

? Marks for Averages

- Grading Scale – may have chosen Custom Set up 2 – but not using Custom Set-up 2.
-
- Using Custom Set up 2 but have not connected all assignments to assessments.
 - Also applies to Report Card Entry Page – Error – Report Card cannot be found – No Report Card Data
- On Report Card Entry – Multiple Report Card Windows are open
- Course is not attached to the report card
- If course has multiple grade levels attached to it, must be change to Custom Setup 1.

From Software Answers - Default grading scale looks at the course grade level of the class and matches it up with the report card grading scale.

Class - Course - Course Grade Level (if multiple it may not be able to distinguish what report card to use) → Report Card With Corresponding grade level → Grading Scale of report card

Grades won't save:

- Cross Reference is incorrect
 - PB Admin Home Page, Grading Setup, Cross Reference
- External Reference Mappings in Report Cards are missing
 - PB Admin Home Page, Report Card Builder, choose the report card, assessment tab, external reference column must be matched to the correct mark type in DASL. SAVE.
- Reporting term in Marking Pattern rule is in correct.
- Marking Pattern Rule (DASL) Mark type may be incorrect.
- Inactive Course/Course Section (DASL)

- Course must be marked CLASS (DASL) – school admin, scheduling admin, course maintenance, course, misc. tab.
- Grade Levels on Course in DASL and ProgressBook
- DASL report cards – Advanced Calc – pull from gradebook

Report Card Data Cannot be found

- Course not attached to report card
- Grade levels and buildings correct on report card
- Custom setup 2 - must choose correct report card
 - Same if incorrect report card is displaying
- Custom Setup 2 – Setup not complete
-
