

## BY THE NUMBERS

In Mount Pleasant, we recognize that as strong as our academic programs already are, we are limited by our current physical spaces. The proposed bond in the amount of \$35,957,772 will have no additional impact on resident taxes. All payments to be funded by retiring debt. Over time, the District will receive \$17,308,553 in State Aid to offset the total cost associated with the proposed project.
