Welcome to the open house of the Revere School District. You are cordially invited to inspect all school facilities - Revere Senior High, Eastview Junior High, Bath, Hillcrest, and Richfield Elementary Schools, the administrative offices, and the bus garage. As you know, additions have just been completed on four of the five schools. Site development, namely, play areas, drives, drainage, and landscaping is at various stages of completion. A master plan for further site development is being prepared.

Each year our school population increases by more than one hundred pupils. This means a need for approximately four additional classrooms each year. Your support of Revere schools has made possible these facilities for your children.

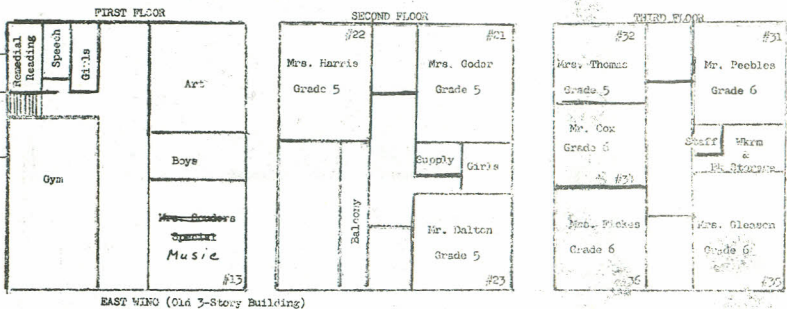

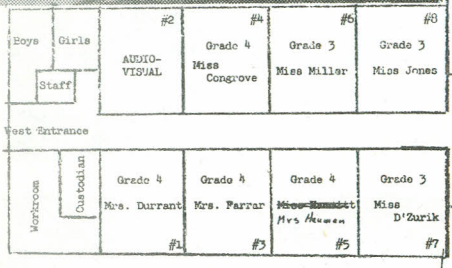

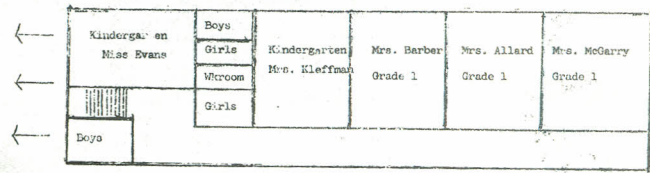

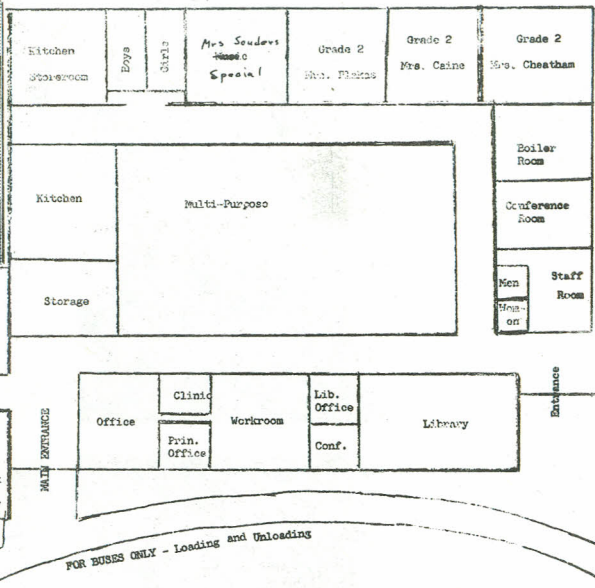

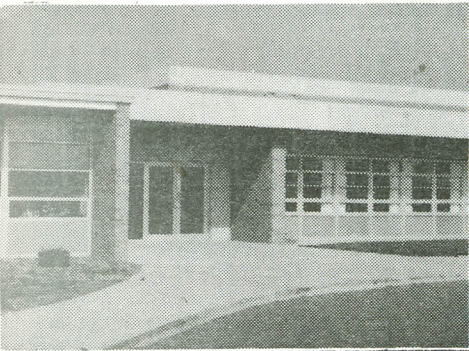

Floyd L. Ramp  
President,  
Revere  
Board of Education
