District Human Resources / Financial Accounting Software Purchase

Attached is a cost breakdown from Tyler Technologies for the license and services agreement for Infinite Visions Enterprise Edition Software. The total cost for software, data conversion, project management, consulting and training is \$504,708.00. The initial investment is \$332,658.00 with the remaining balance of \$172,050.00 payable through next fiscal year. In addition, it would be advisable to budget an additional \$100,000.00 for contingencies and/or hardware purchases that may be required.

There was \$1.5 million approved in the FY2015 Capital Budget for construction of the new middle school. As discussed in the board meeting on July 14, 2014, these funds will not be required for the purpose.

RECOMMENDATION:

The administration recommends approval to use capital funds for the purchase of the new Human Resource and Financial Accounting System.
