

## Bühler Apprentice Academy Exploration Day

### You are invited!

The ninth annual National Apprenticeship Week (NAW) is taking place November 13-17, 2023, and Buhler, Inc. is hosting an in-person Apprenticeship Open House. We invite you to join us and learn more about our commitment to apprenticeships and how these unique work-based training programs make a difference in our community.

### Bühler Apprenticeship Academy

Bühler Apprenticeship Academy offers a very broad apprenticeship. The 3-year program combines structured on-the-job training and technical instruction based on the European dual-education model. Our apprenticeship connects learning directly to the world of work. It is developed in modules with classes at Hennepin Technical College, and Bühler's Apprenticeship Workshop in Plymouth, MN. The 2-year business apprentice program combines on-the-job training as well as classes at Hennepin Technical College.

**Thursday, November 16th 2023**

**9:00am- 12:00pm**

**Bühler Inc.  
13105 12th Avenue North, Plymouth, MN 55441**
