

SCIENCE OF READING FUNDAMENTALS

MICROCREDENTIAL

Empowering educators with innovative, research-backed tools and techniques for enhancing literacy instruction. Earn affordable continuing education credits via a fully online, self-paced microcredential created by award-winning SUNY New Paltz School of Education faculty.

Proven Approaches for Teaching Reading

An introduction to innovative, research-backed tools and concepts that are a valuable complement to any P-12 literacy curriculum and a useful starting point for anyone interested in the latest research about how children learn to read.

Five Key Building Blocks

This curriculum includes units on Phonemic Awareness, Phonics, Fluency, Vocabulary and Comprehension. Participants will have the option to join real-time webinars to engage with instructors and hear from additional experts as they move through the microcredential.

We Can Improve Literacy Outcomes Together

66% of fourth-graders in the United States read “below proficient” according to the National Assessment of Educational Progress (NAEP). Low-income and minority children fare even worse. Together, we can improve literacy rates for New York’s kids.

35 CTLE Hours in Seven Weeks

This fully online, self-paced curriculum leads to 35 Continuing Teacher and Leader Education hours. At a cost of \$500 with a \$150 scholarship available, it’s an affordable option for New York educators looking to retain their professional certification.
