Major Capital Projects:
Board of Education monthly progress update

FACILITIES DEPARTMENT

February 2023
Project Timeline

1. **Gate Check 1: Five-Year Capital Improvement and Deferred Maintenance Implementation Plan**
   
   Work identified in the five-year plan has been prioritized over the represented five-year horizon. Specificity of scope, schedule and budget vary for projects contained in the plan.

   **Board action requested:** Approval of prioritization of work as represented in the plan.

2. **Gate Check 2: Project Charter**

   The project charter is a product of internal pre-design work for projects estimated to be over two million dollars. The project charter contains the defined scope based on the evaluation of building condition, programmatic need, and initial stakeholder engagement. The preliminary schedule and project estimate are included.

   **Board action requested:** Approval of the project charter indicating acceptance of the identified scope and understanding of the project schedule and rough order of magnitude of cost. Approval indicates the Board’s direction to issue a request for proposal to secure design services.

3. **Gate Check 3: Project Budget**

   Once a project has moved through schematic design, solutions have been identified and developed with sufficient detail to estimate a construction cost and set a final project budget. Finalization of the design and construction drawings will be informed by this budget.

   **Board action requested:** Approval of final project budget. Approval indicates the Board’s direction to proceed with construction bidding so long as the project remains within the allotted budget.

4. **Gate Check 4: Construction Award**

   Per public procurement practices, work will be advertised for bid and bids will be received by the Purchasing Office and vetted for response compliance. Project consultants will vet the value of bids against anticipated costs and provide the District with a formal recommendation to award based on the lowest responsible bid.

   **Board action requested:** Approval of vetted and recommended vendors to award work and enter into contractual agreement for construction.

5. **Gate Check 5: Project Closeout**

   This gate check will be presented at the beginning of the project closeout phase and again upon final fiscal closeout of the project. The project closeout period begins at substantial completion of construction. The Substantial Completion certificates indicate beneficial occupancy and shift of focus to completion and inspection of punchlist items and entry into warranty period. There are still outstanding financial obligations during the closeout phase of the project, but an initial evaluation of the overall use of budget can be conducted. The second presentation of this gate check will occur when all contractual obligations are complete and all final payments have been issued. This can occur twelve to eighteen months after completion of construction. Except in the rare circumstance in which Substantial Completion and final closeout occur simultaneously, the Board will see the following two reports during this gate check:

   - **Gate Check 5.1: Initial Project Closeout (Substantial Completion)**
   - **Gate Check 5.2: Final Project Closeout**

   **Board action requested:** Acceptance of report(s).
**Project Financial Information**

**A. Rough Order of Magnitude Cost Estimate:** In the initial planning phase, the cost of a project gets refined along the way as the scope of work is fine tuned and more in-depth information is gathered on the condition of the building and overall site. Through this process, the initial costing evolves from a rough estimate referred to as a "Rough Order of Magnitude" to a final budget. (Presented to the Board at Gate Check 1 and 2.)

**B. Original Budget:** Final project budget approved by the Board at Gate Check 3.

**C. Committed Costs:** Contractual obligation of funds for project work.

**D. Invoiced to Date:** Invoices are submitted and approved through Procore, the project management environment used by the District. The value represented indicates all invoices submitted and approved by the project team.

**E. Construction Award:** Total of all construction contracts.

**F. Construction Cost Changes:** Value of all change orders issued to construction contracts.

**G. Percent Change:** Calculation of construction change orders against total construction award.

**H. Total Forecasted Cost:** Anticipated cost of the fully delivered project at the time of the report including known committed, pending, and potential costs as identified by the project team.

**I. Construction Percent Complete (as invoiced):** Percent of completion is calculated based on the value of work in place as indicated on the vetted and approved pay applications submitted by contractors against the total value of construction commitments. As this is based on billed amounts, there is frequently a 30-60 day lag to represent the work in full.
American Indian Magnet: February 2023 Project Update

Location: 1075 Third St. E., Saint Paul, MN 55106
Grades: PreK-8
Enrollment (SY20-21): 611
Project website: spps.org/aimsfmp
School website: spps.org/aims

Project summary

Project number: 1160-19-01
Funding: Certificates of Participation (COP)
Project type: Addition and renovation
Square footage:
- Existing: 103,000 sf
- Proposed: 131,626 sf

SPPS project team:
- Michelle Bergman Aho, Project Manager
- Kenny Ekblad, Project Coordinator

Design team: Cuningham Group

Construction management: H+U Construction

Project scope

- Additions with new PreK-8th grade classrooms, administration area, media center (Long House), kitchen, and cafeteria.
- New playground and site improvements.
- Renovation of existing building including learning spaces, academic support spaces and restrooms.
- Replacement of all finishes, HVAC and controls, plumbing, lighting, required upgrades to fire suppression and fire alarm systems.

New this month

- The administration area is progressing with mechanical rough-ins now complete.
- Hanging, mudding and taping of drywall is ongoing in the administration area.
- The third-floor renovation is tracking to be complete for an April turnover. Woodwork is complete, walls are painted, and the ceiling grid is being installed in the hallway.

Education and Operations Services: February 2023 Project Update

Location: 1930 Como Ave., Saint Paul, MN 55108
Number of employees: Approximately 230 staff
Project website: spps.org/Page/41781

Project summary

Project number: 4000-22-01
Funding: American Rescue Plan
Project type: HVAC upgrades
Square footage:
- Existing: 228,836 SF
- Proposed: N/A

SPPS project team:
Jason Jones, Project Manager
Design team: TKDA
Construction team: Morcon

Project scope

- Replace existing air handling units with new one
- Add A/C condensing units on roof
- Improve ventilation in maintenance office area

New this month

- Final project design details have been confirmed and equipment ordered from the factory.
- Work to occur summer 2023 and winter break 2023.

Winter 2024
From top: Improved air quality and cooling will be provided for the kitchen area; existing ductwork will be replaced and rearranged as needed (January 2023)
Hidden River Middle School: February 2023 Project Update

Location: 1700 Summit Ave., Saint Paul, MN 55105
Grades: 6-8
Enrollment (SY22-23): 568
Project website: spps.org/hiddenriver-builds
School website: spps.org/hiddenriver

Project summary

Project number: 3140-20-02
Funding: Certificates of Participation (COP) and Capital Bonds
Project type: Remodel and addition
Square footage:
- Existing: 82,322 SF
- Proposed: Renovation: 89,621 SF; Addition: 9,613 SF
SPPS project team:
- Angela Selb-Sack, Senior Project Manager
- Josie Geiger, Project Coordinator
Design team: DLR Group
Construction management: Kraus-Anderson

Project scope

- New administrative offices in two-story addition
- Clearly marked main entrance with new secure entry
- Renovated and reconfigured classrooms
- Kitchen renovation, inclusive restrooms
- New instructional audio/visual equipment
- HVAC and controls replacement, electrical replacement, and other systems improvements
- Partial roof replacement, window replacements, parking lot pavement

New this month

- Design team conducted student sustainability and design surveys; a student workshop took place on February 2.
- Design Development is complete and the internal cost-estimate analysis is wrapping up to confirm alignment to the previously approved Gate Check #3 budget.

Project summary

Project number: 3090-21-01
Funding: Certificates of Participation (COP)
Project type: Addition and renovation
Square footage:
- Existing: 55,160 SF
- Proposed: 70,725 SF

SPPS project team:
- Rosemary Dolata, Project Manager
- Kenny Ekblad, Project Coordinator

Design team: Cuningham
Construction management: Knutson Construction

Project scope

- Kitchen and cafeteria addition
- New classrooms (5), inclusive restrooms, and gym floor
- New HVAC in existing west wing; one new boiler in original school building
- Improved traffic flow for cars, buses, and deliveries

New this month

- With steel erection nearly complete, the final form of the school addition is now easy to visualize.
- The structure is temporarily enclosed and heated to allow winter work to continue.
- Interior drywall work will begin soon.

**Project summary**

**Project number:** 1150-19-01

**Funding:** Long-Term Facilities Maintenance (LTFM) ; American Rescue Plan (ARP)

**Project type:** Building systems upgrades

**Square footage:** Existing: 281,369 SF; Proposed: N/A

**SPPS project team:**
- Jason Jones, Project Manager
- Josie Geiger, Project Coordinator

**Design team:**
- TKDA
- Tim Hoseck, Engineer
- Ursula Larson, Architect

**Construction team:** Market & Johnson

**Project scope**

- Installation of geo-thermal heating and cooling system
- Significant replacements to the HVAC system
- Lighting replacement
- Significant additional indoor-air quality scope added mid-project with American Rescue Plan (ARP) funding

**New this month**

- Planning continues to go well for the third and final phase of the project.
- In summer 2023, the existing air units will be replaced with new units, mostly on the second floor.
