V. COMMITTEE REPORTS

A. Committee of the Board Meeting of June 28, 2011

The first item on the agenda was a discussion on the Policy on Dangerous Weapons Relative to Junior Reserve Officer Training Corp. (JROTC)

The purpose of the discussion was to determine if the Board would consider making an amendment to the Student Handbook that would address the use of Daisy Drill Rifles for JROTC practice and competition. Currently, the use of the drill rifle would be in contradiction to the Student Handbook under the Violations and Potential Interventions, Possession/Use of a Dangerous Weapon Other Than a Firearm, (6) any replica firearm, BB gun or pellet gun.

The Assistant Superintendent for Secondary Schools provided background on the JROTC Program and the Drill Rifle Program which is fully funded by the Department of Defense with no cost to SPPS.

Following extended discussion on the issues the following motion was made:

MOTION: That the Board of Education amend Policy 903.00, Dangerous Weapons, Firearms, with an exception, based on the models provided, permitting drill weapons for the Junior Reserve Office Training Corps (JROTC). It should include a specific reference to the Daisy Drill Rifle and be followed by a statement that any violations with the weapons or threats of violence must be reported to the Superintendent and failure to report such would be subject to disciplinary action.

Ms. Carroll indicated she was voting against this item as she objected to amending the policy.

The motion was approved with the following roll call vote:

Mr. Hardy        Yes
Ms. O’Connell    Yes
Mr. Brodrick     Yes
Ms. Street-Stewart Yes
Ms. Carroll      No
Mr. Risberg      Yes

The Chair stated a motion had been made at the COB meeting conducted earlier in the evening (July 19) and that action would be taken on it at this time.

MOTION: That the Board approve the revised language provided (Facsimile/non-functional drill weapons for Junior Reserve Officer Training Corps (JROTC), used, stored and handled in accordance with approved procedures) and that the revised policy containing the new language be brought to the August Board of Education meeting for its first reading. Motion seconded by Mr. Risberg.

The motion was approved with the following roll call vote:

Mr. Hardy        Yes
Ms. O’Connell    Yes
Mr. Brodrick     Yes
Ms. Street-Stewart Yes
Ms. Carroll      Abstain
Mr. Risberg      Yes
A directive as made to administration that SPPS implement an annual evaluation process of Policy 903.00 within the procedure specific to it. It was requested that the monitoring specifically include community concerns.

The second item on the agenda was Bullying.

The discussion was framed within Minnesota Law and it was noted that the SPPS’s policy is one of policies in the State that is best aligned and most broadly representative of State law being more inclusive of all types of bullying with consequences stated for various levels of bullying along with a requirement to report all types of bullying for staff and students.

The issues were addressed from several perspectives; that of the Lead Social Worker, Counselors at elementary, middle and secondary levels along with professional development on the issues. The discussion also encompassed Positive Behavioral Interventions and Supports (PBIS).

A list of items for discussion at future COB meetings was developed by Board members.

Under the Standing Item: Strong Schools, Strong Community Update/Program Changes an Update on Action Teams was provided.

There was no report relative to the Standing Item: Policy Update.

The Work Session addressed the new access procedures at 360.

MOTION: Mr. Risberg moved the Board of Education accept the report on the Committee of the Board Meeting of June 28, 2011. Motion seconded by Ms. Carroll.

There was a new curriculum in elementary which was an applied math project so the students would work in creating and doing. It was piloted in grades 3-6 with the students working in teams to come up with a product at the end of the curriculum. The amount of writing done by students was also increased in order to improve their abilities in that area. A survey was provided to staff and students in order to find ways to further enhance the summer school experience.

  - A unique partnership among schools, funders and the City resulted in a significant planning grant for Promise Neighborhood.

- **January 2011**
  - The district held its annual Parent Info Fair, welcoming even higher attendance and debuting its new online school choice application.
  - The new strategic plan, Strong Schools, Strong Communities launched.

- **February 2011**
  - The district engaged with the community in more than 40 large group meetings on the Strong Schools plan. More than 3,100 people attended, including almost 1,000 parents whose first language is not English.

Superintendent Silva joined Mayor Chris Coleman to launch Sprockets, out-of-school-time local learning opportunities, which connect families through an interactive website.

- **April 2011**

  - The Parent Academy awarded 172 parents with certificates for completing the seven-week course. The program will expand to 20 sites next year.

- **Looking Ahead: Priorities for the 2011-12 School Year include:**

She stated there is a true representation across all teams of community members, staff, business leaders, teachers, churches, etc.

She discussed “Beacon” schools which are pilot schools that will go deeper into the work on cultural proficiency training.

Regarding the Center for Professional Development, a focus group was established to inform administration about what was needed in professional development. BF 28754  Bid A9445-K Pupil Transportation for the 2011-2012 School Year

Director Hardy expressed his appreciation for the background the Board had received. He stated he felt there should be some public discussion because of the streamlining of the routes. He specifically desired a conversation on the process for bids and how choices are made for carriers along with the evaluation process for carriers and the service they provide.

The CBO restated the question for clarity as an explanation of the process of selection and of evaluation. He indicated staff go through a very deliberate bid process focused on routes and what routes are needed for the academic year. Several things are taken into consideration (1) Maximizing the routes and the cost to run them, (2) The current financial situation and what guidance there is from the budget to produce savings within that budget and (3) Aligning the optimum solution to achieve that goal while at the same time ensuring there is full, safe coverage for students.

The Director of the Department of Transportation was called on to provide additional detail on the process. He indicated they publish detailed specifications including actual routes to be run for the following year. Contractors fine tune their bids based on terminal locations, service outside St. Paul, etc. The bids are opened and analyzed in great detail. Each contractor will cap the number of buses for bids. Staff then conducts a very complex multiple regression analysis of the bids ending with a recommendation being made that is in the best financial interest of the district. This is then brought to the Board.

In regard to evaluation of contractors, a compliance audit is done of each contractor in the spring. This includes a review of personnel files, summary data on drug and alcohol analysis is reviewed, a random selection of driver qualification files are reviewed, training received by drivers is reviewed, checks are made to ensure licensing is in place and that terminal staff are qualified under Federal regulations to assess drug and alcohol impairment.

Operational performance records are kept on each contractor by the Transportation Department. Overall contractor performance is very good. Problems are addressed as they arise.
QUESTIONS/DISCUSSION:

- The Board received a five year history of contract bids, a trend was noted where routes are taken away and/or added. Is that based primarily on competitive bid or are there other reasons?  Response: It is primarily due to competition. The District fosters competition with its annual bids in order to have one contractor take over the routes and then raise prices. The variation in route assignment is due to competition and low bid.
- When there is a new bidder, is that to ensure the District has the most competitive bids so the District proactively seeks new bidders?  Response: The new bidder this year has approached the District in the past. They are not one the District has contacted though the District has contacted carriers in the past. This group is the fifth largest contractor in the country and they do meet all of the District’s standards.
- In the past there was concern about the dominance of bus routes by a single carrier at that time; however as the markets have changed competition has created more funds which are available to go into classrooms.  Per Board direction a number of years ago the District has gathered information on turnover, health care, etc. What is looked at and when in the process?  Response: The District requires a number of documents as part of the bid process, particularly from new carriers. Carriers are asked to submit recruitment and retention plans to ensure they can provide sufficient drivers and can retain experienced drivers. Given the cost of training, carriers make efforts to retain their experienced drivers. SPPS also looks at turnover rates and these have been relatively low. For the most part, the drivers are highly experienced and there is competition for drivers among the carriers.

MOTION: Ms. O’Connell moved the Board of Education authorize the Superintendent (designee) to award basic routes to the indicated low available bidders conforming to the Specifications for Bid and accept the rates for Additional Service, Hourly Rate Service, and Field Trip Service as bid with the utilization to be made based upon the availability of equipment. The motion was seconded by Ms. Carroll.

Assistant Clerk, St. Paul Public Schools Board of Education
I. CALL TO ORDER

The meeting was called to order at 4:34 p.m. The Vice Chair indicated the meeting had a limited time of one-half hour as there was a Special Closed Board Meeting scheduled for 5:00 p.m.

II. AGENDA

A. Legislative Update

The SPPS Legislative Liaison indicated the K-12 Bill had not yet been posted so actual details of what was agreed to are still not known. She then proceeded to provide a recap of the completed session. She indicated multiple strategies were employed to educate the new members of the House and Senate and address the final outcome. These included multiple presentations to committees by the Superintendent, Board members, committee and individual legislative visits to schools, individual legislative meetings and grass roots stakeholder meetings (St. Paul Chamber and other education organizations, media and town meetings).

She indicated a Special Session Agreement had been reached and the session started at 3:00 p.m. today. 12 bills are being worked on: appropriations, tax, legacy, pension and bonding bills. There has been an agreement for no amendments or any other bills being added to the agenda. The bills will go straight to the floor for their third reading. Technical corrections can be made only with the agreement of all four caucus leaders and the Governor.

She reviewed the major provisions of the bills, as known, and provided her insight on what might be expected in the final bill. She also reviewed the major policy provisions, again providing her insight into whether some of them would be included or eliminated under the agreement. She also briefly reviewed the two items in the Health and Human Services Bill which would have an impact on SPPS (School Mental Health Grants and PCA).

The Omnibus Pension Bill includes provisions that address the unfunded liability. The COLA will be limited to 1% until the fund is at 80% sufficiency and 2% between 80-100% sufficiency.

The Legislative Liaison indicated she would provide a full final report to the Superintendent and Board when the actual details of the bill become available.
The Chief Business Officer (CBO) then provided a summary of the impact of State actions on SPPS. He provided a chart showing the shift payments from 2007 through projected 2011-12. He indicated they had done a review of projected cash flow and provided a chart showing the cash flow assumptions. He indicated he had set the minimum amount to maintain at $50.0 million and provided a chart showing projected operating cash balance at July 14, 2011 and the projected cash flow through October 31, 2012 at 70/30 and 60/40. This chart illustrated the points in time when cash flow would fall below the established minimum. He also provided information on the impact of borrowing and a chart of borrows which had occurred in 2010 through projected January 2012. He indicated the District was considering alternatives for borrowing through MNTAAB or through Springsted.

The question was asked if SPPS did not participate in MNTAAB, would that impact others ability to borrow. The CBO indicated it could potentially have an impact.

The CBO indicated that as soon as the actual details of the bill are known staff would conduct an analysis and synthesize that with the adopted budget and prepare a report for the Superintendent. A report would be provided to the Board along with a FY 12 adjustment in August.

Clarification on the shifts was asked for. Staff indicated the shifts lag by one year provided there is no intervening action and the impact of the shifts is entirely about cash flow. The cumulative costs are paid in different fiscal years, it is not a hit on a particular yearly budget? Correct.

### B. Standing Item: Policy Update

1. **Policy 903.00 Dangerous Weapons Policy Revision**

|MOTION: Ms. Street-Stewart moved approval of the revised language provided and that the revised policy containing the new language be brought to the August Board of Education meeting for its first reading. Motion seconded by Mr. Risberg.

Motion passed 5 in favor, 1 opposed (Carroll).

C. Work Session

1. **Conflict of Interest Confirmation** forms were collected from Board members.

### III. ADJOURNMENT

|MOTION: Mr. Risberg moved the meeting adjourn, seconded by Mr. Brodrick.

Motion passed.

The meeting adjourned at 5:02 p.m.

Respectfully submitted,

Marilyn Polsfuss

TO: Board of Education Directors  
FROM: Valeria Silva  
       Superintendent of Schools
