2023 Student Achievement - Nationally Recognized

The impressive student achievement of the Revere Local Schools is certainly nothing new. In fact, at times, I often feel as if the scores, accolades, and awards are taken for granted.

In a time when, nationally, Pre K - 12 public education is often spoken with disapproval and condemnation, Revere is excelling and succeeding. Several new reports highlight the education delivered by our impressive faculty/staff and the achievement of our terrific students.

Us News & World Reports (23 in Ohio)

Revere has improved its standing over the past three years and is currently ranked 23 in Ohio, out of 1,011 high schools. These results place Revere in the top two percent of all Ohio high schools!

Below is a brief description of each of the six ranking indicators and their weights (percentage) used to produce the overall score.

College Readiness - 30%

RHS Seniors who took and earned a qualifying score on at least one AP exam

Ohio Department of Education Assessment (Proficiency) - 20%

Aggregated scores on Ohio assessments that students are required to pass for graduation

Ohio Department of Education Assessment (Performance) - 20%

How aggregated scores compare with other schools given the proportions of Black, Hispanic, low-income students

Underserved Student Performance - 10%

Scores on Ohio assessments aggregated among Black, Hispanic, and low-income students. These scores are compared with what is typical in the state for non-underserved students.

College Prep Curriculum Breadth - 10%

The proportion of RHS seniors who took and earned qualifying scores on the AP exam in multiple areas. More exams are valued more than fewer exams, up to a maximum of four. Earning a qualifying score on an exam is worth 3X more than just taking the exam.

Graduation Rate - 10%

The proportion of RHS freshmen who graduated on-time (four years later).

Ohio Department of Education (Top 2%)

Performance Index

2023 - 103.8 (95.4%)

2022 - 102 (95.2%)

2021 - 101 (84.2%)

Revere is in the top 2% of schools in Ohio. Please, applaud our teachers and students for our student achievement.

While these data are impressive, please know that student safety and the daily student experience remains our strongest strategic deliverables. We want our schools to be a place where our students and employees want to be.

If you have yet to see our digital 2023 State of the Schools presentation or our "This is Revere" video, I highly recommend that you visit our website (<https://www.revereschools.org>). You'll find both of these videos on the front page of our website.

This is Revere...a wonderful high-achieving and student-centered school system!

#thisisrevere
