## CCHS Student Recruiting Team Starts Recruiting for the 2024-2025 School Year

Believe it or not CCHS is already preparing for 2024-2025 school year. Every year CCHS visits 20-30 middle schools and hosts multiple open houses to get the word out about our school. What is different about this year however is that current CCHS students will be assisting Mr. Kraus in the process. The team was created by 11th graders Ariana Gurule and Julia Rodriguez. They have already visited multiple middle schools and attended the APS School of Choice Fair in October at Berna Facio. They are also teaming with Ana Isabel Garcia, who is a fellow 11th grader and a Digital Media major at CNM, on a student led video to demonstrate to 8th graders what being a Night Wolf is all about.

“We wanted to start a recruitment team because when talking to people and they ask about our school they don’t know what I am talking about. Our school has amazing opportunities that everyone should know about, and just getting our schools name out there can open doors for so many different students,” Gurule explained.

The application is now open through February. Interested families should email Mr. Kraus [kraus\\_m@aps.edu](mailto:kraus_m@aps.edu) or Ms. Edith [alba.carreonperez@aps.edu](mailto:alba.carreonperez@aps.edu) for an application link. The lottery will take place on March 1st, 2024.

“We want people from all over to know about our school. We want students to realize that being a dual-credit student is not as scary as it sounds. CCHS is an amazing environment that truly inspires students. It introduces you to college and the staff will help you each step of the way.” Gurule stated.

## STUDENT PROFILE OF THE MONTH: NATHAN MAYER

This month we are profiling 12th grader Nathan Mayer (pictured below), who will earn Pre-Law degree in the spring at CNM.

### Why did you decide to go into Pre-Law?

“I want to be able to solve societal problems through the law. I have a fascination with justice and human psychology and I like to be challenged”.

### What are your plans after you graduate?

“I plan on getting my undergraduate at Texas Tech University and then going to law school at the University of Texas Austin. Once I pass the bar, I plan on being a corporate lawyer”.

### What advice do you have for 9th and 10th graders at CCHS?

“Ask her out. No matter who she is. Whether she’s a job, a new city, or an actual person. Whether she’s an opportunity or a fear. Ask her out”.
