How to Access and Get Connected to the Canvas Parent App

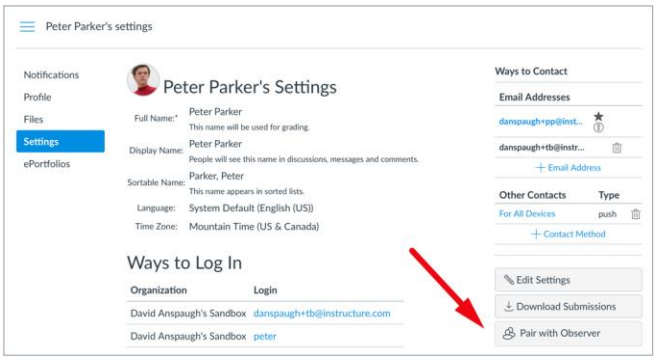

The **Canvas Parent** App allows **parents** to "Observe" the course activities of their child(ren). As Observers, they can see course events, assignments, and even customize the notification settings based on student performance.

Go to ocsdsc.instructure.com and login using your child's district credentials to access Canvas.

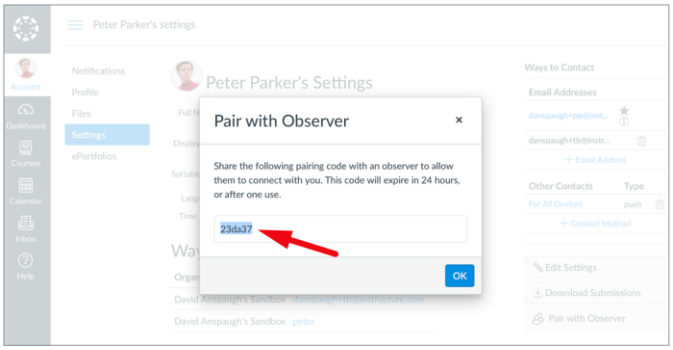

From the global navigation of Student's Canvas web, select *Account*, then choose *Settings*.

Select *Pair with Observer* from the sidebar of the settings page.

Copy or share the pairing code with an observer to allow them to register.

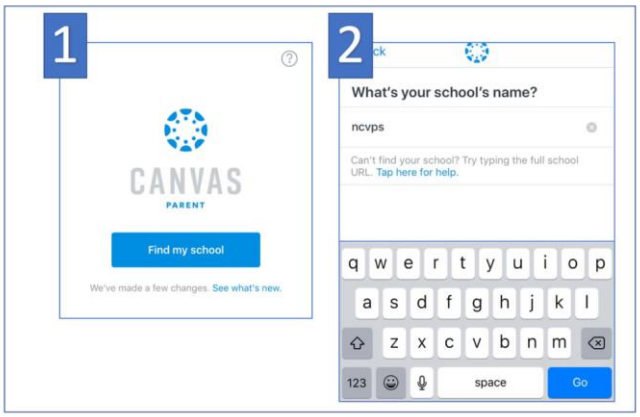

Install the Canvas Parent App on your tablet or phone

1. Open Play Store
2. In the **app** menu, enter **Canvas Parent** in the search field
3. **Install App...**
4. Download **App...**
5. Open **App...**
6. View **App** on Home Screen

Click Find my School and type OCSD for the school's name

Click on Orangeburg County School District

If a previous account has been created, enter email address, password and click log in.

For first time users, click create account.

On the next screen, type parent information.

Name, Email Address, Password and Student Pairing Code – Click Start Participating after agreeing to the terms and use.

If parents need to add additional children, click the setting wheel in the top right and then press the "+" button.

To adjust notification rules for a student, click on the child's name and adjust the preferences.
