

Energy Scavenger Hunt

Draw Your Answers!

Draw your answers to the following questions and ask an adult to check your answers when complete.

Step 1: Find a piece of scrap paper to draw out your responses on – you can save paper doing this challenge!

Step 2: Draw your answers to the questions below. Be creative!

Step 3: Check responses. Answers sheets available at <https://www.spps.org/Page/39292>. Ask an adult to help you check.

Step 4: Post your favorite response on social media and tag the Saint Paul Public Schools. [#SPPSinitTogether](#)

1. Spot a living animal or insect. Draw the **food sources** that provide the creature with energy.
2. Find and draw three (3) things that use energy to **make light**.
3. Find and draw three (3) things that use energy from the **sun**.
4. Find and draw three (3) things that use the **wind's** energy.
5. Find and draw something that use energy and is typically **always on** whether you are using it or not.
Fun fact: if an appliance uses energy when turned off, it's called VAMPIRE power! Spooky!
6. Find and draw three (3) things that use energy and can be **turned off** when not being used.
7. Draw a renewable resource that can be used to **make** energy.
8. Draw yourself and your friends/family doing something to **save** energy!
