### GL Education

[www.gl-education.com](http://www.gl-education.com)

At GL Education, we help teachers and senior leaders to deliver a personalised teaching and learning experience that allows students to reach their full potential. We take a 360 degree view of a student's education; one that goes beyond purely measuring attainment to one that evaluates potential, monitors progress and identifies barriers to learning. In turn this helps schools with:

- improving teaching and learning
- admissions
- improving results
- communication with parents
- benchmarking

Our assessments are used in the early identification of gifted and talented students; those who have a particular strength in STEM subjects and those who require specific interventions to reach their full potential.

Visit our website for more information and case studies about how our resources are used in international schools.
