Appreciation
2020-2021 Budget Guidelines

Philosophy:
The SPPS Achieves strategic plan sets goals for student achievement, guides decision-making and focuses efforts on long-term student outcomes. The Proposed Budget will be guided by the District’s strategic plan. The strategic plan establishes the District’s instructional priorities. The budget documents how resources will be allocated to support those priorities and the District’s mission to inspire students to think critically, pursue their dreams, and change the world.

2020-21 Instructional Priorities:

| Positive School and District Culture | • Supporting school capacity to implement and monitor the SPPS PBIS framework, using data to inform decisions  
| | • Implementing district expectations for Social-Emotional Learning, including Restorative and Trauma-Informed Practices and adult SEL supports  
| | • Improving culture using input from the district-wide staff, student, and family survey data |
| Effective Instruction and Culturally Relevant Instruction | • Implementing culturally relevant practices within all student learning and programming  
| | • Addressing instructional barriers to a well-rounded education  
| | • Deepening implementation of the middle school model |
| College and Career Paths | • Expanding implementation of personal learning plans PreK-12  
| | • Expanding implementation of career-related curriculum and experiences PreK-12  
| | • Expanding career pathways at comprehensive high schools |

Preparing Budget Calculations

Budget Model:
The District has begun a transition to a priority-based budgeting method, following the Best Practices in School District Budgeting model provided by the Government Financial Officers Association (GFOA). The steps are outlined in the following graphic:
Revenue Projections: Revenue will be calculated using current law.

Expenditure Projections: The Finance Office will project salary and fringe benefits using actual salary and benefit amounts if labor contracts have been negotiated. If labor contracts have not been negotiated, the projected salary and fringe benefits will include adjustments for COLA, as referenced within the Guiding Values negotiations information. All non-personnel budget items will reflect no more than two percent (2%) inflation except for items related to contractual commitments.

Enrollment: The Office of Research, Evaluation, and Assessment (REA) will provide the Finance Office with historical enrollment actuals that will be utilized for an initial 2020-21 budget enrollment projection.

Average Salary and Benefits Calculation Data: A table detailing the average salary and benefits will be provided for budget preparations at the site level.

Fund Balance: In accordance with BOE policy, the budget will maintain an unassigned fund balance of five percent (5%) of annual General Fund expenditures. District administration will inform the Board of Education (BOE) on potential use of unassigned fund balance during the initial budget planning presentation to the BOE. The District will continue to increase its future unassigned fund balance level to six percent (6%) or greater.

Schools:
- School allocations will be determined based on a published criteria guide. The guide sets out formulas for staffing allocations based on enrollment and site programming needs.

Non-School Programs:
- Non-School programs will be reported into three (3) categories: Administration, District-wide Support Services, and School Support Services.

Compiling and Presenting the 2020-21 Budget

Instructional Priorities: The development of the 2020-21 budget begins by establishing instructional priorities, based on the District strategic plan.

Stakeholder Input: Board of Education, parents, students, families, staff and community members will have opportunities to provide input into the development of instructional priorities and the budget.

Presentation Format: Summary information will be presented for schools and programs in the preliminary budget document. Each summary page will include an analysis of the changes to the current year budget that are impacting the schools and programs.

Fully Financed Budgets: Fully Financed budgets with anticipated revenues and expenditures that are $500,000 or greater for the 2020-21 school year will be included in the Adopted budget.

Other Resources Allocated to Schools: The Adopted budget document will include a school by school detail of resources allocated to schools such as grants, special education, multi-lingual learner resources, and wellness, to name a few.

The Adopted Budget: Administration will present a balanced budget to the BOE. The budget for 2020-21 must be approved by the Board of Education by June 30, 2020. The Adopted budget will be published on the Business Office website (http://businessoffice.spps.org).
