Now therefore be it resolved:

For Student and Staff Safety
Public health guidance and governmental mandates:

As a means to protect the health and safety of students, staff, and the community, the parties recognize that guidance from the state of Minnesota is essential. For the duration of the pandemic, the district will follow all Executive Orders related to distance learning or school operations and essential childcare operations. The Union and the District agree to negotiate workplace safety standards and procedures set forth by Center for Disease Control, MN Department of Health & Human Services and MN Department of Education prior to any return to in-person work for SPFE bargaining unit members.

Essential Kids Care and Discovery Club Staffing: Saint Paul Public schools will do its best to keep a ratio of students to staff at Essential Kids Care sites for employees as established in the most recent Governor’s Emergency Executive Orders and/or guidance from the MN Department of Health & Human Services.

Essential Kid Care workers will provide childcare. The District will provide alternate academic support to students who are enrolled in Essential Kid Care. To adequately meet academic support needs for students, staff assigned to provide academic support may work split shifts during hours of operation. No employee shall be assigned more than two separate shifts in one day or any split shifts with less than three hours in between shifts.

Discovery Club staff will not be required to work shifts split between Essential Kid Care and Discovery Club that would increase their risk and range of contact with students.

In-Person Safety Provisions for Essential Kid Care and Discovery Club: Regular screening for symptoms of COVID-19 and ongoing self-monitoring throughout the day is an effective prevention strategy to quickly identify signs of illness and help reduce exposure. Staff, students, families and visitors must conduct their own symptom screening prior to coming to work/school, again when arriving at any SPPS facility, and throughout the day. Similar to testing for COVID-19, screening is a snapshot in time of particular risks at that moment.

Staff with symptoms of COVID-19 should be sent home and told to make a report using the online reporting system. Students with symptoms of COVID-19 will be evaluated in the health office and follow the isolation protocol accordingly. Staff or students known to have had close contact with someone who tested positive for COVID-19 shall be sent home and quarantined according to MDH guidelines.

As county case rates fluctuate, SPPS will continue to follow and implement new guidelines as recommended by the Minnesota Department of Health.

Testing: Saint Paul Public Schools will provide for COVID-19 testing pursuant to executive order 20-82 (12) to any SPFE bargaining unit employees that complete any
work within the buildings of Saint Paul schools.

Resources for local testing sites will be shared with employees that are recommended for testing.

**Masks, face shields and other personal protective equipment (PPE):**

1. The District shall require the use of facial coverings ("masks") in accordance with guidance from the Minnesota Departments of Health and Education and Executive Order 20-81. The district will maintain a supply of disposal face coverings for individuals who do not have one on a given day. All students and staff will be provided with masks and all necessary PPE. Staff may choose to wear more PPE than recommended by Minnesota Departments of Health and Education.

2. Individuals who cannot wear a mask because of a documented health issue shall wear a face shield and provide a medical statement from their healthcare provider indicating an alternate method for providing reasonable protection.

3. Staff including licensed school nurses, health assistants, or any staff working in health offices who may be in close contact with staff or students presenting possible COVID-19 symptoms shall be provided with appropriate PPE as defined by the Minnesota Department of Health including instructions for use and cleaning.

4. The district will follow MDH guidelines regarding what type of PPE is required. The district shall provide an adequate supply of the advised PPE for all staff assigned to the identified settings. In cases where workers believe additional PPE is needed for safety, the district and the union shall work expediently and collaboratively to respond. If there is not an agreement by district and union, the district will follow MDH guidelines regarding what type of PPE is required.

5. Guidelines for use, reuse and correct donning and doffing of PPE will be provided prior to in-person support.

**Handwashing and sanitization:**

The District shall comply with the following hand washing logistical requirements:

1. Every room with a sink shall be stocked with soap, hand sanitizer, and paper towels;
2. Every classroom shall be provided unscented hand sanitizer;
3. Non-classroom workspaces shall be provided unscented hand sanitizer;
4. Unscented hand sanitizer or portable hand washing stations shall be provided at each ingress and egress point;
5. The District shall have sufficient hand washing / sanitization supplies on hand to support daily needs, and custodial staff shall monitor common area resources at prudent intervals throughout the day.
Students, employees, and visitors shall be advised to wash their hands or use hand sanitizer upon entering district sites and during transition times.

Social distancing and work, childcare, and learning space:

Building space will be prioritized for student use, including appropriate space for mental health staff when in-person instruction resumes (i.e. intervention specialists, counselors, social workers, nurses, and school psychologists).

1. Each space or room occupied by students will have signage indicating 50% occupancy of the space, as guided by Minnesota Department of Education and the State Fire Marshall. The number of people in a space shall never exceed that number.
2. Signage will be posted as necessary to direct traffic in buildings.
3. All staff workspaces will allow for 6 feet of distance with any other person in the space.
4. Space for duty free lunch while maintaining 6 feet of distance from others will be provided for staff.
5. The district will ensure that there is appropriate furniture and space to set up all daycare and academic learning support centers to ensure social distancing of 6 feet.

Daily cleaning and disinfecting for spaces being used for work, childcare, or instruction:

1. The District shall ensure that occupied classrooms, restrooms, and workspaces are cleaned and disinfected daily, including but not limited to desks, doorknobs, light switches, faucets, and other high touch fixtures, using an appropriate disinfectant as determined by the Center for Disease Control and the Environmental Protection Agency.
2. District employees will be provided with all necessary equipment and supplies to perform these responsibilities.

Heating, ventilation, and air conditioning (HVAC) systems:

The District shall ensure all HVAC systems follow ASHRAE COVID-19 recommendations, optimizing the supply of fresh air to occupied spaces. Air filters shall be MERV-11 or higher and changed at the recommended intervals. The District will deploy true HEPA air purifiers based on individual room usage and needs. For general instructional spaces, the District shall focus HEPA air purifiers on spaces that the most recent Indoor Air Quality sampling (2018) measured CO2 concentrations of more than 1100 PPM.

The parties agree to negotiate additional workplace safety standards for school buildings and public health markers to ensure that MDE, MDH, CDC and OSHA guidelines are met. The parties agree to review workplace safety standards on an ongoing basis as the situation with COVID-19 evolves.
