

Dental Open Access plan

A healthy mouth may help decrease the risk of diabetes, heart attacks and strokes. That's why your dental plan covers 100% of all in-network preventive care.

What your plan pays for

Preventive care is covered at no cost to you when you see a network dentist. It also helps cover:

- HealthPartners MouthWise Matters – extra exams, gum care and cleaning covered 100% in network if you're pregnant, or if you have diabetes and are at risk of gum disease
- The cost of other dental care at the amounts shown in your Summary of Benefits

Plan highlights

The Open Access network is where we negotiated lower fees for you. Plus, it's where you'll get the highest level of coverage.

TIP: You'll pay less if you see a dentist in the Open Access network, more for an out-of-network dentist.

What you'll pay

Deductible or coinsurance

Things like getting a cavity filled might cost a deductible – the amount you have to pay before your plan helps with the cost. There's also coinsurance, which is a percent of the bill.

Annual maximum

Your dental plan max is a bit different than your medical plan. It's the most your plan will pay for dental care each year. You're in charge of the rest.

Where you can get care

You pick where you want to go, and you get to choose from our largest network of dentists and clinics.
