LEGO ROBOTICS COMPETITION!!!

FIRST LEGO League Rambotics Regional

SATURDAY, NOV. 18

9:00-1:00

ROSS MIDDLE SCHOOL

Rambotics *FIRST* LEGO League and Ross High School *FIRST* Robotics Team 3201 are hosting the Rambotics Regional *FIRST* LEGO League Tournament on Saturday, November 18, 2023 at Ross Middle School. The event begins at 9:00 with opening ceremonies and a parade of teams. The robot competition follows as Cincinnati area teams complete a series of MasterPiece missions on a competition playing field to vie for the highest score.

FIRST (For Inspiration and Recognition of Science and Technology) challenges students to think like scientists and engineers as they solve science and technology challenges. Team members complete research projects to solve a real-world problem. This year's theme, MasterPiece, challenges team members to use technology and the arts to help engage others or increase participation in what they love to do.

The Rambotics Regional *FIRST* LEGO League Tournament is sponsored by Watson Gravel, Inc., Ross Lions Club, Ross Local Schools, and Proctor & Gamble. The event is free and open to the public.
