OCSD is SUPER excited to be introducing Seesaw Parent App. Seesaw empowers students to independently document their learning using built-in tools, and provides an authentic audience for their work. Seesaw gives students a place to communicate an understanding of their learning, be creative and learn how to use technology in a safe online environment.

How does Seesaw work?
Each student will have their own journal set up in their 'Class' and they will be able to add things to it, like photos, videos, drawings, or notes. Students and Home Tutors can import directly from popular apps, like Google apps and Pic Collage, into Seesaw.
Seesaw allows us to share a range of files (jpg, png, mov, mp4, pdf, etc) that may be larger than our emails would allow. This will be of enormous benefit for assessments, feedback, support and send-in tasks.

What are the benefits to the stakeholders?

Students	Families/ Home Tutors	Teachers
Encourages deeper learning and reflection. Students can share their work with other students and respond to work. Opportunities for students to collaborate with teachers and other students. Easy to use – even Prep students have used Seesaw independently! Develops digital citizenship skills in a managed environment.	Receive instant notifications about student posts and feedback from teachers. Accessible from any device, anytime, anywhere. Saves on classroom resources. Access to examples of high-quality instruction. Files are able to be uploaded that would be too large to email. Can be shared with family members.	Work appears "live" so that feedback is able to be more immediate and relevant to our students. Teachers will be able to provide feedback using a range of tools. Teachers can assign "Activities" for the students to complete, allowing them to monitor progress throughout the year. Teachers can use Seesaw to support student learning (video tutorials, links to documents, etc).

What about the families?
Once your student has been added to a class, your child's teacher will also send you an invitation which will allow families to follow their child's or children work Seesaw classroom. You'll be able to view work in their journal, be notified about new posts and receive announcements from teachers. You will only be notified about your own child's work and all data is safe and secure. For more information about privacy please see: https://web.seesaw.me/privacy-policy/

How do I access the family app?

1. Download the Family app or log in as a Family Member at app.seesaw.me.

If you received a printed invitation...

✓ Open the Family app or click I'm a Family Member at app.seesaw.me
If you do not have a family account...
✓ Click create an account

✓ Scan the QR code and follow the prompts If you already have a family account...
✓ Sign in
✓ Click your profile icon > Add New Child

✓ Scan the QR code

If you received an invitation by text or email...

✓ Click the link
✓ Create a new account or sign into an existing account.
