

Dual Enrollment and Early College Programs

Eastern Long Island Academy of Applied Technology

A Guide for Students and Parents

About the Dual Enrollment Program

The **Eastern Long Island Academy of Applied Technology** offers high school students the opportunity to earn college credit while attending select CTE programs.

Through the Dual Enrollment Program, courses are taught at the Academy Technical Center by our college-approved teachers. These classes have the same curriculum and requirements as those offered on the college campus. Students who successfully complete the class earn credits that count toward high school graduation as well as college credit for the course. These college credits can be applied at the college or transferred to another college or university.*

Advantages of Dual Enrollment

- Students who participate in a Dual Enrollment Program are more likely to graduate from high school, enroll in college, earn higher grade-point averages and complete college degrees.
- Dual Enrollment courses bear the same quality and quantity of credits as courses offered on campus but at 1/3 the cost of tuition.
- Dual Enrollment students receive grades and feedback throughout the course, thus eliminating high-stakes, end-of-the-year testing.
- Dual Enrollment courses taken in high school may fulfill college degree requirements, serve as electives, or fulfill prerequisite requirements. This may allow students to graduate earlier or earn credits toward additional concentrations, minors or majors.
- Dual Enrollment courses show colleges that you are a motivated student who has pursued challenging opportunities.
- Dual Enrollment courses help students explore careers. Students who are undecided in their career interests can benefit by the additional research and rigor provided in a Dual Enrollment course.

Which Academy courses are offered for Dual Enrollment?

As of the Fall of 2021, we have Dual Enrollment offerings for the following courses:

Academy Course	College	# of Credits Offered
Animal Science	Morrisville State College	3 credits

Morrisville State College.....	\$150 for 3 credits
Suffolk County Community College.....	\$171 for 3 credits

When can I register?

Please see your Academy School Counselor for registration deadlines.

Grades and Course Information

The college final grade will be calculated according to the standard set by the college, and the high school grade will be calculated according to the high school standard. The grading standard for each course is outlined on a Course Information Sheet (your Academy teacher can provide one to you). Some Dual Enrollment courses require an additional project or exam and / or may not accept extra credit and late work. In cases such as these, your final Academy grade might be different than your final college grade.

At the end of the course, you will receive a grade report from the college at which you are enrolled. This is the grade that will be part of your official college transcript.

**TRANSFER STATEMENT: While most colleges accept college credits when a grade of C or higher is earned, we cannot guarantee that all credits will be accepted because each college sets its own transfer policy. If you are planning to attend a college other than the college affiliated with our CTE program, we recommend you check the transfer policy of that college before enrolling in our courses.*

Questions? Please see your Academy School Counselor for additional details.
