UNIVERSITY
HIGH SCHOOL

For Faith, Scholarship and Community

MAKE YOUR MOVE

WELCOME

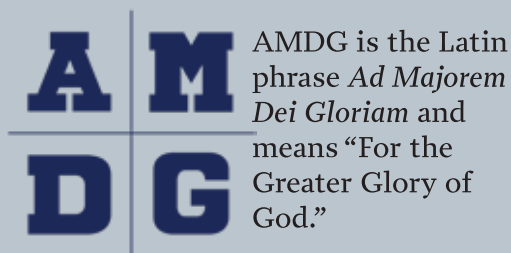

Welcome to Marquette University High School, where every student has the potential to be a master strategist. Our faith formation, rigorous academics, and extracurricular activities are designed to find your opening. By developing spiritually to be Men for Others, Marquette High students are constantly challenged to grow. And we have a lot of fun building lifelong friendships and memories along the way. We invite you to discover the many directions that Marquette High can help you make your move.

AMDG,

Jeff Monday
Principal

YOUR OPENING MOVE

At MUHS, just as in chess, success in academics and in life requires careful planning, long-term vision, and the ability to anticipate and respond to new challenges. We prepare students not just for the next move. We set the board with a foundation of faith, scholarship, and community so that all of our students can thrive and reach their full potential.

At
Marquette
High, the
world is your
classroom.

SEE THE WORLD

Students at Marquette High are encouraged to explore the world around them, whether that is through learning from other perspectives in the classroom or by traveling to the Dominican Republic on a service immersion trip. We are one of seven Jesuit high schools participating in the new Ignatian Global Scholars Program. Students will integrate 21st century global competency skills into their curriculum to foster intercultural experience and ongoing reflection. We are building the capacity of our students today in order to confront future challenges. There are many ways our students see the world.

Bonjour!
Our namesake is
French Jesuit explorer
Fr. Jacques Marquette.

European History Tour

This summer, a group of 40 Marquette High students traveled throughout Europe to tour historical World War II sites and met with the Ambassador to Luxembourg, MUHS alumnus and former Milwaukee Mayor Tom Barrett '72. The Marquette High educational journey spans the globe.

German Exchange Program

An exchange program offers students the opportunity to attend classes with German host students and immerse themselves in Bavarian culture. The Marquette High community also opens classroom doors to German students and instructors to learn about life in Germany and Europe.

International Service Opportunities

Each summer students and faculty travel to the Dominican Republic for a two-week program called *Somos Amigos* to broaden global understanding, develop foreign language skills, and serve. Students complete physically-challenging construction projects to better living conditions, learn empathy and live out the call to serve those most in need.

Theater

Prep Players includes all performers and stage crew members in any drama or musical, including Senior Follies, winter production and the spring musical. Other music opportunities include Chorus, Jazz Improv, Pep Band.

Students who participate in extracurricular activities make new friends and practice time management and leadership skills.

* Homerooms - Groups and organizations that meet during the school day homeroom period.

† Competitive Clubs - May meet during the school day as well as outside the school day.

JOIN THE CLUBS

Mokun Ojesina '26 and Michael Anggara '24 face off in a chess match during the homeroom period, along with several other classmates. The Chess Homeroom brings together students from all grade levels with a shared love of chess and a desire to earn the title of Grandmaster.

Owen Killoran '23 and Ethan Zhang '24 display their trophies at a Forensics meet. Owen was an undefeated state champion in the category of Extemporaneous Speaking, and Ethan took 1st in Congress and was a top competitor in Lincoln Douglas Debate.

Bobby Wendt '26 competes in a regular season slalom race. In the winter, the Hilltoppers took home the state championship in Alpine Ski Racing.

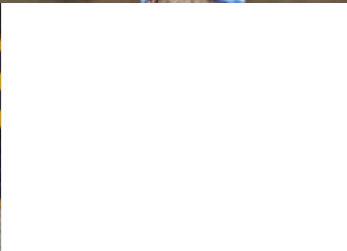

Members of the MUHS Jazz Lab perform at the annual spring Fine Arts Night. Every year, Marquette High students have the opportunity to take part in the Wisconsin School Music Association Solo & Ensemble Festival.

Students in Mr. Meyer's Environmental Science course went to the Catholic Ecology Center to study tree ecology including using an increment borer to determine the age and health of trees. They also participated in wildlife monitoring by sampling both fish and small mammals using live traps.

SPORTS FOR EVERYBODY

Last year, the Hilltoppers celebrated three state championships in tennis, alpine ski racing, and wheelchair track and field. Gianni Quintero, who set school records in wheelchair track as a freshman, was also featured on ABC national news.

Playing pro sports is a childhood dream. In 2023, MUHS alumnus Jon Gaines II '18 reached that pinnacle in the NFL. The standout offensive lineman starred as a Hilltopper, served as student body president and starred at UCLA before being drafted by the Arizona Cardinals in the 4th round.

Gaines joined a roster of athletes who grow in skill, experience and confidence through MUHS support and coaching. And with six no-cut sports, it's not just for those who reach the pros or the 15 seniors from the Class of 2023 who are going on to compete in college.

At MUHS, athletes have a proud tradition of excellence in building character through participation in sports. We offer 13 WIAA-sponsored sports and 7 club sports.

HANDS-ON STEM

ROBOTICS

Students thrive with hands-on experience in STEM subjects. Since forming in 2006, Hilltopper Robotics (Team 1732) has grown into an elite squad while fielding a team in collaboration with girls from Divine Savior Holy Angels High School.

In competition, teams are tasked with designing and building robots that can complete challenges, such as picking up and moving objects, navigating obstacles and working collaboratively with other teams. Hilltopper Robotics concluded its most recent season ranked in the top five percent of robotics teams in the world at the FIRST Robotics Championship in Houston.

SCIENCE OLYMPIAD

This year, Marquette High's Science Olympiad team won state and earned a trip to nationals for the third consecutive year. The team placed 11th in the nation in 2023.

The team also competes in national competitions at MIT, University of Michigan and Northwestern University. In recognition of the team's achievements, team members were featured on TMJ4 to provide demonstrations of some of the Science Olympiad competitions.

Throughout the year, students work on designing and building catapults, planes, bridges and parachutes and learn about the natural world, from the behavior of electrical currents, or the structure of essential proteins.

MUHS Science Olympiad alumni have attended school at Caltech, Stanford, Yale, Notre Dame, Northwestern and other top science and engineering schools.

THE ARTS

If you take a tour of the hallways under the O'Rourke Performing Arts Hall, you'll find spray-painted names and mementos of students going back to the 1960s. This is a testament to everyone who leaves a mark on plays, musicals and the beloved tradition of Senior Follies. At Marquette High, students are prepared to be creative and critical thinkers, artists, participants and patrons of the arts.

Students can take visual arts courses like 2D Design, 3D Design, Drawing, Photography, Painting, or Ceramics. There are also performing arts courses like Chorus, Jazz Lab, and Computer-assisted Music.

Along with art, music, and performance classes, students have the opportunity to join Prep Players, the drama organization of the school. Students of all four grade levels can develop their interest in acting, singing, dancing, stagecraft, lighting, sound, and theater house management. The high points of the year for the Prep Players are staging and performing in the annual winter play and the spring musical. Girls from other high schools are invited to audition for these two productions. The Prep Players also help stage Senior Follies.

FAITH, SCHOLARSHIP, COMMUNITY

The four years of high school are crucial for instilling values and developing work habits that will prepare students not only for college but for life. As a Catholic, Jesuit high school for boys, Marquette High invites students to grow in their faith.

With a commitment to educating the whole person in a caring environment, faculty and staff animate an intellectually rigorous curriculum steeped in Jesuit principles of service, leadership, and integrity. With an enrollment of nearly 900 students, there are so many ways to make your move at Marquette High and join the brotherhood.

Students will take Theology classes for all four years. Classes that students take include Scripture, Morality, Church History, Christian Discipleship, Theological Seminar and other electives based on students' interests.

Campus Ministry

Retreat Experiences:
Freshman Retreat,
Sophomore Retreat, Kairos
Retreat.

Service Requirements: 130
service hours over four years.
This includes "Senior Shared
Life," a two-week service
immersion experience in the
Milwaukee community.

MAKE YOUR NEXT MOVE OPEN HOUSE

Sunday, October 22, 2023

9:00 AM - 1:00 PM

Application Priority deadline is **November 1st.**

Marquette University High School was designated a 2021 National Blue Ribbon School by the U.S. Department of Education. MUHS was among an elite group of only 23 private schools in the country and the only Wisconsin high school so recognized in 2021. MUHS was honored in the Exemplary High Performing category for academic performance.
