

The board recognizes the importance of homework in supplementing classroom instruction and furthering the goals of the educational program. Homework reinforces learning and fosters independence, responsibility and self-direction.

Homework assignments should strengthen skills, provide practice in subjects that already have been taught in class and improve a student's ability to work independently. Teachers should take into consideration the differences in financial, educational and technological resources of students and their parents or guardians when making assignments. In addition, the amount of time necessary to complete the tasks should be reasonable in light of the age and maturity of the students and other assignments given to the students.

Principals shall ensure that homework assignments are made in accordance with this policy. Principals are encouraged to involve staff, parents and students in developing standards for appropriate types and amounts of homework for the school or particular grade levels.
