Personnel Evaluation System (Ref. KRS)

Each district shall develop and implement a personnel evaluation system aligned with the statewide framework for teaching that **shall** use multiple measures of effectiveness including but not limited to criteria in the four performance measures (Planning, Environment, Instruction, and Professionalism). The personnel evaluation system will:

- Include both formative and summative evaluation components.
 - **Formative Evaluation** – a continuous cycle of collecting evaluation information and providing feedback with suggestions regarding the certified employee’s professional growth and performance
 - **Summative Evaluation** – the summary of and conclusions from the evaluation data, including formative evaluation data that will occur at the end of the evaluation cycle which includes a conference between the evaluator and the evaluated certified employee and a written evaluation report.
 - Measure professional effectiveness
 - Support professional growth
 - Have at least four (4) performance levels (Exemplary, Accomplished, Developing, Ineffective)
 - Be used to inform personnel decisions
 - Be considerate of the time requirements of evaluators at the local level and shall not require that all certified personnel have a formal summative evaluation each year
 - Rate teachers or administrators by multiple measures instead of a single measure

The Frameworks also include themes such as equity, cultural competence, high expectations, developmental appropriateness, accommodating individual needs, effective technology integration, and student assumption of responsibility. They provide structure for feedback for continuous improvement through individual goals that target professional growth, thus supporting overall school improvement. Evidence documenting professional practice is situated within one or more of the four measures of the framework. Performance is rated for each measure according to four performance levels: Ineffective, Developing, Accomplished, and Exemplary. The summative rating is based on scores from each performance measure combining data from multiple sources of evidence across each domain. District decision rules are used to reach the final overall summative rating.

Corrective Action

Each certified employee of the District is required to have an individual professional growth plan which may be either for enrichment or assistance. An assistance growth plan is to provide the employee with additional assistance and supervision to help him/her make the necessary changes in his/her performance to meet District standards. After an employee is on an assistance plan, time is allowed to improve performance and demonstrate that the standard has been attained.

The evaluator will provide assistance, resources, and opportunity for the employee to grow professionally and reach the district standard. From time to time an employee may be unable to improve or choose not to improve performance. After observations and implementation of an assistance growth plan that has made little or no difference in the employee reaching standard, the evaluator must make a decision. It is at this time that the evaluator may choose to seek the help of an assistance team to work with the employee.

The following procedures will be initiated...

- Evaluator conferences with employee and indicates the desire to form an assistance team. (If the employee refuses assistance, the evaluator has few options available)
- In collaboration with said employee, a team is mutually selected.
- Evaluator/employee/and team meet to discuss the assistance process.
- Each meeting of the team is documented in summary format with recommendations.

If the employee, in the judgment of the evaluator, makes progress with the team's assistance then the summative evaluation is completed and the summative conference occurs. The employee is then back on an enrichment plan or assistance plan as determined by the evaluator.

When there is no improvement in performance toward meeting the standard even with the help of an assistance team the evaluator must take the necessary steps toward cancellation of the contract.

Summative Evaluation Rating

The four measures based on the Kentucky Framework for Teaching (FfT and Frameworks for Other Professionals, Principal Measures/Standards, and District Administration Measures/Standards stand as the critical rubrics for providing educators and evaluators with concrete descriptions of practice associated with the specific measures. Each element describes a discrete behavior or related set of behaviors that educators and evaluators can prioritize for evidence gathering, feedback and evaluation. Evaluators will organize and analyze evidence for individual educators based on these descriptions of practice. The process concludes with the evaluator's analysis of evidence and the final assessment of practice in relation to performance described under each measure at the culmination of an educator's cycle. The evaluator will determine, based on evidence from the four Performance Measures: Planning, Environment, Instruction, and Professionalism and summative decision rules, a summative rating. All ratings must be recorded on the district- approved forms/documentation.

Summative Evaluations

Summative rating means the overall rating for certified school personnel below the level of superintendent as determined by the district certified evaluation plan aligned to the Kentucky Frameworks for Personnel Evaluation, Principal Performance Standards, and District Administration Standards.

Requirements:

- The overall summative rating of certified personnel below the level of superintendent shall be a district-determined rating based upon the four performance measure ratings.
- Summative evaluations of certified personnel shall be documented in writing using district approved forms and be included in the official personnel record.
- All evidences used to determine an overall summative rating for certified personnel must be included in the approved documentation of the summative evaluation.
- Summative evaluation shall include a **summative evaluation conference** between the immediate supervisor and the certified employee being evaluated to be held at the end of the evaluation cycle and include all evaluation data **prior to closing day** using district approved forms.
- **Summative evaluation** shall occur a **minimum of once every three (3) year period** for each **tenured teacher or other certified personnel, assistant principal, principal, and/or administrator prior to closing day**.
- The observations **shall include documentation** of information to be used in determining the performance of the certified employee.
- Evaluators use formative and summative evidences in combination with professional judgement to inform the evaluatee's rating for each performance measure.
- A copy of the summative evaluation shall be provided to the certified employee.
- The district certified evaluation plan shall provide an opportunity for the evaluatee to submit a written statement in response to the summative rating and require the response to be included in the official personnel record.
- The summative evaluation form or instrument shall be specific to each position or job category.
- Superintendent of schools may adjust dates or timelines due to unforeseen circumstances.

REQUEST FOR CORRECTIVE ACTION

The purpose of the Corrective Action Team is to provide the employee every possibility to attain the District Standards of Performance. ANY EMPLOYEE, teacher or administrator, should understand that the request for an assistance team is the evaluator trying to help the employee meet standards and avoid additional personnel actions.

Each certified employee of the District is required to have an individual professional growth plan which may be either for enrichment or assistance. An assistance growth plan is to provide the employee with additional assistance and supervision to help him/her make the necessary changes in his/her performance to meet District standards. After an employee is on an assistance plan, time is allowed to improve performance and demonstrate that the standard has been attained.

The evaluator will provide assistance, resources, and opportunity for the employee to grow professionally and reach the district standard. From time to time an employee may be unable to improve or choose not to improve performance. After observations and implementation of an assistance growth plan that has made little or no difference in the employee reaching standard, the evaluator must make a decision. It is at this time that the evaluator may choose to seek the help of an assistance team to work with the employee.

The following procedures will be initiated.

- Evaluator conferences with employee and indicates the desire to form an assistance team. (If the employee refuses assistance, the evaluator has few options available)
- In collaboration with said employee, a team is mutually selected.
- Evaluator/employee/and team meet to discuss the assistance process.
- Each meeting of the team is documented in summary format with recommendations.

If the employee, in the judgment of the evaluator, makes progress with the team's assistance then the summative evaluation is completed and the summative conference occurs. The employee is then back on an enrichment plan or assistance plan as determined by the evaluator.

When there is no improvement in performance toward meeting the standard even with the help of an assistance team the evaluator must take the necessary steps toward cancellation of the contract.
