- Stafford Township School District will share with staff the new CDC resources which are available to provide information about vaccinations:
 - The <u>COVID-19 Vaccines for Teachers</u>, <u>School Staff</u>, and <u>Childcare</u> <u>Workers</u> web page provides school and childcare staff with the latest information about where and how to book an appointment.
 - The <u>COVID-19 Vaccine</u> <u>Toolkit for School Settings and Childcare</u> <u>Programs</u> provides schools and childcare programs with ready-made materials they can use to communicate with staff about COVID-19 vaccination
- Stafford Township School District officials will work together with the Ocean County Health Department and New Jersey Department of Education to also support messaging and outreach about vaccination for members of school communities.

H. Appropriate accommodations for children with disabilities

A narrow subset of students with disabilities might not be able to socially distance or fortow other public health requirements. Those who cannot safely adhere to these uitelines should not be required to adhere to the guidelines when documented in the student's Individual Education Plan and/or by a medical professional. The district will make individualized determinations as required by Federal disability laws in order to determine if an exception is necessary and appropriate for a particular student. If a child with a disability cannot maintain physical distance or adhere to other public health requirements, the student is still entitled to an appropriate education, which in some

circumstances may need to be provided via homebound instruction as documented by a medical professional.

Ensuring Continuity of Services

ince

The Stafford Township School District will work with teaching staff to adjust pacing guides for all subject areas and identify supplemental resources that can be utilized to close the achievement gap for our students. The district will utilize a researched based assessment (I-Ready) and participate in state assessment to monitor student progress. The district will provide learning acceleration activities that will include summer educational programs, before and/or after school assistance to students and social, emotional, and mental health needs of our students through our guidance counselors and child study team. We will contract with outside agencies and our health care company to provide social, emotional, and mental health resources for staff to assist with any need that arises. Professional development will be provided to make data easier for all to understand, on growth mindset, and Multi-Tiored System of Support. Review of services will be ongoing.

PROGRAM 2270 Religion in the Schools

2270 RELIGION IN THE SCHOOLS

The Board of Education recognizes that religious belief and disbelief are matters of personal conviction rather than governmental authority and the students of this district are protected by the First Amendment of the United States Constitution and by Article I, Paragraph 4 of the New Jersey State Constitution from the establishment of religion in the schools. The First Amendment requires public school officials to show neither favoritism toward nor hostility against religious expression such as prayer.

As a condition of receiving Elementary and Secondary Education Act of 1965 (ESEA) funds, the Board of Education must annually certify in writing to the New Jersey Department of Education that no Board policy prevents, or otherwise denies participation in, constitutionally protected prayer in public elementary and secondary schools, as detailed in the United States Department of Education's Guidance on Constitutionally Protected Prayer and Religious Expression in Bublic Elementary and Secondary Schools (USDOE Guidance). The Board must provide this certification to the New Jersey Department of Education by October 1 of each year during which the Board participates in an ESEA program. The USDOE Guidance provides information on the current state of the law concerning constitutionally protected prayer and religious expression in public elementary and secondary schools.

The following activities as outlined in the USDOE Guidance will be permitted upon applying the governing constitutional principles in particular public school contexts related to prayer: prayer and religious exercise during non-instructional time; organized prayer groups and activities; teachers, administrators, and other school employees; moments of silence; accommodation of prayer and religious exercise during instructional time; student assemblies and noncurricular events; prayer at graduation; and/or baccalaureste ceremonies.

The following activities as outlined in the USDOE Guidance will be permitted upon applying constitutional principles regarding religious expression other than prayer in particular public school contexts: religious literature; teaching about religion; student dress codes and policies; religious expression in class assignments and homework; and/or excusals for religious activities.

In addition to the constitutional principles outlined in this Policy and the USDOE Guidente, public schools may also be subject to requirements under Federal and State laws relevant to prayer and religious expression. Such Federal and State laws national, not; however, obviate or conflict with a public school's Federal constitutional obligations described in the USDOE Guidance. The Equal Access Act, 20 U.S.C. Section 4071, is designed to ensure that student religious activities are accorded the same access to Federally funded public secondary school facilities as are student secular activities.

The United States Department of Justice has developed guidance for interpreting the Equal Access Act's requirements outlined in the USDOE Guidance in the area of
