VI. COMMITTEE REPORTS

A. Minutes of the Committee of the Board Meeting of August 10, 2022

At the Committee of the Board Meeting on August 10, 2022, Superintendent Gothard began by welcoming everyone to the meeting, and provided a brief recap of the great work throughout the summer at S-Term and Freedom Schools, and that more information will also be provided regarding school readiness at the August 23rd Regular Meeting. He also noted that we welcomed back our Division of Schools with principals, leaders, and staff to prepare for the upcoming school year. He also shared a brief update on staffing and thanked our Human Resources team for their work to ensure we are ready to support our students and families.

Next, staff presented an update and recommendation for future action for the COVID-19 Vaccination and Testing Resolution. Details included data on the current vaccination and testing resolution, as well as challenges of the implementation, and recommendation by Administration to rescind the resolution effective on 8/23/2022 at midnight, while continuing to message out information and education on opportunities for vaccination and continue to offer test kits as they are available from the State. Discussion by board members included the information on Ramsey County’s plan regarding this topic, expectations for test availability for the upcoming school year, possibility of staff acknowledgment of either vaccination or not vaccinated, current practices of surrounding districts and agencies, implementation timeline within SPPS, ways to continue to educate and reach out to the community, as well as the impact of this resolution on the ability of our community partners to work within SPPS. Further discussion and action on this item are scheduled to occur at the August 23rd Regular Meeting.
Director Ward then introduced a presentation on updates to the procedure for public comment, including extension of public comment time and incorporating public comment into the regular meeting agenda. Discussion amongst board members included a request for information on past public comment sessions and timing, as well as future discussion and steps.

Next, the Board presented the Summary of the Annual Performance Evaluation of the Superintendent based on the standards of Implementation of the Strategic Plan, Communications, Community Engagement, Operations, Teaching and Learning, and Ethical Leadership and Equity. Overall, the Board finds the Superintendent to be highly effective in his role and acknowledges more growth is both necessary and possible and identified Key Areas for Growth. Within the discussion regarding this topic, the Board thanked Superintendent Gothard for this work as he has been a stabilizing force for education for students, and the significant gains in the district, particularly regarding equity. Superintendent Gothard noted that it is a great honor and privilege to serve as the Superintendent for Saint Paul Public Schools, and his motivation to lead the premier educational institution for the children of this community, and work for the students, staff, and families. He also thanked his team as success is never done in isolation.

MOTION: Director Kopp moved that the Board accept the report of the Committee of the Board Meeting of August 10, 2022, and approve the recommended motions and minutes of that meeting as published. The motion was seconded by Director Foster.

The motion was approved by roll call vote:
- Director Vue: Yes
- Director Allen: Absent
- Director Kopp: Yes
- Director Ellis: Yes
- Director Foster: Yes
- Director Henderson: Yes
- Director Ward: Yes

VII. SUPERINTENDENT’S REPORT

A. School Readiness Report 2022-23

Superintendent Gothard then introduced the School Readiness Report for SY 2022-2023. He noted that there will be departmental updates, updates from Academics, central office supports, school site readiness, and planning for the school year and work underway.

He also noted that enrollment is a common question, however we will not have a precise number initially, and data will need to be verified the first three weeks as there are shifts, and the pattern subsides after the first few weeks for a more accurate count.

Metro Transit will also be present during this presentation, and will include information on the challenges in shortages, and their top priority of public safety.
Within the presentation, an overview was provided on the state of readiness for the first day of school on Tuesday, September 6, 2022. Information from Schools and Learning, Finance and Human Resources, and Operation, including Security and Emergency Management, Technology Services, Facilities, Nutrition Services, Family Engagement and Community Partnerships, and Transportation was included.

Within the Metro Transit portion of the presentation, highlights include the SPPS Student Pass, Student Pass usage, route information, Metro Transit’s response to new SPPS travel patterns, future steps, student and staff resources and training, and Metro Transit Police overview and police reporting.

The full presentation can be found in the BoardBook.

QUESTIONS/DISCUSSION:

- Director Ellis requested further information on the availability and distribution of Metro Transit bus passes. Metro Transit is extremely flexible with students the first few weeks of school, and accepts student IDs as passes, or if the student identifies themself as a SPPS student to allow them to ride the bus. Information was also discussed on the distribution of passes, such as at high school open house events.
- Director Ellis also noted the comfort of riding on a bus or train, and differences between comfort and safety issues/concerns.
- Director Ellis requested information on the Metro Transit app, and how we are sharing that information with students.
- Director Foster requested information on the timing of the yellow bus notifications and information to families. They will be sent on 8/23, and we wait as long as possible as we want to capture as many students as possible in that sending of postcards with information about route and bus stop. We tend to wait within 2 weeks of school starting, and students who enroll after they have been sent are told their bus route and stop when enrolling because they will not have been in the mailing system for the postcards. Transportation staff are a wonderful resource in helping to alleviate anxiety, as they know the city very well and will be able to inform families about other families who may be at their same bus stop, as well as coordinating stops to ensure they are in areas with clear corners, lights, and avoiding busy streets. Also credit to our older students for supporting the younger students to ensure they are crossing safely. Our Transportation team stays until the last students make it home safely and ensure that every route is clear. Principals also stay until each student is home safely, especially during the first week of school. SEM will also be out to assist, and monitoring streets in mobile units, as well as our school safety liaisons.
- Director Foster also thanked Chief Grates for his service and commitment, and appreciated his comments about college and career readiness.
- Director Vue is encouraged to hear about the building leaders and staff preparing for the near school year with training and PD, and requested information about information in schools in which parents can also learn about that training and how staff are prepared. Administration noted ways in which to highlight and communicate our strategy and why, and framing it in a way to be open to input and feedback. The Administrative Leadership Academy was also noted, and how to communicate to administrators to ensure students feel seen and heard, and so students can then go home and share with their families through their lens and voice about their excitement for school.
- Director Vue also requested more information on staffing opportunities. We have been working on virtual recruiting sessions, for Special Education and ELL teachers specifically, and other teaching positions as well. There have also been numerous interviews in the media with SPPS, and a recent hiring fair at Allianz Field, as well as posting online on the district website and social
media and websites such as Indeed. Also, as part of our ARP funding, we have created a recruiting and training office, and are beginning to see the progress from that initiative.

- Director Vue requested information on the utilization of the SPPS food truck. It will be used at special events and activities throughout the school year. It was extremely popular during the summer, and we will continue to see that.
- Director Vue requested information about Parent Academy, and how it may look different. We will engage with our parent advisory groups on how to monitor and adjust Parent Academy to align with post-COVID work, including a virtual Parent Academy. We will also work with alumni to help us as well. It will likely roll out in the latter part of the first semester, or in the second semester. We will use the same standard of curriculum, and framework, which has been successful and the national model we have adopted.
- Director Vue also requested information on the process of reports on Metro Transit buses and trains verses on SPPS property. Clarification was provided, as well as information on the process, including tracking in the system, classified information involving juveniles, and officers to contact parents. If it was an issue that happened while boarding, the school would process that incident. Information was also provided on student support from staff, and helping students to board the bus and trains, as well as support from our ECC, SEM, and Metro Transit police. There is also a larger team who meets to discuss higher incident areas, and other issues to remedy situations.
- Director Ellis requested information from the presentation on “new school day trips”. It is adjusted routes to better align with schedules.
- Director Ellis also requested information on the start of Parent Academy, with the priority to be at schools affected by Envision SPPS, and start at 5-7 sites, and elementary schools first.
- She also requested information on the history and background of Parent Academy in order to go forward with the program, as well as challenges we experienced in the past and how to remedy those for the next cohort.
- Director Ellis also requested clarification on the numbers for staffing, and if those figures included the fairs, such as at Allianz Field, and online recruiting. These figures may contain some of these events, but not all, and there are also additional hiring fairs scheduled.

B. American Rescue Plan Community Partners Request for Proposal

Superintendent Gothard then introduced Dana Abrams, Director of Office of Family Engagement and Community Partnerships to present.

Topics included ARP background, with details on community partnerships and communication services for families, districtwide collaboration, request for proposals process, planning and implementation timeline, priority areas, percentage of partners by priority, a map showing the opportunities/programs for students and families across Saint Paul by area, and next steps.

The full presentation can be found in the BoardBook.

QUESTIONS/DISCUSSION:

- Director Kopp thanked the team for the presentation and thoughtful, good work, as well as the map which showed access across the city to resources.
- For the focus areas, those are based on community-driven needs? Response: Yes. It’s important to note that these are based on community input.
• Director Vue requested information on the program evaluation and progress monitoring process. Response: That is one of the areas we are working on - we need to be fiscally responsible for the dollars and use them with intent. We need to ensure we are monitoring and evaluating these programs because we can’t wait until the end of the year to determine if they are working or not. It will start early in the first quarter, and partners will also be supported through this process as much as possible. Chief Turner also noted that we will be working with the Office of REA and Innovation Office to develop the official evaluation and framework for the reporting.
• Director Vue noted that because he is on the board of one of the organizations approved to receive the funds, that he will be recusing himself from the vote on this item.

A. Policy Update

1. **THIRD READING: Policy --- -- Smudging**

Superintendent Gothard noted it is a great honor to be at this third, and final reading, for the new policy on smudging. He introduced John Bobolink, Supervisor of American Indian Education, and guests to introduce this presentation and share the significance of this potential action, as well as the work on this item. Smudging is a cultural and SEL intervention - it is not exclusive to spiritual ceremonies, and can be an every day use for social-emotional purposes. Guests then shared their thoughts and perspectives on smudging, including support, use of smudging in safe spaces for students, the effects of smudging for social-emotional and mental health needs, and inclusiveness for all students. Staff and guests then thanked the district, teachers, and leaders for their work in bringing this policy forward. This will be an impactful policy for SPPS, and the hope is for this policy to be the spark and inspiration for other districts to follow.

**QUESTIONS/DISCUSSION:**

- Director Vue requested further information on the ways in which non-Native students can learn and benefit from smudging. Response: Smudging is not exclusive to American Indian students, but is a benefit to all humans regardless of ethnicity or background. We hope to be able to share this cultural practice and learn about each other in the process.
● Staff also thanked Ms. Julia Littlewolf and the American Indian staff at Johnson, because this policy is student-driven and student-led.

● Feedback from students and staff was also shared, as well as the process for the student-led policy, which included a presentation to the Student Council, and the entire student body at Johnson.

● Following the vote by the Board, Director Foster noted that she is happy to see our district transforming, but also encouraged all to think further about our ADOS and Black students, and the curriculum. She sees the progress, and listening to our young people to make change, but continues to push back on the norm, and we need to do things differently. She reflected on her thoughts as a leader in this district, and the policies to create equitable space for all students. But we still have a lot of work to do. She noted the new leaders recognition, and it will set the tone for our new folks to the district. We are doing phenomenal work, with a powerful collective and cultural leaders in Saint Paul, but we need to continue to do things differently to change outcomes. There is a state of urgency, and we need to be focused. She reflected on her community, and the challenges and barriers that exist. There is urgency in this work, and with the new school year, we need to change our attitudes to dig deep in our buildings and in the community to truly make change for positive outcomes for our students and families.

B. COVID-19 Vaccination and Testing Resolution

Superintendent Gothard then introduced this presentation, as a follow-up from the conversation at the Committee of the Board meeting, and to determine the direction from the Board as it relates to the current resolution.

Mary Langworthy, Director of Health and Wellness, then presented information relating to this resolution such as the current vaccination and testing resolution, vaccination and testing resolution implementation, vaccine and testing resolution timeline, COVID-19 vaccine clinic opportunities, comparisons and status of resolution details across the state and other districts, vaccination and testing resolution challenges, and Administration’s vaccination and testing resolution recommendation.

The recommendation included the rescission of the vaccination and testing resolution effective 8/23/22 at midnight.

Considerations relating to this action were also discussed, including the promotion of local vaccination opportunities, and continue to offer test kids as supplies are available.
The full presentation can be found in the BoardBook.

QUESTIONS/DISCUSSION:

- Director Ellis requested more information on the test kit availability. There could be potential grant opportunities for funding for more tests, or working with our partners. Another option is purchasing test kits from the District funds, should the State rescind their offer of kits.
- She also requested information on the number of test kits that are allocated to SPPS. We are eligible for 1 test kit per student and 1 per staff member. They are available for summer school and the fall, in bulks of 3 months of supply, but is also dependent on the supply chain and requests from other districts. The State has been vague about the program and the availability and timeline.
- The test kits available are Binex, which has shown to be user-friendly for staff and families, and a reliable test.
- Director Ward requested information on the process if there are more spikes in cases, and if this resolution could be reinstated at some point. Staff provided information that with the CDC change of screening, if exposed or live with another with positive case, to be tested, and we will continue messaging about test availability. It would be a continued strategy to encourage and education, rather than a requirement.
- Director Vue requested confirmation that SPPS has exhausted every effort for staff and students to be vaccinated. Response: We have been very purposeful during this time with access to clinic opportunities, and regular communications from the Office of Communications with regular messaging to folks, and we have reached the 80% mark. With new employees, we will continue to educate and focus on the WHO guidelines to boost confidence as well. Details were also shared about the clinic opportunities, with over 100 participants regularly at the start. Information was also provided on the Pfizer booster, which also contains coverage for the Omicron variant, so we may see an increase in interest for the booster.
- Information was also shared about the participation of folks at the vaccine clinics, as well as how to target the hesitancies and provide education and support, and effectively address those barriers.
- Work with the County was also shared, including healthcare providers visiting sites to discuss with families, and talk through questions and offer accurate information on the vaccine. We are also working with schools with lower vaccination rates, and offering vaccine clinics at those sites.
- We will continue to look at ways for improvements, as well as recommendations from the CDC, to stay current and make shifts as needed.

MOTION: Director Vue moved approval of the rescission of the Resolution Adopting An Amended Saint Paul Public Schools Resolution Requiring All Staff Either To Be Vaccinated Against COVID-19 Or To Submit To Regularly Scheduled Covid-19 Testing. Director Foster seconded the motion.

The motion was approved by roll call vote:

- Director Vue: Yes
- Director Allen: Absent
- Director Kopp: Yes
- Director Ellis: Yes
- Director Foster: Yes
- Director Henderson: Yes
The Board also provided the below statement regarding this topic:

In September 2021, the Saint Paul Public Schools Board of Education approved a COVID-19 vaccine or testing resolution for its employees and became the first school district in Minnesota to institute this practice. The resolution required all staff, contractors, volunteers and visitors to acknowledge if they had been vaccinated against COVID-19, and if not, to test weekly and submit their results.

This resolution allowed Saint Paul Public Schools to stress the importance of vaccination in keeping our school community protected from severe illness caused by COVID-19. Since this policy went into effect, 78% of employees have acknowledged being fully vaccinated. The policy was updated in January 2022 to incorporate the booster shot; 80% of vaccinated employees have also acknowledged being fully boosted.

Throughout this timeframe, SPPS offered regular opportunities to become vaccinated and to pick up free COVID-19 tests at schools and administrative buildings throughout the district. Frequent communication was shared with staff as well as families about these opportunities, with reminders about staying home when sick, quarantine and isolation guidelines, and other protective measures.

As we approach the start of a new school year, the Board of Education voted [tonight] [on August 23] to rescind this resolution. At this point in the pandemic, the Board of Education has concluded that Saint Paul Public Schools has exhausted every effort for as many of its employees and community members who wish to be vaccinated and provided numerous opportunities to do so. Instead of acknowledging vaccinations, the district will move forward by continuing to offer vaccination and testing opportunities within the district and promote opportunities available in the broader community, along with other protective measures.

The Board appreciates the leadership of Superintendent Gothard during this time and the confidence that he has in Director Mary Langworthy and her team to lead this effort.

Finally, the Board would like to acknowledge the countless family members, students and employees that made this resolution a success. COVID-19 is still very much in the greater community, and for SPPS to have reached the same vaccination threshold as the nation speaks to the commitment that this district has to mitigate its spread.

XI. BOARD OF EDUCATION

A. Information Requests & Responses

- Director Foster requested further information on the awardees of the ARP grant funds. They are included in the BoardBook, and those organizations have been notified if they were awarded or not awarded the funds.
- There was an information request for summer school information, which will be provided at a September meeting.
- Director Ward spoke about a potential change to public comment procedure at the previous Committee of the Board Meeting. He requested further discussion on this topic at an upcoming meeting.
He also provided an update on his meeting regarding the Board budget, and initial ideas about exploring the idea of shifting to a full-time school board, as well as community engagement on this topic, and the request to discuss at a future meeting.

B. Items for Future Agendas
C. Board of Education Reports/Communications

Director Vue noted the SPPS food truck, and his experience, as well as acclaim for the representation of SPPS throughout the city, and strategic schedule of stops. Chief Turner thanked Stacy Koppen and her team, and noted it is a licensed food truck, in which food can be prepared on it.
