Major Capital Projects:

Board of Education

monthly progress update

Facilities Department

August 2022
Project Timeline

1. Gate Check 1: Five-Year Capital Improvement and Deferred Maintenance Implementation Plan

   Work identified in the five-year plan has been prioritized over the represented five-year horizon. Specificity of scope, schedule and budget vary for projects contained in the plan.

   **Board action requested:** Approval of prioritization of work as represented in the plan.

2. Gate Check 2: Project Charter

   The project charter is a product of internal pre-design work for projects estimated to be over two million dollars. The project charter contains the defined scope based on the evaluation of building condition, programmatic need, and initial stakeholder engagement. The preliminary schedule and project estimate are included.

   **Board action requested:** Approval of the project charter indicating acceptance of the identified scope and understanding of the project schedule and rough order of magnitude of cost. Approval indicates the Board’s direction to issue a request for proposal to secure design services.

3. Gate Check 3: Project Budget

   Once a project has moved through schematic design, solutions have been identified and developed with sufficient detail to estimate a construction cost and set a final project budget. Finalization of the design and construction drawings will be informed by this budget.

   **Board action requested:** Approval of final project budget. Approval indicates the Board’s direction to proceed with construction bidding so long as the project remains within the allotted budget.

4. Gate Check 4: Construction Award

   Per public procurement practices, work will be advertised for bid and bids will be received by the Purchasing Office and vetted for response compliance. Project consultants will vet the value of bids against anticipated costs and provide the District with a formal recommendation to award based on the lowest responsible bid.

   **Board action requested:** Approval of vetted and recommended vendors to award work and enter into contractual agreement for construction.

5. Gate Check 5: Project Closeout

   This gate check will be presented at the beginning of the project closeout phase and again upon final fiscal closeout of the project. The project closeout period begins at substantial completion of construction. The Substantial Completion certificates indicate beneficial occupancy and shift of focus to completion and inspection of punchlist items and entry into warranty period. There are still outstanding financial obligations during the closeout phase of the project, but an initial evaluation of the overall use of budget can be conducted. The second presentation of this gate check will occur when all contractual obligations are complete and all final payments have been issued. This can occur twelve to eighteen months after completion of construction. Except in the rare circumstance in which Substantial Completion and final closeout occur simultaneously, the Board will see the following two reports during this gate check:

   - Gate Check 5.1: Initial Project Closeout (Substantial Completion)
   - Gate Check 5.2: Final Project Closeout

   **Board action requested:** Acceptance of report(s).
Project Financial Information

A. **Rough Order of Magnitude Cost Estimate:** In the initial planning phase, the cost of a project gets refined along the way as the scope of work is fine tuned and more in-depth information is gathered on the condition of the building and overall site. Through this process, the initial costing evolves from a rough estimate referred to as a "Rough Order of Magnitude" to a final budget. (Presented to the Board at Gate Check 1 and 2.)

B. **Original Budget:** Final project budget approved by the Board at Gate Check 3.

C. **Committed Costs:** Contractual obligation of funds for project work.

D. **Invoiced to Date:** Invoices are submitted and approved through Procore, the project management environment used by the District. The value represented indicates all invoices submitted and approved by the project team.

E. **Construction Award:** Total of all construction contracts.

F. **Construction Cost Changes:** Value of all change orders issued to construction contracts.

G. **Percent Change:** Calculation of construction change orders against total construction award.

H. **Total Forecasted Cost:** Anticipated cost of the fully delivered project at the time of the report including known committed, pending, and potential costs as identified by the project team.

I. **Construction Percent Complete (as invoiced):** Percent of completion is calculated based on the value of work in place as indicated on the vetted and approved pay applications submitted by contractors against the total value of construction commitments. As this is based on billed amounts, there is frequently a 30-60 day lag to represent the work in full.
American Indian Magnet: August 2022 Project Update

Location: 1075 Third St. E.
Saint Paul, MN 55106

Grades: PreK-8
Enrollment (SY20-21): 611

Project website: https://www.spps.org/aimsfmp

Project summary

Project number: 1160-19-01
Funding: Certificates of Participation (COP)
Project type: Addition and renovation
Square footage:
- Existing: 103,000 sf
- Proposed: 131,626 sf

SPPS project team:
- Angela Selb-Sack, Senior Project Manager
- Larry Opelt, Project Manager
- Michelle Bergman Aho, Project Coordinator

Design team: Cuningham Group
Construction management: H+U Construction

Project scope

- Additions with new PreK-8th grade classrooms, administration area, media center (Long House), kitchen, and cafeteria.
- New playground and site improvements.
- Renovation of existing building including learning spaces, academic support spaces and restrooms.
- Replacement of all finishes, HVAC and controls, plumbing, lighting, required upgrades to fire suppression and fire alarm systems.

New this month

- Exterior sidewalks are being poured in addition to site grading.
- Floor tile is being installed in the inclusive restrooms.
- All of the under-slab plumbing rough-ins have been installed and is getting prepared for the floor slab.
- Shoring has been installed in the stair tower where the stair was removed and the floors will be filled back in.
- Third-floor demolition is almost complete.

**Project type:** Building system replacement

**Square footage:**
Existing: N/A; Proposed: N/A

**SPPS project team:**
- Vaughn Kelly, Project Manager
- Josie Geiger, Project Coordinator

**Design team:**
- Architect: Miller Dunwiddie
- Mechanical and Electrical Engineering: Emanuelson-Podas
- Structural Engineering: BKBM

---

**Project scope**

- Roofing replacement.

**New this month**

- Bridge View's roofing project continues to be on schedule.
- A new full-size access door will be installed to replace the existing side hatch that has been infilled with masonry.
- The pitch of the roof is being increased with tapered insulation for better draining and thermal performance.
- Skylights have arrived and will be installed shortly.
- Plumbing inspections are all complete and ceilings are being re-installed.
- With summer school complete at RiverEast, classroom furniture has been moved back into Bridge View to prepare for students' return.

Project Summary

Project number: 1100-19-01
Funding: Capital Bonds, Long-Term Facilities Maintenance
Project type: Addition and renovation
Square footage:
- Existing: 73,415 sf.
- Proposed: 98,493 sf.
SPPS project team:
- Rosemary Dolata, Project Manager
- Michael Christen, Project Coordinator
Design team: U+B Architecture & Design
Construction management: Kraus-Anderson

Project Scope

- 32,000 sf. addition with new PreK and K classrooms, dividable gym, kitchen, cafeteria, secure main entry and service entrance.
- New playground, re-routed bus traffic and new drop off curb cuts.
- Renovation of existing building with learning and academic support spaces, restrooms; demolition of parks and recreation building connected to school.
- Replacement of all finishes, HVAC and controls, lighting; new fire suppression and fire alarm systems.

New this month

- Phase 5 (south end) is nearly complete; after finishes are completed, final cleaning will follow, then furniture will be installed.
- Work in Phase 6 (north end) is ongoing, including inclusive restrooms and teaching spaces; electrical work will be followed by ceiling installations.
- The point of connection to the former rec center is being infilled.

www.spps.org/Page/39804

Project summary

Project number: 1150-19-01
Funding: Long-Term Facilities Maintenance (LTFM)
Project type: Building systems upgrades
Square footage:
Existing: 281,369 SF; Proposed: N/A

SPPS project team:
• Jason Jones, Project Manager
• Josie Geiger, Project Coordinator

Design team:
• TKDA
• Tim Hoseck, Engineer
• Ursula Larson, Architect

Construction team: Market & Johnson

Project scope

• Installation of geo-thermal heating and cooling system
• Significant replacements to the HVAC system
• Lighting replacement
• Significant additional indoor-air quality scope added mid-project with American Rescue Plan (ARP) funding

New this month

• New ductwork to supply fresh air into classrooms are being concealed in a drywall soffit.
• In the library, a new ceiling tile cloud feature is being added along with school color accents in the ceiling.
• In the computer lab, a new Epson projector and 20 feet of new white boards are being installed.
• Faster data cables as being installed to future proof the school's network.
