Phil King  
*Principal*

## English Electives

**Lantern Production** is a course in which students produce **Lantern**, Revere High School's award-winning student newspaper. Visit our online news site, rated #1 in the state last year, at [www.reverelantern.com](http://www.reverelantern.com).

In **Video Productions** courses students study various aspects of television productions. They learn how to properly operate various pieces of television equipment and how to write, direct and act in a studio production.

In **Drama** students learn nonverbal communication, body and stage geography, character development, verbal manipulation, and other presentation skills. In addition, students study make-up, costuming, props, sound effects, and other elements of theatrical performance.

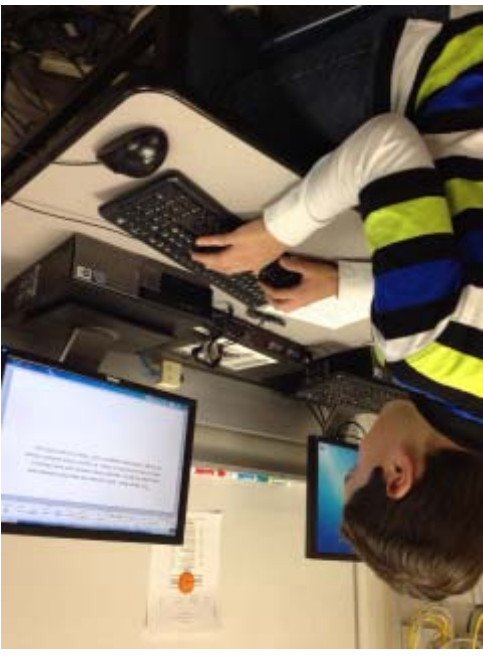

Our **Speech** course allows students to write, deliver, and evaluate various forms of speeches. In addition, students also partake in impromptu scenarios, circle interviewing, and various debate styles.

## Writing Program

In English classes at Revere, students take part in a four-year writing program that focuses on developing style and voice through mastery of the writing process.

In adherence to the Ohio Learning Standards, students write in the narrative, expository, persuasive, argumentative, and research-based forms each year.

The English Department's teachers utilize a consistent departmental writing rubric that allows students to progress through the four years of the program with consistent goals and expectations.

## English Classes

From the utilization of Literature Circles to in-class dramatic interpretations of Shakespeare, our English Language Arts classes provide students various opportunities to learn and grow as readers, writers, speakers, and thinkers, regardless of whether they study on the General, Comprehensive (College Prep), or Honors/Advanced Placement level.
