotics upon the human system, fire prevention, traffic laws and safety, vocational/career education, morals and behavior.

## Secondary

The program of studies in each high school should be broad in offerings to meet the diverse needs of students. Course offerings are structured in semesters of 90 days or yearly courses of 180 days. The Defined Minimum Program for accredited South Carolina high schools shall be followed. In order to build incentive for academic excellence and continued study, courses beyond the minimum plan shall be offered in the curriculum. Higher order problem solving skills will be emphasized in the curricula at all levels.

Each high school will emphasize teaching as a career opportunity to college-bound students. Also each high school will offer a clearly defined college preparatory program for those students who plan to attend college and whose academic ability and achievement indicate their potential success in working towards this goal.

### Special Education

Provisions for special education may include self-contained classes, resource room programs itinerant teacher programs and homebound instruction. Support services may include physical or occupational therapy, speech correction and adaptive physical education.

### Alcohol and Drugs

Through special instruction, awareness shall be developed regarding the use and abuse of alcoholic drinks and drugs. Instruction shall emphasize problems related to their use, pharmacological aspects, and physiological effects upon the total community. Instruction shall be offered in all schools and shall be studied and presented as thoroughly in the same manner as all other required subjects. One week during the school year shall be designated for the observance of Alcohol and Narcotics Education Week.

# **HEALTH EDUCATION**

Code IHAM Issued FINAL

Purpose: To establish the board's vision for health education.

The school district is committed to a sound, comprehensive health education program that is an integral part of each student's general education.

The district will fulfill its responsibility for meeting the health needs of children and youth through a comprehensive program of health education in grades kindergarten through twelve.

Comprehensive health education includes instruction that maintains, reinforces or enhances the health, health-related skills, and health attitudes and practices of children and youth that are conducive to their good health. Instruction will promote skills, practices and attitudes which promote wellness, health maintenance and disease prevention. Instruction also will include reproductive health education, pregnancy prevention education and family life education, in accordance with state law.

The administration will develop a method whereby principals notify parents/legal guardians of students in the relevant grades of the content of the instructional materials concerning reproductive health, family life, sexually transmitted diseases and pregnancy prevention. The notice will inform parents/legal guardians of their option to exempt their child from this instruction.

Teachers who provide instruction in family life and sex education will have professional preparation in the subject area, either at the pre-service or inservice level.

### Teaching about drugs, alcohol and tobacco

All schools in the district will teach the nature of alcohol and narcotics and their effects upon the human system. Schools should help students develop an awareness of the consequences of the use and abuse of alcoholic drinks and drugs. Instruction will emphasize problems related to their use, pharmacological aspects, physiological effects and the impact upon the total community. Schools will present drug education as thoroughly, and in the same manner, as all other required subjects.

#### HIV/AIDS education

The district will teach students about the life-threatening dangers of acquired immunodeficiency syndrome (AIDS) and its prevention. The district will develop an AIDS prevention education program in consultation with teachers, administrators, parents/legal guardians and other community members including, but not limited to, persons from medical, public health and mental health organizations and agencies. The curriculum for AIDS prevention education will be designed to teach students which behaviors place a person dangerously at risk of infection by the human immunodeficiency virus (HIV) and methods to avoid such risk including the following.

- dangers of drug abuse, especially involving the use of hypodermic needles
- dangers of sexual intercourse, with or without condoms

# PAGE 2 - IHAM - HEALTH EDUCATION

The program of AIDS prevention education will stress the life-threatening dangers of contracting AIDS and will stress that abstinence from sexual activity is the only certain means for the prevention of the spread or contraction of the AIDS virus through sexual contact. Other agency presentations approved by South Carolina Healthy Schools will be added to assist in teaching the information.

# **DRIVER TRAINING**

Code IHAN Issued FINAL

Purpose: To establish the board's vision for driver training instruction.

The state mandates that every secondary school offer a course of driver education on an elective basis for eligible students.

The school offers driver training as an elective subject. The course is open to students whose physical and mental condition gives reasonable promise of their ability to fulfill the requirements for a driver's license. Each student must have a valid driver's permit in order to participate in the program.

The course meets the requirements outlined by the South Carolina State Department of Education. The instructor is certified according to South Carolina State Department of Education standards.

# **ENVIRONMENTAL EDUCATION**

Code IHAO Issued FINAL

Purpose: To establish the board's vision for environmental education.

The board bases its policy concerning environmental education on the belief that the quality of life and ultimately the question of survival depend upon each individual's ability to live in harmony with the physical environment. Schools must provide cross-disciplinary experiences leading to the knowledge, skills and positive attitudes that will enable society to develop a balanced use of natural resources. The balanced use must recognize the concurrent rights of present and future generations.

A basic aim of all environmental education is to succeed in making individuals and communities understand the complex nature of the natural and the built environments. This complex nature results from the interaction of biological, physical, social, economic and cultural aspects. Environmental education must allow individuals and communities to acquire the knowledge, values, attitudes and practical skills to participate in a responsible and effective way in anticipating and solving environmental problems and in the management of the quality of the environment.

A further basic aim of environmental education is clearly to show the economic, political and ecological interdependence of the modern world in which decisions and actions by the different countries can have international repercussions. Environmental education should help to develop a sense of responsibility and solidarity among countries and regions as the foundation for a new international order which will guarantee the conservation and improvement of the environment.

The following are the goals of environmental education.

- to foster clear awareness of, and concern about, economic, social, political and ecological interdependence in urban and rural areas
- to provide every person with opportunities to acquire the knowledge, values, attitudes, commitment and skills needed to protect and improve the environment
- to create new patterns of behavior of individuals, groups and society as a whole towards the
  environment

The board believes that environmental education gives dimension to an individual's appreciation of the earth. Environmental practices should take the student one step beyond learning and appreciation by encouraging a commitment to personal action in daily life. The ultimate objective is to improve the attitudes and life styles of all students, both as individuals and as members of society, so as to be in harmony with the environment.

The board believes that environmental education should be developed as a theme woven through the existing program at all levels. Environmental education should relate topics, concepts, knowledge and skills now found in the existing curriculum and/or in supplementary programs to an overall program of environmental education.

The board encourages all teachers, within the bounds of individual teaching style and subject choice preference, to weave environmental concerns into other subject matter in ways meaningful and relevant to the students.

# PAGE 2 - IHAO - ENVIRONMENTAL EDUCATION

Teachers should encourage students to interact with one another and their teachers, sharing their observations and opinions on the need for wise, compatible uses of our air, water, soil, forest, mineral, fuel, wildlife and human resources. Where appropriate, teachers should encourage students to develop their attitudes of awareness and concern into meaningful and constructive action.

The administration will assist and support the teaching staff in developing and coordinating programs and activities relevant to environmental education. The board supports the use of, and inservice education in, existing programs in environmental education where these programs meet district criteria concerning program quality and orientation.

# CONSUMER EDUCATION

Code IHAP Issued FINAL

Purpose: To establish the board's vision for consumer education.

Today's society demands that education teach not only basic skills but that it also address issues relevant to the daily problems of life. Many of the problems that confront us in our lives are consumer-oriented. The board affirms its responsibility to assume a leadership role in this area.

All district schools will conduct instruction in consumer education in conjunction with courses in any appropriate area of study. The instruction will be sequential and interdisciplinary in nature, and suited to meet the needs of the students at their respective grade levels. The district will provide assistance to teachers, including, but not limited to, adequate inservice training.

## **Policy IDDD Gifted Students**

Issued 1/89

The board supports the development of programs designed to meet the special needs of gifted and talented students in the academic and also in the visual and performing arts. Gifted and talented students are those whose superior abilities create needs beyond the levels usually addressed in the regular classroom.

For academically gifted students, these needs may be met through reasonable acceleration in specific subjects, interaction with gifted peers, opportunities for investigations into high interest topics, and the development of skills in analytical reasoning and divergent thinking.

For gifted and talented students in the visual and performing arts, needs may be addressed through summer, after school, or special classes during school hours for individual or group work with gifted peers.

Constitutional and Statutory Provisions:

State Board of Education Regulations:

R-43-220 and -264 - Gifted and Talented Program Guidelines.

# GIFTED AND TALENTED EDUCATION

Code IHBB Issued FINAL

Purpose: To establish the board's vision for education of gifted and talented students.

The district strives to meet the educational needs of all students. In supporting this concept, the district recognizes the unique characteristics of gifted children. The district further recognizes the need to develop special programs to respond to their individual abilities and competencies. The board, therefore, directs the administration to establish educational standards and develop a special program for gifted and talented students to cultivate these students' unique talents.

Gifted and talented students are those in grades one through twelve identified as having demonstrated abilities for high performance in academic and/or artistic areas. These students require services or programs beyond that normally provided by the regular school program.

The district will use the criteria developed by the state board of education in the screening, referral, assessment and placement of candidates for the gifted and talented program.

## **Policy IDDC Homebound Instruction**

Issued 9/97

Homebound instruction will be provided under state department of education guidelines for those students who because of illness, accident, congenital defect or pregnancy, cannot, even with the aid of transportation, be taught in a regular school environment.

Instruction will be provided by a teacher who holds a valid South Carolina teacher's certificate. The student will receive at least the minimum number of instruction hours as provided in current rules and regulations of the state board of education.

In order for a student to receive homebound instruction the following conditions must exist.

The student must be of legal school age.

A licensed physician must certify that the student is unable to attend school, even with the aid of transportation, due to a physical or mental condition, but may profit from instruction given in the home or hospital.

Appropriate school personnel must determine that homebound instruction is appropriate for the student.

Students must successfully complete the materials assigned and be given a passing grade by their classroom teacher in order to advance to the next grade or to satisfy the state requirements for a state high school diploma.

Duly expelled students with disabilities, as defined by P.L. 105-17 amended (IDEA, 1997) and its amendments, are eligible for homebound instruction. Expelled students with disabilities will receive homebound instruction in a room especially set aside for the period of instruction, or at a site to be determined by the local school board. in the case of expelled students with disabilities, the IEP committee will determine the extent of service(s) for homebound students and it will not be necessary for a physician to certify that the expelled student with disabilities is unable to attend school.

Procedures for homebound services will be shared with parents and homebound teachers.

# HOMEBOUND INSTRUCTION

Code IHBF Issued FINAL

Purpose: To establish the basic structure for the district's provision of medical homebound instruction to students.

Students who cannot attend public school because of illness, accident or pregnancy, even with transportation, are eligible for medical homebound or hospitalized instruction.

The district will provide at least the minimum number of instruction hours as provided in current rules and regulations of the state board of education. All teachers providing medical homebound instruction to students residing in the district must hold a valid South Carolina teacher's certificate.

In order for a student to receive medical homebound instruction, the following conditions must exist.

The student must be of legal school age.

 A physician must certify that the student is unable to attend school but may profit from instruction given in the home or school.

The student must be approved by the superintendent or his/her designee on appropriate forms

provided by the district and State Department of Education.

• The student must successfully complete the materials assigned and receive a passing grade from the student's classroom teacher or the homebound teacher in case of extended medical homebound instruction in order for the student to advance to the next grade or to satisfy the state requirements for a state high school diploma.

A student is eligible for medical homebound instruction according to certain timelines as stated in the state board of education regulation.

Should an approved student not be provided the required periods of medical homebound instruction that he/she is entitled to receive, the student is eligible to have the medical homebound instruction made up by the district. This make-up may occur during the student's remaining eligibility for medical homebound instruction or may occur after the student returns to school. The school will not hold make-up periods during the regular school day. If the school delays the start of services for any reason and the student is still entitled to the services, the district must make up the missed instructional periods even if the regular school year has ended.

Medical and student records are confidential subject to the provisions of JRA and JRA-R.

# CHILDCARE PROGRAMS

Code IHCF Issued FINAL

Purpose: To establish the board's vision for childcare programs.

The board recognizes the difficulties parents experience in providing supervision of younger students before and after regular school hours. Based upon available resources and the demand for childcare services, the district will provide extended day experiences for children in the district.

South Carolina law provides that boards will provide school-age childcare programs or facilities therefore. Specifically, a board will provide at least one of the following.

- A school-aged childcare program for children aged five 14 years that operates before or after the school day, or both, and during periods when school is not in session.
- A school-age childcare program that operates during periods when school is in session for students who are enrolled in a half-day kindergarten program.
- Classrooms, other space, or both, in a school for use by an organization that is operating a school-age childcare program before or after the school day, or both, and during periods when school is not in session for children aged five 14 years. The board may enter into a long-term lease with a corporation, community service organization or other governmental entity to provide a childcare program. If the property subject to the lease is being paid for from money in the district's debt service fund, all proceeds from the lease will be deposited in the district's debt service fund until the property is paid for.

The district will operate extended day programs in accordance with appropriate state and federal regulations. The administration will develop rules and regulations as needed to ensure the safety, order, proper administration and monitoring of the programs as needed. The final decision regarding the implementation and continuation of these programs rests with the board.

# GROUPING FOR INSTRUCTION

Code IIA Issued FINAL

Purpose: To establish a basic structure for grouping students for the most effective instruction.

Students learn different content at different rates. Grouping of students should be flexible enough and fluid enough to accommodate the highs, lows and plateaus of the individual's learning process. Any system of grouping which tends to restrict a student's progress in a given subject or activity is contrary to the philosophy of this district. Grouping will never create or support a system of discrimination on the basis of race, religion, immigrant status or English-speaking status, sex or socioeconomic status.

Students within an individual school should be grouped in such a way that the maximum opportunity for learning to occur on a daily basis is facilitated.

Grouping for the most effective instruction must be guided by the following.

- student's best opportunity for success
- educational achievement level of the student as shown on various tests
- most effective educational climate for learning
- availability of space
- welfare of the student
- goal of advancing the student academically by systematically and effectively addressing basic academic needs

The goal is to build class groupings that ensure the best group dynamics possible.

The school will schedule students for instruction to minimize interruptions in the basic educational program and to maximize continuity of educational experiences and the amount of time available for uniquely planned learning activities that match the academic needs of the learner.

Schools considering changes in the method of grouping for instruction must submit a plan to the division of instructional services.

## Policy IFCB Field Trips

Issued 10/04

#### Definition

A field trip is defined as any school approved learning activity which requires the student(s) to leave the school grounds. Plans for any such activity, with the exception of athletic team competitive events and ongoing vocational project work, should follow the procedures described in this policy.

#### Philosophy

In keeping with the belief that learning extends beyond the classroom and school, field trips that have educational value are considered by the district administration as a means of enriching and extending the learning experience of students. Accordingly, field trips, like any other instructional activity, must be carefully chosen, well planned and well conducted. Special care must be given to clarifying purposes of a field trip and to providing meaningful follow-up activities once the field trip has been completed. Field trip sites must be selected on the basis of the value of the experience to students and should be appropriate for the student age group and school curriculum provided for the group of students involved. The person requesting the field trip should consider whether it is more feasible to bring the experience to the school or to sponsor the trip and whether the time away from other classes is justified. Whenever possible, overnight trips should be planned for days other than the 180 school days.

## Procedures and regulations

All field trips must be approved by the principal/director. In addition, overnight trips should be approved by the superintendent or his/her designee. Approval should be obtained on the district's approved Field Trip Request Form IFCB-E(1).

No group trip, such as class, band, athletic, etc., in or out of state, will be permitted for more than three consecutive school days.

Each student who goes on a field trip must have written parental permission on the district approved form [(IFCB-E(2)/IFCB-E(3)).

Students may be asked to pay all or part of the expenses of field trips provided arrangements can be made for the payment of trip expenses for those unable to do so.

When it is possible based on availability, school bus transportation will be used to transport students on field trips. In cases where school bus transportation is not possible due to availability and/or not practicable based on the number of students who are going on the field trip, private automobiles driven by parents, teachers or students may be used on field trips, subject to written approval from the principal/director. All drivers must be at least 17 years old and must provide proof of insurance coverage to the district [IFCB-E(4)]. In no case (including vehicle rentals/charters) will students be transported in any vehicle designed or used to transport more than 10 passengers, including the driver, unless that vehicle meets the definition of a school bus under federal law.

Adequate supervision for effective discipline must be provided. Parents may be asked to serve as chaperones.

All trips must be well planned, properly timed and inherently integrated to specific learning and/or uniquely rewarding activities. The number of teachers away from school on a trip on any given day should be kept to a minimum.

After their completion, instructional related field trips will be evaluated by participants, and a written report filed with the principal of each school involved.

When it is possible based on availability, school bus transportation will be used to transport students on field trips. In cases where school bus transportation is not possible due to availability and/or not practicable based on the number of students who are going on the field trip, private automobiles driven by parents, teachers or students may be used on field trips, subject to written approval from the principal/director. All drivers must be at least 17 years old and must provide proof of insurance coverage to the district. In no case (including vehicle rentals/charters) will students be transported in any vehicle designed or used to transport more than 10 passengers, including the driver, unless that vehicle meets the definition of a school bus under federal law.

## FIELD TRIPS

Purpose: To establish the board's vision and the basic structure for conducting student field trips.

#### Definition

A field trip is defined as any school approved learning activity which requires the student(s) to leave the school grounds. Plans for any such activity, with the exception of athletic team competitive events and ongoing career and technology project work, should follow the procedures described in this policy.

#### Philosophy

In keeping with the belief that learning extends beyond the classroom and school, field trips that have educational value are considered by the district administration as a means of enriching and extending the learning experience of students. Accordingly, field trips, like any other instructional activity, must be carefully chosen, well planned and well conducted. Special care must be given to clarifying purposes of a field trip and to providing meaningful follow-up activities once the field trip has been completed. Field trip sites must be selected on the basis of the value of the experience to students and should be appropriate for the student age group and school curriculum provided for the group of students involved. The person requesting the field trip should consider whether it is more feasible to bring the experience to the school or to sponsor the trip and whether the time away from other classes is justified. Whenever possible, overnight trips should be planned for days other than the 180 school days.

#### Procedures and regulations

All field trips must be approved by the Chief Instructional Officer. In addition, overnight trips should be approved by the superintendent or his/her designee. Approval should be obtained on the district's approved Field Trip Request Form IJOA-E(1).

No group trip, such as class, band, athletic, etc., in or out of state, will be permitted for more than three consecutive school days.

Each student who goes on a field trip must have written parental permission on the district approved form IJOA-E(2)/IJOA-E(3).

Students may be asked to pay all or part of the expenses of field trips provided arrangements can be made for the payment of trip expenses for those unable to do so.

When it is possible based on availability, school bus transportation will be used to transport students on field trips. In cases where school bus transportation is not possible due to availability and/or not practicable based on the number of students who are going on the field trip, private automobiles driven by parents, teachers or students may be used on field trips, subject to written approval from the principal/director. All drivers must be at least 18 years old and must provide proof of insurance coverage to the district [IJOA-E(4)]. In no case (including vehicle rentals/charters) will students be transported in any vehicle designed or used to transport more than 10 passengers, including the driver, unless that vehicle meets the definition of a school bus under federal law.

## PAGE 2 - IJOA - FIELD TRIPS

Adequate supervision for effective discipline must be provided. Parents may be asked to serve as chaperones.

All trips must be well planned, properly timed and inherently integrated to specific learning and/or uniquely rewarding activities. The number of teachers away from school on a trip on any given day should be kept to a minimum.

After their completion, instructional related field trips will be evaluated by participants, and a written report filed with the principal of each school involved.
