

The Sweeny ISD Education Foundation is dedicated to providing grants to employees within the district, allowing them to bring innovative programs and projects to enhance education for our students. This commitment to ongoing improvement and educational growth is crucial to our mission, and we rely on your support to make it happen. By contributing to the Sweeny ISD Education Foundation, you can make a meaningful difference in the lives of our students and our community.

The Sweeny ISD Education Foundation offers the Bright Minds Grant program, awarded to faculty and staff who work tirelessly to bring enhanced educational experiences to our classrooms and students. With this program's help, we have brought 1:1 technology capability to our classrooms, fund virtual reality initiatives, and even take education outside of traditional classrooms through the Dolly Parton Imagination Library initiative.

Your support will enable us to offer more grants to Sweeny ISD faculty and staff, further enhancing the quality of education our teachers provide. Thank you for your consideration, and we hope to have your support in our mission to strengthen education in our community.
