

How-To Login to Classlink

SSSD and NRCCS have a unique ClassLink login page with customized sign-in options.

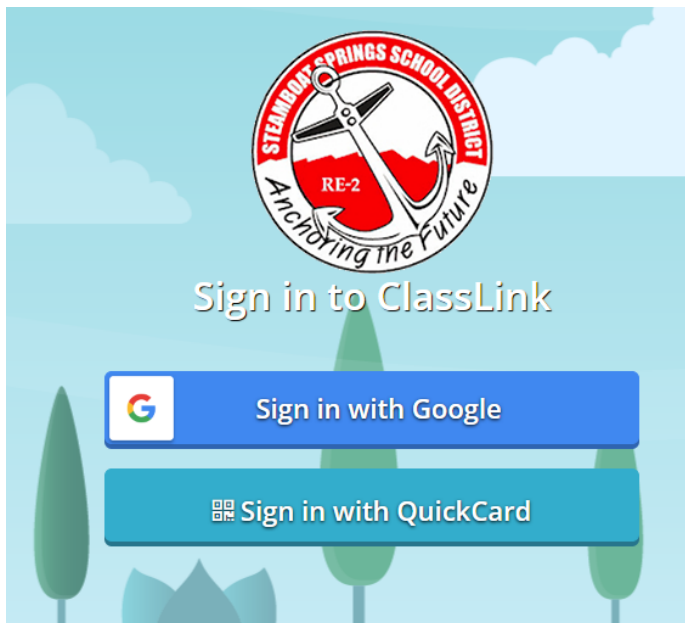

⚠ Our unique Classlink Launchpad URL is: <https://launchpad.classlink.com/sssdre2>

STEP 1: Navigate To The Login Page

From any district device in the top left corner the Google Chrome Home button is always classlink. You can select that at any time to open the launchpad.

If you are on a personal device you can navigate to <https://launchpad.classlink.com/sssdre2> in your device's browser to sign in, or by downloading the Classlink mobile app available on the Apple or Android App store's.

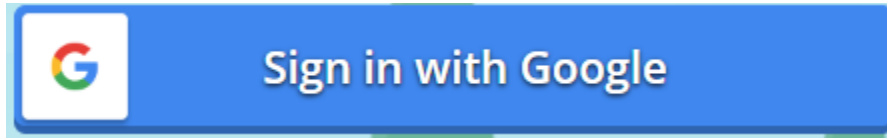

How-To Login to Classlink

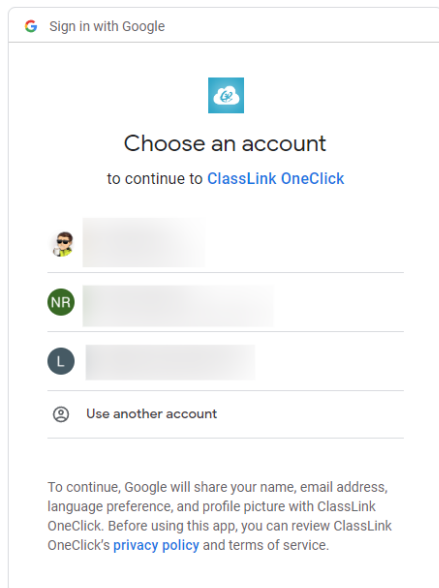

STEP 2: Enter Credentials

You will not have a username and password to sign in, instead you will need to sign in with your **School Provided** email account.

Begin by selecting “Sign in with Google”

Select your @ssk12.org email account.

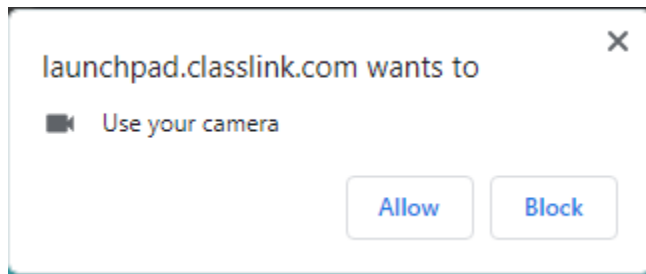

* If your @ssk12.org email account is not an option, select “**Use another account**” and sign into your account.

If you have a Quickcard enabled sign in you may select “**Sign in with Quickcard**”

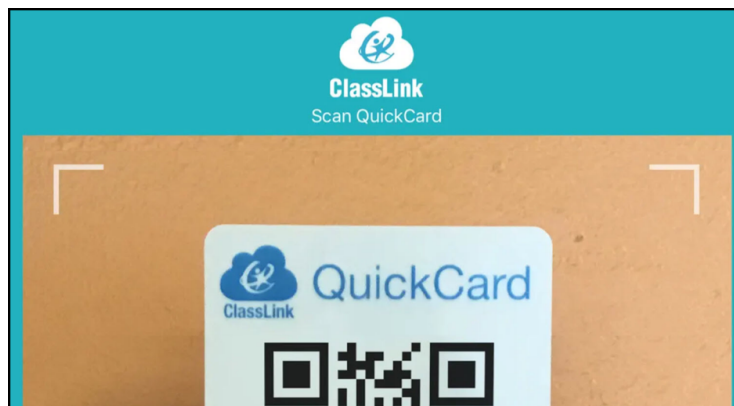

How-To Login to Classlink

A browser prompt will appear asking you to allow the use of the camera, you will need to **“Allow”** this.

Then you can present the quickcard in front of your device's camera to automatically sign in. *This is only available for Student K-2

Sign in not working?

- You may need to allow up to 48 hours after enrollment/hire to have an active classlink. Multiple factors in the automated onboarding process can cause hiccups in the scheduled Sync of accounts, while these are rare, most hiccups resolve themselves. If you are still having issues signing in contact your teacher or for Staff the IT department via the Helpdesk for assistance.
- Verify that you are selecting your @ssk12.org email address, Classlink can only sign you in with your school provided email.
- Try and clear your Cache and Cookies, more information on this can be found under the District Technology Frequently Asked Questions page.
