#### Functions:

Instruction (1100 – 1200): Instruction includes the activities directly dealing with the teaching of pupils or the interaction between teacher and pupil. Teaching may be provided for pupils in a school, in a classroom, in another location, such as in a home or hospital, and through other approved media such as television, radio, telephone and correspondence.

Pupils (2100): Activities which are designed to assess and improve the well-being of pupils and to supplement the teaching process. e.g., Pupil personnel, guidance, health, psychological, speech and audiology, attendance, graduation and student assembly services.

Instructional Staff (2200): Activities associated with assisting the instructional staff with the content and process of providing learning experiences for pupils. e.g., Curriculum development, staff training, ed. aides and media services

Board of Education (2300): Activities concerned with establishing policy in connection with operating the District.

School Administration (2400): Activities concerned with administrative responsibility e.g., Supt. & Principal offices.

Fiscal (2500): Activities associated with the financial operations of the District. e.g., Treasurer's office.

Business (2600): Activities concerned with directing & managing service areas. e.g., Business Manager's office.

Operation of Plant (2700): Activities concerned with keeping the physical plant open, comfortable and safe for use and keeping buildings and equipment in an efficient working condition. e.g., Maintenance & custodial areas.

Transportation (2800): Activities concerned with the conveyance of students to and from school and to activities.

Statistical Services (2900): Activities, other than general administration, which support each of the other instructional and supporting services programs. e.g., Personnel and technology.

Community Services (3200): Payments made by the District to support activities that do not directly relate to providing education for pupils in the District.

Extracurricular Activities (4000): Subject matter and/or activities not provided in regular classes. Generally, participation is not required and credit is not given.

Capital Outlay (5000): Improvements to the District buildings & land.

Contingencies (7000): To be used for unanticipated emergencies.

The forecast is legally adopted by the Board of Education by the end of November and is intended to assist Board members, administration and interested parties in assessing the fiscal ramifications and consequences of decision-making, or lack thereof, for the District. No number or assumption in this forecast should be considered an absolute because the information relied upon to develop the numbers is in a constant state of change. For example, State budgets are adopted on a two-year cycle, no reasonable assurance can be given that a five-year forecast projection of State funding will bear any resemblance to reality. Therefore, financial forecast documents must be viewed and interpreted as dynamic documents. It is inevitable that no forecast number will be exactly right – but the trend may certainly be relied upon. This forecast will continue to change as events occur and decisions are made.

The Winton Woods City School District is located approximately 15 miles north of Cincinnati, Ohio. It serves an area of 13.2 square miles encompassing the City of Forest Park, Village of Greenhills and a small portion of Springfield Township. The total District population has increased from 27,070 in 1980 to 28,906, latest information available, in 2014.

Starting for the 2021-2022 school year, the District had 3,850 students enrolled in three campuses; North Campus serving grades 7-12; South Campus serving grades 1-6 and an Early Childhood Center serving PK-K. The District had been experiencing declining enrollment until the 2011-2012 school year in which enrollment began to stabilize. The District also operates a variety of other facilities, including a central administration building, bus garage, maintenance building and several sports fields.

The District provides a full range of programs and services for its students. These include elementary and secondary course offerings at the general, vocational and college preparatory levels. A broad range of co-curricular and extra-curricular activities to complement the students' curricular programs are also offered.

The last tax levy was passed in November 2018. This was a continuing replacement levy, which replaced a \$4.2 million emergency levy which would have expired at the end of 2019. The District plans to submit to the voters a \$3,000,000.00 five-year (5) emergency levy at the May 2022 election to take effect January 1, 2023.

The following is a detailed description of the assumptions made in developing the current Five-Year Plan.

# Revenues

# Line 1.01 General Property Taxes

Real Estate revenue is based on the most current tax duplicate information received from the Hamilton County Auditor. Property values are established each year by the County Auditor based on new construction and updated values. The Hamilton County Auditor completed the updated reappraisal in 2020 which began collections in 2021.

Based on the latest information available from the Hamilton County Auditor, the current total property values for collection year 2021 are \$539,759,110; \$410,292,020 for residential and agricultural, \$104,876,930 commercial and industrial and \$24,590,160 public utility personal.

Due to HB 920, passed in 1976, we do not receive additional revenue on voted millage if property values increase. HB 920 effectively reduces the millage to provide the same amount of revenue as when the millage was passed. In a period of declining property values just the opposite is true. The District will receive the same revenue thus increasing the effective rate. However, the effective rate may never exceed the voted millage. The District does have inside millage of 4.65 mills that is permitted to grow (decline) if the property values increase (decrease).

However, due to a relatively stable total valuation, total real estate collections have been held constant for fiscal years 2022 through 2026.

There is a proposed five (5) year emergency levy on the Forecast which will generate \$3 million per collection year beginning in FY23

# Line 1.02 Tangible Personal Property Taxes

Tangible Personal Property Tax (TPP) and Public Utility Personal Property (PUPP) will phase out completely and thus eliminate tangible personal property taxes. The District had a tangible personal property tax base of \$30 million before the phase out began. Tangible property includes business equipment, inventories and fixtures. The state has phased this tax base out completely. The District's final reimbursement was \$184,683 received in FY16 on a total loss of \$2.3 million. The reimbursement is posted to the Property Tax Allocation line. The reimbursement was completely phased out beginning fiscal year 2017.

## Line 1.03 Income Tax

The District does not have an Income Tax.

# Line 1.035 Unrestricted Grants-in-Aid

The State of Ohio funds public school districts on a two-year cycle, referred to as the biennium budget. Projecting state funds beyond the two-year budget is challenging since the reliance on these funds is based on future, unknown legislation. Funding public school districts in Ohio has been a controversial topic for decades, evident by the Ohio Supreme Court ruling school state funding unconstitutional on at least three different occasions.

State Funding has experienced different funding "formulas" in three of the last four biennium budgets. Fiscal year 2021 through 2025 are based on the current state funding formula.

State support for fiscal years 2022 through 2026 has been projected on the most recent information available. The state funding formula is currently being revised to the "Fair Share Funding Plan". The state funding was frozen at FY 2019 funding levels prior to the implementation of this plan. The projected unrestricted receipts from the new program plan are \$17,420,000 for fiscal year 2022 and \$18,700,000.00 for fiscal year 2023. It is still uncertain if the new plan will provide the projected increases beyond fiscal year 2023. Therefore, fiscal years 2024 through 2026 have been held constant.

## Line 1.04 Restricted Grants-in-Aid

Through the State funding formula, the District receives funding for economically disadvantaged students and for the offering of career technical education programs. The funding received through these two items are restricted on how it can be spent. The District also receives restricted funds from the State through the catastrophic cost program. Economically disadvantaged funding is provided by the State to address economic disadvantaged (poverty) and its effects on educational outcomes. Funding is based on the number of students who qualify for the free or reduced lunch program. Those that qualify are considered economically disadvantaged. This represents students in poverty, but also students of families with low incomes. The District has seen an increase in the number of students considered economically disadvantaged. It is anticipated that number will remain consistent for projection purposes. The District received \$892,622.96 in economically disadvantaged funding in fiscal year 2021.

Beginning in Fiscal Year 2022 the State will fund "Student Wellness and Success" through the foundation formula and no longer as a separate fund. These funds will also be restricted to fund programs and activities that support students such as: mental and physical healthcare services, prevention education programs, wrap around services, mentoring and afterschool programs, programs geared toward homeless youth and those involved in the child welfare system, enhanced safety and security measures and improved family and community resource and engagement services. The district projection is based upon fiscal year 2021 receipts of \$1,103,650.00.

Total restricted state aid is expected to be \$2.2 million for fiscal year 2022 and projected to remain the same for fiscal year 2023 through 2026.

# Line 1.05 Property Tax Allocations

Property Tax Allocation is estimated based on projected Real Estate collections. The funding for this category is received from the 10% tax bill rollback and the 2.5% homestead exemption if applicable. This is the reimbursement received from the State for homestead and rollback. The hold harmless funding for the Tangible Personal Property Tax payments also is received in this category. The current reimbursement was phased out for FY17.

# Line 1.06 All Other Revenue

This includes investment earnings, tuition, local fees and other miscellaneous revenue. This category is not expected to have much growth. Investment earnings were held constant. Fluctuations here are predicated on cash balances as well as economic conditions. This category is forecasted based upon an average of historical trends.

# Line 2.05 Advances

This is mainly a repayment of advances from the General Fund to State and Federal grant funds that require advances at year end to balance due to reimbursement rules. Winton Woods does not have any advances due to other funds.

# **Expenditures**

## Line 3.01 Personnel Services

Staffing is based on the current levels with growth based on related annual enrollment increases or decreases. Personnel services also include all staffing changes implemented over the last three (3) fiscal years as well as for FY22. Negotiated salary increases have been included in the forecast. Horizontal and vertical step advancements have been included and projected for FY23 through FY26.

# Line 3.02 Employees' Retirement/Insurance Benefits

Benefits are projected using two categories. The first category, retirement benefits and Medicare, are included at the current employer contribution level of 14% and 1.45% respectively of salaries through FY25. The second category includes health care insurances that are based on demographic enrollments and rates. Future health care trends may result in a higher increase, which would negatively affect this forecast, currently a seven percent (7.0%) average increase has been projected for FY22 through FY26. Also included here are unemployment, worker's compensation and tuition reimbursement which were held constant.

## Line 3.03 Purchased Services

Purchased Services projections are based on enrollment, tuition trends and inflation. The major items included in Purchased Services are utilities, professional meeting expenses, substitute teachers, curriculum consultants, outside repairs, property and vehicle insurance, student transportation services and tuition for special education needs. Since the Bond Issue passed to construct new facilities, funding for major repairs has been held to a minimum since FY18.

There is a major decrease in purchased services for fiscal year 2022 since funds for tuition to other institutions will no longer flow through the district. The decrease for fiscal year 2022 is \$4,225,000.00 as follows: Community School \$2,100,000.00, Ed Choice \$370,000.00, Jon Peterson Scholarships \$325,000.00, Autism Scholarships \$335,000.00, Open Enrollment – Out \$1,125,000.00. Projections are increased at the average rate of four percent (4.0%).

Beginning in FY25 there will be approximately \$1million of purchased services expenditures returning to the general fund which was funded by ESSER and ARP ESSER funds through FY24.

# Line 3.04 Supplies and Materials

The major items included in Supplies and Materials are paper, computer supplies, software, textbooks and library books. Fluctuations from year to year will result from major textbook adoptions.

# Line 3.05 Capital Outlay

Capital Outlay projections are based on additional technology, building and equipment needs as the buildings and equipment age and need to be replaced. For FY22, \$97,000 has been included for small equipment replacement needs.

# Line 4.30 Other Objects

The major items included in Other Objects are county auditor and treasurer fees for collecting taxes, advertising for delinquent taxes and district memberships.

# Lines 5.XX Other Financing Uses

The Transfer line may include some contingency funds or transfer funds to make some provisions for unanticipated expenditures. Advances are necessary when a lag exists between the time money is expended and when grant money is received on a reimbursement basis. The District does not anticipate an advancement of funds for FY22. The District will have a need to transfer funds to the Athletic Fund for FY22 in the amount of \$40,000.

## Line 8.01 Estimated Encumbrances

Encumbrances are legal financial obligations of the District that have not been expended at fiscal year end. Encumbrances are projected to remain at the same level for the projection period. Any increase in this line item would result in an offsetting decrease in the actual cash expenditures listed in lines 5.01 to 5.05 and would therefore not affect the ending cash positions in any year.

## Line 9.03 Budget Reserve

This line item represents the amount required to be set aside for budget stabilization per House Bill 412. Senate Bill 345 eliminated the requirement for school districts to maintain a budget reserve.

## Lines 13.XX New Levies

This line item represents revenues which will be generated from a proposed additional \$3,000,000.00 emergency levy for five (5) years.

# **Summary**

With the implementation of past cost reductions and additional state aid the District has been able to build a cash reserve. The District needs to make every effort to maintain this cash reserve. The ending cash balance indicates the timing the Board of Education needs to request of the citizens an additional tax levy. The November 2021 levy failed. It is anticipated the Board will place the proposed levy on the May 2022 ballot. It will be for a \$3,000,000.00 five (5) year emergency levy, with collections beginning January 1, 2023.

This forecast is based on the above assumption and the information available on the day it was prepared. This forecast is subject to change as circumstances change or additional information becomes available.

Current fiscal year forecast data does not necessarily reflect current School District appropriations, budgets, certifications or other data maintained in the files of the School District, including the Office of the Treasurer of the Board of Education. Future forecast fiscal year data is compiled from public sources to the extent possible and reasonable. Historical data is based on fiscal year end data filed by the Treasurer of the Board of Education. Questions from the community and other users of this data are encouraged. The contact person is Randy Seymour, Treasurer, Board of Education.

# RESOLUTION ADOPTING JUNETEENTH HOLIDAY FOR ALL ADMINISTRATORS, SUPERVISORS, EXEMPT EMPLOYEES AND NONTEACHING EMPLOYEES WHO WORK 11 OR 12 MONTHS IN THE YEAR

WHEREAS, The Winton Woods City School District Board of Education recognizes the historical significance of Juneteenth National Independence Day also known as "Juneteenth," the June 19th federal holiday commemorating the emancipation of enslaved African Americans;

WHEREAS, Juneteenth originated in Galveston, Texas, where it has been celebrated annually on June 19th in various parts of the United States since 1865. The day was recognized as a federal holiday on June 17, 2021, when President Joe Biden signed the Juneteenth National Independence Day Act into law;

WHEREAS, Juneteenth's commemoration is on the anniversary date of the June 19, 1865, announcement of General Order No. 3 by Union Army General Gordon Granger, proclaiming freedom for enslaved people in Texas, which was the last state of the Confederacy with institutional slavery;

WHEREAS, President Abraham Lincoln's Emancipation Proclamation, issued on January 1, 1863, freed the enslaved people in Texas and all the other Southern secessionist states of the Confederacy except for parts of states not in rebellion. Enforcement of the Proclamation generally relied upon the advance of Union troops. Texas, as the most remote state of the former Confederacy, had seen an expansion of slavery and had a low presence of Union troops as the American Civil War ended; thus, enforcement there had been slow and inconsistent prior to Granger's announcement;

WHEREAS, Although the Emancipation Proclamation declared an end to slavery in the Confederate States, it did not end slavery in states that remained in the Union. For a short while after the fall of the Confederacy, slavery remained legal in two of the Union border states—Delaware and Kentucky. Those enslaved people were freed with the ratification of the Thirteenth Amendment to the Constitution, which abolished chattel slavery nationwide on December 6, 1865; and

WHEREAS, the Board wishes to honor the momentous day effective with the 2021-2022 school year by allowing 11- and 12-month employees opportunities to engage in meaningful reflection and celebration of the occasion.

THEREFORE, BE IT RESOLVED: Effective the 2021-22 school year, Juneteenth will be recognized as an official paid holiday for administrators, supervisors, exempt employees and non-teaching Winton Woods employees who work 11 or 12 months in the year, and no summer

school activities will be scheduled on that day. Moreover, When June 19 falls on a Saturday or Sunday, the holiday will be observed on the following Monday.

In witness thereof, we hereby affix our signatures on this 23 day of May, 2022.

Mr. Randy Seymour, Tyeasurer
