Instructional Strategies:
- One on One individual instruction
- Intensive remediation of essential learning standards
- Building prerequisite skills to reach mastery
Supplemental Support

Title Interventions
- Reading Lab
- Math Lab

Interventions
- Teacher provided within classroom
How does a student qualify?
Dear Parent(s),

The goal of Gull Lake Community Schools is to provide ALL students with appropriate learning environments so that they may experience success.

Our school has several highly qualified teachers and paraprofessionals. Mrs. Joukar is the Reading Specialist and Mrs. Barnett is a paraprofessional who will also help students develop their literacy skills. Mr. Steele is the Math Specialist and Mrs. Ellsworth is a paraprofessional who will also help students develop their math skills.

At this time, your child [Child's Name] has been selected to receive extra help in the area of reading and/or math. This decision is based on the following:
- DIBELS testing (for reading)
- Diagnose testing (for math)
- Classroom assessments
- Classroom teacher recommendation
- Additional screening by the reading or math specialist

Your child will have regular reading and math instruction in his/her classroom as well as attend reading or math support. This may be short-term or long-term, depending on your child’s individual needs.

Your child is involved in:

<table>
<thead>
<tr>
<th>Reading Support</th>
<th>Math Support</th>
</tr>
</thead>
<tbody>
<tr>
<td>Tier 1: Benchmark Intervention</td>
<td>Students are provided minimal proactive interventions within the core instructional program.</td>
</tr>
<tr>
<td>Tier 2: Strategic Intervention</td>
<td>Students are provided with additional support to supplement the core curriculum and Tier 1. This additional support could be provided in a small group setting by the classroom teacher or Title I paraprofessionals.</td>
</tr>
<tr>
<td>Tier 3: Intensive Intervention</td>
<td>Students, demonstrating significant areas of weakness based on current assessment data, are provided with longer and more intense interventions. This additional support could be provided in a small group setting by the reading or math teacher and Title I paraprofessional.</td>
</tr>
</tbody>
</table>

Gull Lake Schools requires parental notification for Title I program participants as well as a signed copy of the home-school contract. Please read and sign the attached papers and return them to school as soon as possible. If you do not wish for your child to receive these services, please let your child’s teacher know with a written request. Additionally, there will be opportunities for parent involvement within the Title One program. Some of these programs include parent input as well as programs and resources to help your child succeed in reading and math.
