

## Students

### Medication Emergency Procedures

The school district must establish procedures to be followed in the event of an adverse reaction of a student to a medication. These procedures must ensure that the following information is available in all schools in its jurisdiction:

1. The local poison information center information number;
2. The physician, clinic, or emergency room to be contacted in the event of a medication emergency; and
3. The name of the person responsible for decision-making in the absence of the school nurse.
