Accident Plan

The Aflac Accident plan provides cash benefits **directly to you** to help with out-of-pocket expenses - medical and nonmedical - associated with treatment in the event of a covered accident. A sudden accident might stop you in your tracks, but your bills — mortgages, utilities, groceries and out-of-pocket costs will keep on coming. Accident insurance can help cover the costs associated with the treatment of a covered accidental injury. More importantly, the plan helps you focus on getting better, not worrying about how you will pay your bill.
