LSHS Advanced Course Offerings 2023-2024

Lake Stevens High School is committed to offering a variety of rigorous courses to support students who are looking to push themselves beyond the regular high school experience. To this end, we offer Advanced Placement (AP) and College in the High School (CIHS) courses. In addition, some of our Career and Technical Education (CTE) offerings may intrigue students who are looking to push their academic experience to the fullest extent.

COLLEGE IN THE HIGH SCHOOL (CHS)

College in the High School courses are offered in partnership with various post-secondary institutions. In each instance, students must apply and register with the partner institution, engage in the rigorous content as delivered by the high school teacher, and have the potential to receive college credit for the grade they earn in the class.

CTE DUAL CREDITS

Some CTE courses are designed to lead into a certificate, Technical Degree, BA/MA Degree or Doctorate Program. Students are encouraged to check with 4-year colleges/universities to inquire if these credits are transferable.

- Pacific NW College Credit (PNWCC) includes (Bellevue College, Lake Washington Institute of Technology and more. Cost is $50 per year for any/all courses (a student must earn a "B" or better) - Students must register and pay for credit the same year they take the class.
- EvCC cost is $50 per year for any/all courses (a student must earn a "C" or better) - Students must register for credit the same year they take the class but will have up to 3 years to pay for the credit.

**** Some courses are currently in review; please check back in with a counselor for updates/new additions.

ADVANCED PLACEMENT (AP)

Advanced Placement courses are rigorous, college-level classes in a variety of subjects that allow students to explore concepts and dig deeper into content. AP courses are taught by high school teachers whose skill set and curriculum have been vetted by the College Board. Each student pays a nominal fee in the fall to take the AP exam in the spring - in the content area connected to their course. Students who achieve a three or greater on the AP exam will receive college credit at Washington colleges and universities. Parents and students should be diligent in partnering with the student's intended college to determine that specific college/university's AP-to-credit policy.

The following is a list of our AP, CIHS, and CTE Dual Credit courses. In some cases, a course may be eligible for both AP credit as well as college credit through the partnering institution. Due to circumstances beyond our control, at times, the list of courses below, the partner institutions noted, and even the availability of college credit may change. We always communicate when there's a shift, and we always look for alternative options for students.

I understand that:

- The student is responsible for understanding when his or her choice of schedule will result in tuition charges. If the student enrolls for more high school and college credits than are identified in the Running Start State Funding Limit Table, the student is responsible for:
  1) paying all college tuition and fees associated with exceeding the college credits identified in the table; or
  2) withdrawing from the excess college or high school course(s).
- The student is required to pay any class/lab fees charged for college classes.
- Enrollment in specific college classes cannot be guaranteed – even if the classes are needed to fulfill high school graduation requirements.
- If the student begins Running Start in winter or spring term, eligibility for the previous term(s) that year is forfeited.
- To add/withdraw from a course, the student must complete the college Add/Drop process by the college deadline and notify the high school counselor.
- The student is responsible for ensuring that college courses completed as part of the Running Start program will meet high school graduation requirements.
- If the student plans to transfer, it is the student's responsibility to determine college admissions policies/deadlines and whether credits will transfer.
- The student and parent's signatures below provide permission for the high school and college to share the Running Start student's academic records, which can include the student's grades, billing, registration, and attendance records regardless of whether FERPA rights belong to the student or parents. See the FERPA statement on the back of this form.
- After completing the college coursework, students are responsible for requesting official college transcripts through the college's registrar office.

I acknowledge that I have read, understand, and will comply with the conditions of Running Start participation and the expectations of college course enrollment.

Who should sign up for AP/CHS Advanced Options?

Questions for students to ask themselves...

- Can I work independently?
- Am I excited to get ahead in credits and start a college transcript toward my future goals?
- Am I willing to increase my time working on additional reading/writing assignments at home? And/or math/science assignments at home?
- What might current teachers recommend for me?
- Do I communicate with my teachers often/effectively?

- Taught by vetted staff
- Used for
  - college admissions
  - college placement OR credit OR sometimes both
- Single test at end of experience
- Public universities in WA - 3+ will earn credit
- Cost - $98 per Exam (Free for students with F/R Lunch)

CHS

- Rigorous coursework
- Taught by vetted staff
- Used for
  - college admissions
  - college placement AND credit (86% transfer rate) for a grade of C or better (generally)
- End-of-course grade is final
- As of the 2023-24 school year - NO COST

AP/CHS - Timeline

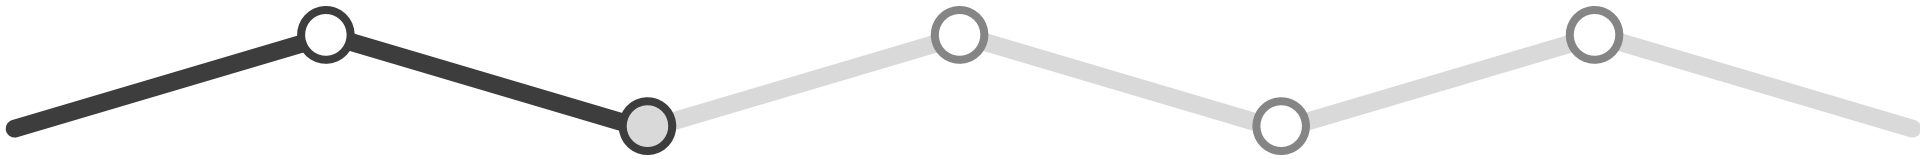
Student takes AP/CHS Courses

Student applies to colleges

Student is accepted to college(s)

Student sends AP Scores and/or CHS Transcript to College

College decides placement or credit or both



AP/CHS - Admissions

The process a college goes through in determining which applicants to accept.

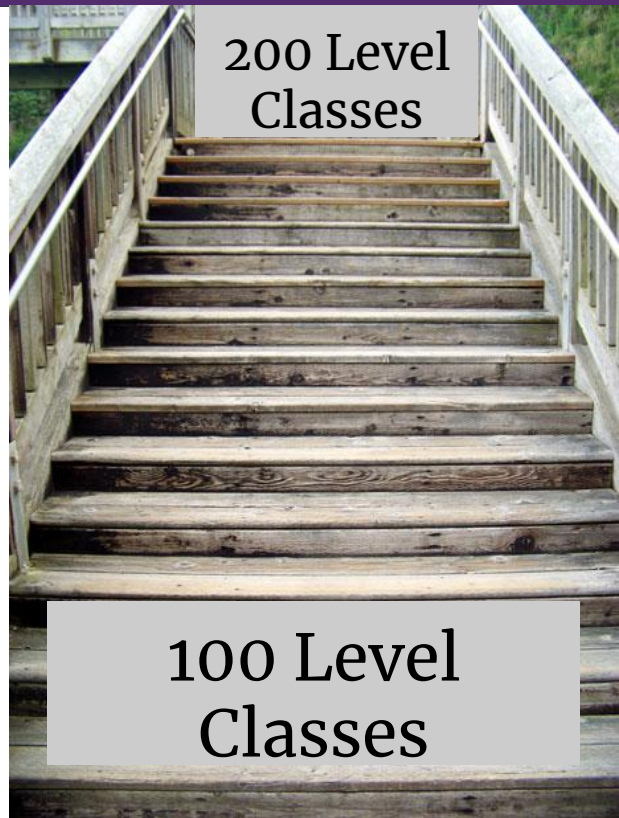
<u>AP and CHS Benefits:</u>
Allows you to distinguish yourself from the others.

AP/CHS - Placement

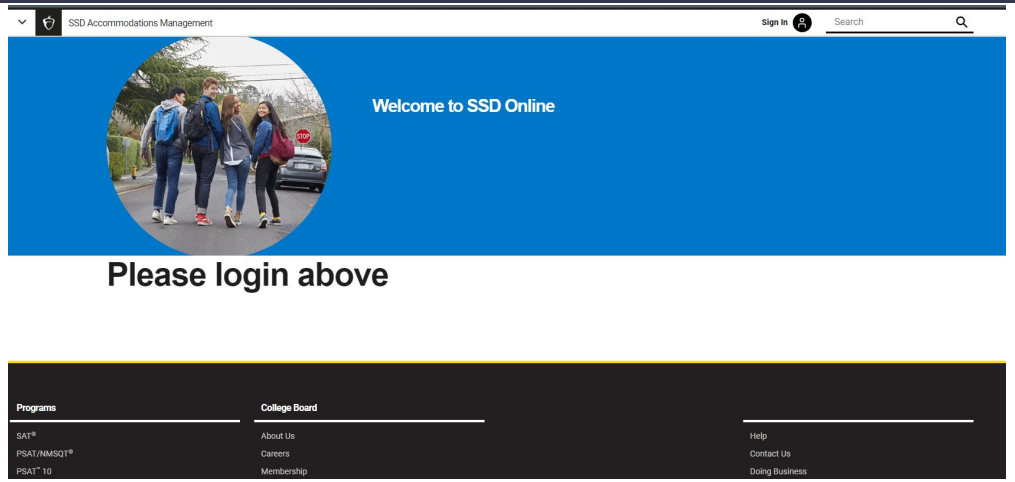
Which level of class the college chooses to put you in.

- Tip #1 - bring a copy of your unofficial transcript and/or AP Scores to meet with your advisor at a College/University.
- Tip #2 - keep copies of your syllabus from CHS classes

<u>AP and CHS Benefits:</u>
Often allows you to "skip" entry level college coursework.

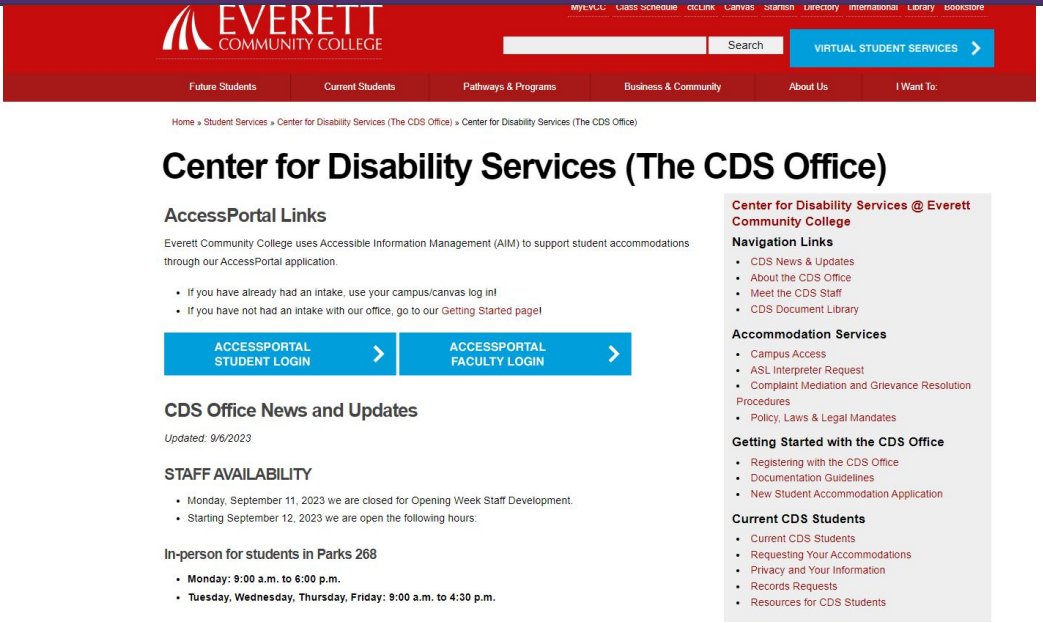


504 Plan or IEP Accommodations: Limitations with AP



- Students can submit documentation of their 504 Plan or IEP information to the College Board SSD Online
  - Counselors can help with this! Parent consent is needed.
  - Must be completed months in advance of tests
- Examples of accommodations that could be approved for AP Exams IF they are on existing 504/IEP and :
  - Small Group Testing
  - Additional breaks
  - Time and a half
  - Scribe
  - Access to diabetes testing supplies

504 Plan or IEP Accommodations: Limitations with CHS



For more information and/or questions, visit: https://www.everettcc.edu/students/cds

Students can take a CHS course - **for LSHS credit only** - and have ALL of their 504 Accommodations provided by LSHS.

- When students sign up for CHS, we have to follow the higher ed/college guidelines
- Examples of this include:
  - Students cannot have modified grading standards
  - Students cannot have reduction of in-course work expectations
  - No abbreviated or reduced testing

How should you choose between CHS/AP?

... know yourself.

- Are you a good test taker? (3+ on AP)
- What kind of student are you?
- What grades do you normally have in advanced classes? (CHS - C or better)

- What are your post-high school intentions?
- Did you miss the CHS deadline(s)?
- Financial considerations - Fee waivers (AP)?

How do I pay/register?

Will my AP/CHS credits transfer after High School?

Will my AP/CHS credits transfer after HS?

In most cases, yes!

Every University has sole discretion in whether or not credits will transfer appropriate to the student's degree program.
