

A Tree Talk by David Dunlap in 1989

Everyone here has a lot of energy. Let's use that energy to make everything we do more fun and exciting. The feeling one gets after a good hard job, well done is one of life's natural highs. Work on it – be enthusiastic. Follow the great examples set by people like Kirk, Teddy and Sammy. Look on the bright side of life and then take that spirit and enthusiasm home and infect your family and friends with the power of a positive attitude. And watch your life get happier and more enjoyable.
