

Attendance is Required!

The contact you get when attending a live class or help session, meeting with your advisor, or emailing, texting, and calling your teachers provides the connection to those who can help you.

How do I get attendance?

You need to make daily academic contact with every one of your teachers with whom you have a class. Attending a live Zoom class (with your camera on!) is the easiest way to do this. Make sure you're present for the whole class period!

What if I miss a class?

Watch the recordings of the class you missed, and attend that teacher's help session or communicate with them by email, text, or phone call to receive attendance! "I'm checking in" does not count!

What if I miss a whole day?

Have your responsible adult call the office to let us know, and make sure to go back and watch the recorded Zooms!
